CUSTOMER SUCCESS REPORT

CORPORATE LMS CATEGORY

An aerial photograph of a city skyline at dusk or dawn. The sky is a mix of light blue and orange. Numerous skyscrapers are visible, some with their lights on. A semi-transparent white rectangular box is overlaid on the left side of the image, containing the title and two paragraphs of text. The text is in a bold, black, sans-serif font. The overall aesthetic is modern and professional.

CORPORATE LMS OVERVIEW

A Corporate Learning Management System (LMS) helps a company to organize all its training materials. It can therefore be compared to a corporate intranet. These solutions focus on information storage, distribution, and sharing. For instance, if you make a video course on how to market your firm's products, each video can be made part of a standard learning track. The LMS can guide users throughout the track and help to evaluate their learning.

A Corporate LMS can also offer useful information such as calling scripts, customer success playbooks, product details, and more. In short, the platform provides a centralized location to store information and helps the enterprise focus on learning and development.

Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings. The overall Customer Success ranking is a weighted average based on 3 parts:

Content Score is affected by:

1. Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
2. Customer reference rating score
3. Year-over-year change in amount of customer references on FeaturedCustomers platform
4. Total # of profile views on FeaturedCustomers platform
5. Total # of customer reference views on FeaturedCustomers platform

Market Presence Score is affected by:

1. Social media followers including LinkedIn, Twitter, & Facebook
2. Vendor momentum based on web traffic and search trends
3. Organic SEO key term rankings
4. Company presence including # of press mentions

Company Score is affected by:

1. Total # of employees (based on social media and public resources)
2. Year-over-year change in # of employees over past 12 months
3. Glassdoor ranking
4. Venture capital raised

Customer Success Report Award Levels

Market Leader

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

Top Performer

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

Rising Star

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

"People have a lot of desire to grow themselves, but to take that time out of their job responsibilities, out of the customer needs, it's so hard. So Microlearning—something in short bursts that they can log in on their phones whenever and wherever is convenient—is really valuable for them."

Holly Heinze-Coolican
Director of People Development, Raymour & Flanigan

"We almost exclusively use Grovo's Create tool to make our own lessons or customize the off-the-shelf lessons from the Grovo Library. No matter what, we want our voice in it, so we use this doc to make sure every lesson reflects our principles of fun, enhancing personal growth, connection to learning and each other, and relevance to people's jobs."

Skye Tucker
Learning & Development Coordinator, Town & Country Markets

"Grovo is like a secret weapon. The ability to easily create custom content while leveraging a robust off-the-shelf library offers endless opportunities to link microlearning to key learning initiatives and experiences. It enables our team to drive our L&D strategy forward."

Dan Leavitt

"Until we developed and released our online leadership curriculum with CD2, the promise of eLearning was empty for the Ken Blanchard Companies and our clients. With CD2 our content has come alive online whether using a PC, MAC or mobile device. The game has changed forever!"

Scott Blanchard
Principal and Executive Vice President, Client Solutions, Ken Blanchard Companies

"CD2 has been instrumental in helping us develop our online educational resource. It is an industry changing, cutting edge program that will revolutionize the way the show horse industry learns and competes. They have been fantastic to work with and we look forward to many more years of this partnership."

David Dellin
Director of Judges, APHA

"Having a platform that was more intuitive and allowed for self-service was a big start. We are also much more focused on making sure the courses build upon each other and include more real-life examples to strategically influence the recipients. There is a greater focus on developing the managers instead of delivering content directly to the associates."

Ken Robison
Selling Process Manager, Pella Corporation

"The CD2 Learning Process Map was very helpful in breaking the learning up into smaller chunks and allowing people to move in and out of the class easily. The bite size pieces were critical to the success of the learning."

“As a partner, Intellum has been tremendous. They are truly a partner, in every sense of the word. Customer service is a big issue for G4S. Something we value and stake our reputation on. To know I receive the same quality of customer service from Intellum is priceless. They allow me to keep my attention focused on critical priorities rather than worrying...”
Carmen Murrell Randall
Director, Field Training Services, G4S

“We have experienced two other LMS products first-hand in the past 12 months, and believe me, there is NO comparison on any dimension service, user interface, features/ functionality, reporting, or cost. Intellum has those other products beat by a mile. I know they care as much about our implementation’s success as we do.”
Kristin Lynde
Director of Learning & Development, Randstad

“And the LMS has made delivering not only our anti-trust classes, but our entire course library simple and basically effortless. Now members just send out emails with employee logins and passwords, and then the entire training program nearly runs on autopilot.”
Charles L. Norton
General Counsel and Corporate Secretary, Coca-Cola Bottlers Association (CCBA)

“Intellum has supported not only a growth in size and scale but also complexity – Blueprint now offers a wide variety of content, including recorded webinars and customized learning paths.”

“Selecting the Latitude Learning LMS was part of a strategic initiative to create pathways to a more performance based support model. Our goal is that all the LMS users will be able to access a more user friendly interface and find all the tools they need in one place.”

Tracey Short
Program Manager, Learning Designs Incorporated

“Latitude’s LMS is very concise and does exactly what we need it to do such as deploy and record content as well as allow our technicians to be certified. If there is ever a compliance issue it is very simple to verify which technicians have taken which courses in the look-up process.”

Jim Wedoff
Technical Trainer, UniCarriers America Corporation

“The technology’s reporting abilities, licensing costs were all factors when deciding to select learning a platform. LatitudeLearning stood out amongst other LMS vendors in providing a seamless user experience.”

Ann Higgs
Director of Learning and Development, Greyston

“With LatitudeLearning, we’re able to reach a different and much wider audience. We’re also able to provide online courses, which prepares our members and non-members to become a certified arborist and is something we’re very proud of offering.”

Eduardo Aliskevich
Director of Educational Products and Services, International Society of Arboriculture

"We have been using MATRIX LMS for a time now and we couldn't be more pleased with it. We find it to be very user friendly and time efficient. We can easily reach out to learners and see their progress in courses. Our learners love the user interface and the fact that they can have access to materials anytime anywhere. We truly believe that MATRIX LMS is a great LMS!"

Coaching4 Clergy

"What impresses us about MATRIX LMS is that they are always improving. Not only are they anticipating market movement and adding features that keep it fresh, they are responsive to our specific needs in a way that makes us feel like one of their most valued clients."

Trueface

"We have been working on MATRIX for the past 4 years and find it a vast improvement on our earlier system, Backpack. I recommend it to others as being a great platform for these types of programs. We like that we have a professional looking platform for learners to access where they can manage their learning. It helps learners become self-sufficient and feel in control of their learning with administrator and faculty support in the background."

NeuroLeadership Institute

"Our company is very happy with MATRIX LMS as an eLearning platform. We have many learners and staff that rely on its user friendly interface and great audio/visual options. As an administrator, MATRIX LMS is easy to manage and has lots of features that make online training simple, but besides that the thing we love most of MATRIX LMS is the amazing customer support. We highly recommend it!"

Trish McDermott
Vice President of Communications & Community, Babierge

"We chose Northpass because of the sleek and modern interface, which promised our end-learners an easy and engaging learning experience. Before Northpass, we either had to do one-on-one trainings with new employees and partners or send them hastily compiled resources. Northpass allowed us to put together a robust product-learning curriculum in..."

Mondee Lu
User Advocate, Everlaw

"I find Northpass' user interface to be totally intuitive. I was able to train myself on the product and have been almost entirely self-sufficient throughout the development of our training curriculum."

Debra Swinson
Training Specialist, Turo

"By making training information more accessible, new team members are able to get acclimated more quickly, and seasoned employees can engage in refresher materials when they need it. As a whole, our training process has become a lot faster, with fewer errors overall."
