# CORPORATE SUSTAINABILITY SOFTWARE OVERVIEW

Corporate sustainability assists enterprises to manage their environmental impact, practice social responsibility, and be compliant with government standards on recycling, renewable resources, and emissions. By managing and measuring operations, organizations like real estate firms, governments, utilities, fleets, manufacturers, and others can decrease their carbon footprints and preserve their company's wellbeing as well as the environment.

Sustainability software enables enterprises to handle all the data generated in their operations – from fleet management, building maintenance, manufacturing etc. – to analyze their sustainability and effect on the environment. To accomplish this, organizations need to collect huge volumes of data about fuel costs, facility water and energy usage, utility bills, and other sources.

# Customer Success Report
## Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings. The overall Customer Success ranking is a weighted average based on 3 parts:

**Content Score** is affected by:

1. Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
2. Customer reference rating score
3. Year-over-year change in amount of customer references on FeaturedCustomers platform
4. Total # of profile views on FeaturedCustomers platform
5. Total # of customer reference views on FeaturedCustomers platform

**Market Presence Score** is affected by:

1. Social media followers including LinkedIn, Twitter, & Facebook
2. Vendor momentum based on web traffic and search trends
3. Organic SEO key term rankings
4. Company presence including # of press mentions

**Company Score** is affected by:

1. Total # of employees (based on social media and public resources)
2. Year-over-year change in # of employees over past 12 months
3. Glassdoor ranking
4. Venture capital raised

## Customer Success Report Award Levels

### Market Leader

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

### Top Performer

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

### Rising Star

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

"Everything is now in one place, so we don't have to hunt down the information from various sources. It is all held centrally giving us clear visibility and control. The reporting function enables us to identify patterns and trends so that companywide measures can be put in place to prevent reoccurrences."

**Veolia**

---

"Flexibility is one of the strengths of the Sphera software. We needed a system that could provide powerful data handling and reporting capabilities at large, complex processing facilities with hundreds of compliance tasks, while still being easy to use for a small country grain elevator that has fewer tasks."

**Dan Taylor**
**Environmental Project Manager, Archer Daniels Midland**

---

"We now have a web-based platform that centralizes our data collection, automates calculations of our carbon and energy footprint, delivers point-and-click sustainability reporting, reduces data errors, and streamlines our GRI reporting process."

**Barry Enix**
**Corporate Safety Director, Buckman**

---

"The Sphera system helps us determine what materials we can and cannot use in our customers' products. I can look at the proposed ingredients and see which ones we should use to meet requirements for our current markets and gain access to new ones in other countries."

# One Click LCA

## TRUSTED BY

ZOO ATLANTA    SKANSKA    Colliers INTERNATIONAL    IKEA    L'ORÉAL PARIS

### ABOUT ONE CLICK LCA

One Click LCA is an easy and fast life-cycle metrics software. It helps construction professionals reduce carbon, costs and material use. The software integrates with Building Information Modeling (BIM) and extensive database to automate Life Cycle Assessment in any stage of the project. It produces reliable results complying with 40+ certifications, e.g., BREEAM, LEED v4, NS 3720, DGNB, Engergie Carbon, etc.

## 66

Customer references from happy One Click LCA users

**VIEW ALL REFERENCES**

---

"One Click LCA is very intuitive, has a large materials database and fast support. I'd definitely recommend it, and we are looking forward to using it in future projects."

**Erlend Kulander**
**Kvitrud, Energy Advisor, Niras**

---

"One Click LCA allowed us to deliver an LCA in a schedule we could otherwise hardly have met. The tool is very flexible, standards-compliant and has a competent support."

**Andreas Asker**
**Environmental Consultant, WSP Sverige AB, Sweden**

---

"I found the ability to see the results on a very granular level the most valuable. For example, you can see the results broken down into individual materials. Unlike other tools that I've used, they just give you the bulk results by life-cycle phase but not by material. With One Click LCA, it's much easier to find ways to reduce carbon when you have that...

**Ryan Zizzo**
**Founder and COO, Mantle314 Inc**

---

"It was a very good learning experience to use the One Click LCA tool: the main advantage is that I didn't need to carry out the calculations of quantities, and I also liked the intuitive feel of the tool, the ease of use and simple clear layout."

**Kunal Gaidhankar**
**BIM Architect, HafenCity University Hamburg, Germany**
