Medical Practice Management Category

Medical Practice Management Category

Medical practice management software (PMS) is designed to assist medical offices of all sizes to operate more efficiently. The capabilities of PMS include: entering and monitoring patients, storing patient demographics, scheduling patient appointments, handling charge capture, executing billing procedures, presenting insurance claims, processing payments from third parties, insurance providers, and patients, and producing reports for employees.

Medical PMS can be used to store and maintain patient records as well as manage large data sets, including details of physicians and other health care providers, medical facilities, insurance companies, procedures, and ICD codes. Medical PMS needs just an internet connection and a basic computer network. There are three types of deployment: client-server software, desktop-only software, and internet-based software.

Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- Customer reference rating score
- Year-over-year change in amount of customer references on FeaturedCustomers platform
- Total # of profile views on FeaturedCustomers platform
- Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- Social media followers including LinkedIn, Twitter, & Facebook
- Vendor momentum based on web traffic and search trends
- Organic SEO key term rankings
- Company presence including # of press mentions

COMPANY SCORE

- Total # of employees (based on social media and public resources)
- Year-over-year change in # of employees over past 12 months
- Glassdoor ranking
- Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

kareo™

ABOUT KAREO

Kareo is the leading cloud-based and complete medical technology platform purpose built to meet the unique needs of independent practices. Today they help over 50,000 providers in all 50 states run more efficient and profitable practices, while deliver outstanding patient care. In 2016, Kareo introduced the first technology platform that helps independent practices manage their care with a fully certified and easy to use EHR, optimize their revenue cycle management and improve the end-to-end patient experience – all in one complete and integrated package. Kareo has received extensive industry recognition, including the Frost & Sullivan Enabling Technology Leadership Award, being named the Deloitte Technology Fast 500, Inc. 5000 and Black Book's #1 Integrated EHR, Practice Management and Medical Billing Vendor. With offices across the country, their mission is to help independent practices succeed ...

Featured Testimonials

Without a strong practice management system like Kareo Billing we couldn't stay on top of billing and manage A/R, and without a flexible full-featured EHR like Kareo Clinical we wouldn't have a smooth flowing patient experience.

PAMELA MCQUILLIN
PRACTICE MANAGER, TOTAL HEALTHCARE FOR WOMEN

We officially began using the Kareo Practice Management software on January 1, 2015. The price is right and the software was easy to learn. They provide great training no matter what kind of learner you may be. You can read articles, view videos, watch webcasts or talk to support via phone or email. Our transition went very smoothly and I am extremely satisfied with the software.

VIVIAN STURZ
OFFICE MANAGER, THOMAS P. MCGOVERN, MD

Kareo is integrated with our EMA Orthopaedic EMR. It has made our billing workflow from office visit to claim processing streamlined in the most efficient of processes. Billing follow ups and clearinghouse reports are easily accessible. The scheduler and demographics portion of the PM is user friendly with a simplistic layout from one screen to the next. Kareo has helped our practice move to another of the collections process and we would recommend it highly to anyone.

CATHLEEN SANFORD
OFFICE MANAGER, JESU JACOB, DO, PC

Before, if I wanted to look at the performance of our company at a global level, I was never able to do it. Now, I have that ability to see the big picture in a quick snapshot, and then I can drill down into a specific practice and see what's going on with their A/R. Kareo has given me a way to look at all my clients at an enterprise level and to provide our independent practices the stability and accountability they need to succeed.

ABOUT ECLINICALWORKS

eClinicalWorks
"Improving Healthcare Together"

eClinicalWorks® is a privately held leader in ambulatory healthcare IT solutions. With physicians across all 50 states using its solutions, customers include ACOs, physician practices, outpatient departments of hospitals, health centers, departments of health and convenient care clinics. Thirteen eClinicalWorks customers have received the prestigious HIMSS Davies Awards during the past eight years, honoring excellence in electronic health record implementation. The company is the second largest in the country for e-prescribing.

Featured Testimonials

❝ *Having eClinicalWorks has made my job easier because I have access to all of the data from the patient when they call me to ask for something. I can talk to the other providers, access patients' charts, and make appointments. All of that is really easy.* ❞

MICHELLE ALVARADO
CLINICAL CARE MANAGER, PROJECT VIDA

❝ *I love the Portal, And, more importantly, my medical assistant loves the Portal, and that is a big part of how I sell it. I explain to patients that by utilizing the Portal, they can communicate with us 24/7. People can send me messages, I can see those messages and respond to them, without interrupting my patient flow, and without playing phone tag with patients.* ❞

AMY HAYES
OBSTETRICS AND GYNECOLOGY GROUP, CARSON MEDICAL GROUP

❝ *We're able to jump back into previous records, which were on Epic, to look up old records, old tests, old histories, everything. We just click a button in eClinicalWorks, and it will give us a patient's Problem List, allergies, medications, family history, social history, and immunizations. We can obtain Tampa General records by putting in a code, and they send us a code on our phone. We enter that and right away we can get into the Tampa General chart. It's made our care of patients much better.* ❞

SUSAN STEEN
NEUROLOGIST, FIRST CHOICE NEUROLOGY

❝ *The text messages are huge, because patients are so busy. The registry. And the HEDIS dashboards. And we're looking forward to mobile tools so that on-call doctors have access and can document and prescribe when outside the office. Without the tools eClinicalWorks provides, we wouldn't have been able to do what we do.* ❞

Total Customer References

Featured Testimonials

> We were using Azalea PM system and Spring Charts for our clinical needs. We made the decision to begin using Azalea EHR because of the seamless integration with Azalea PM. We have quickly adjusted to the easy to learn Azalea EHR due in large part to its adaptable interface paired with the excellent support we have received from the Azalea staff. Most EHR vendors will give you the formula and expect you to adjust to it. From my experience, Azalea Health will listen to our needs and adapt to what will work best for our practice.

JENNIFER COLLIER-MADON
MD, GRINER MEDICAL GROUP

> We chose to go with Azalea PM because of the personal support and training Azalea offered. They were also willing and able to adapt Azalea PM to suit our specific needs. Although we received expert training from the Client Relations Team, the intuitive nature of Azalea PM enabled my staff to learn the system almost immediately. I would gladly recommend Azalea PM to others.

ALAN PEASLEE
SOUTH GEORGIA EYE PARTNERS

> Azalea Health's billing service has improved our collections process immensely. Their operating system, Azalea PM, allows me to have excellent access to our practice billing information at all times. The Azalea EHR system is intuitive, streamlined, and extremely easy to learn. Azalea's staff has been accessible and accommodating. We really feel like our success is one of Azalea Health's main priorities!

ERIC M. WARD
VALDOSTA GASTRO AND ENDOSCOPY CENTER

> I have found Azalea EHR to be extremely customizable and adaptable to my practice. The cloud-based system learns its users and even carries preferred data over into each patient chart. This makes documentation far less time consuming than previous systems I have used. Azalea EHR is an easy-to-learn system that is intuitive and physician friendly and support is always available! I would recommend implementing Azalea's software systems into any practice.

ABOUT DRCHRONO

dr chrono

DrChrono focuses on bringing the medical practice of the future to reality; the company built the first iPad EHR. DrChrono creates the best electronic health record, practice management, medical billing and revenue cycle management experience for physicians and patients; the health platform was built for iPad, iPhone, Apple Watch and the web. The EHR includes customizable medical forms, e-prescribing, real-time patient eligibility checks, patient portal and more. The healthcare App Directory offers a multitude of apps that a practice can select from to bundle in and a medical API for healthcare app developers.

Featured Testimonials

❝ To other optometry practices considering DrChrono, I would say that this system is a game-changer. Once the forms have been customized to your liking, charting and patient care is so much easier. The system is very intuitive and bease to use. I'm able to finish work at home, check or change my schedule from anywhere - even [fron] my iPhone. ❞

CYNTHIA SAYERS
EYESHOP OPTICAL CENTER

❝ It didn't take us long to get adjusted to and all of our new staff find DrChrono to be very intuitive. We can look up patients by any data type: phone, birthday, name, etc. It's all a plus and really easy to navigate. When we fax from DrChrono, I like the ability to send select items electronically straight from the patient chart and I can always check the successful delivery. DrChrono's practice management also helps to confirm appointments. ❞

YAZEN JOUDEH
CENTER FOR ADULT AND PEDIATRIC WELLNESS

❝ Very easy for doctors to make great notes, wide breadth of functionality including patient portal, faxing, direct messaging, electronic reminders, diagramming and photos in charts. It's easy to use and staff requires almost no training to get started. ❞

EESHA BHATTACHARYYA
KO'OLAU WOMEN'S HEALTHCARE

❝ I found that the speech-to-text technology was very adaptive to my speech style. I noticed very quickly that if I spoke at my normal pace, or even faster-than-normal, the speech-to-text captured my notes perfectly. DrChrono's medical speech-to-text has drastically reduced the time I spend charting. ❞

ABOUT WRS HEALTH

WRSHealth

WRS Health, formerly Waiting Room Solutions, is the leading web-based provider of fully integrated EHR and Practice Management software solutions for over 32 medical specialties. In 2015, WRS Health was awarded the Surescripts White Coat of Quality Award for e-Prescribing Best Practices for the fifth time. WRS Health seamlessly integrates all of the clinical and business functions required for healthcare providers, including: Electronic Medical Records, Revenue Cycle Management, Personal Health Records, electronic prescribing (eRx), scheduling, website creation and content management, messaging, fax, order tracking, and billing — all at an affordable price. WRS Health is a Surescripts® Solution Provider for its web-based Electronic Medical Record (EHR) and Practice Management System (PM) V6.0.

Featured Testimonials

" *I can see our practice using this Telehealth functionality far into the future. I love the fact that it is integrated into the workflow we already have established. The transition to using Telehealth in our practice has been seamless. It is intuitive and was easy for my staff to learn in a short period of time.* **"**

RICK LUCAS
PRACTICE ADMINISTRATOR, RIVER ENT

" *E-prescribing is integrated into WRS. It is not a separate software, so it has been the biggest time saver for me. You can keep track of patients' medications during the exam and move on to refills. There's one place to do it. You don't need to take a note of all the medications that they are taking, then rewrite the prescriptions, make a call for refills, then rewrite the prescription again, and then make another call. You just click on the software.* **"**

RICHARD GORDON
RAMAPO OPHTHALMOLOGY ASSOCIATES

" *The easiest part about WRS is the billing. It's a click of a button and the claim goes to my clearinghouse. My office manager doesn't have to get involved. I see the patient and I just put the claim through. You go to the claims section and hit the button and it sends it on through. This frees up the office manager for other duties.* **"**

MARLA SMITH
SPECIALIZES IN GYNECOLOGY, WATERLOO WOMEN'S HEALTH

" *I like the e-prescribing capability. It's efficient. I like the idea of automatic refills. I can check interactions before I e-prescribe and once the interactions are checked, it gives me a better sense of comfort and confidence.* **"**

" We chose ChARM because of its features and because we could really customize it for our practice. We can communicate with our patients through the patient portal very easily and we also take advantage of being able to customize our own templates. Integrating with ChARM was very simple. We easily got set up and any time we have a question or issue, we always get the best help. "

DAWDA POUNCY
FUNCTIONAL HEALTH & WELLNESS

" I have a private practice in Endobiogeny, a form of integrative medicine. ChARM EHR was a natural choice for me. ChARM offers a modular and completely customizable platform that allows for both standard and non-standard medical assessments and treatments to be prescribed and tracked. The inclusion of patient management tools such as scheduling and email communication allows for a complete package for managing my practice. It also allows for me to stay in touch with my patients no matter where they or I am, around the world at any time. "

KAMYAR M. HEDAYAT
FULL SPECTRUM HEALTH

" My graduate students have used ChARM EHR for the past two years as part of an electronic health records course taught at the University of West Florida. They were impressed with how intuitive the user interface is and how well the program functioned. It was easy for them to create test patients, sample lab data and billing experiences with a minimum of training. High marks for usability. "

ROBERT HOYT
DIRECTOR, MEDICAL INFORMATICS PROGRAM, UNIVERSITY OF WEST FLORIDA

" I write this recommendation of ChARM EHR with joy. It is a truly unique EHR platform that allows me great flexibility in documentation and management of my holistic pediatric practice. In this system I am able to document vaccines and conventional medications as easily as supplements and other holistic/integrative therapies I use. My families have enjoyed the patient portal and the secured communication tool and access to their children's health records it provides. The ChARM management team has been wonderful and very responsive to specific requests we have had for development of individualized templates and other features within the system. "

Featured Testimonials

66 *ChartLogic has been a huge benefit, and there is much less stress on me knowing that most patients will respond to billing in a timely manner. It takes about 14 to 15 days turnaround from the time I see a patient to reimbursement. The other physician and I are both entering our own codes and basically doing our own billing. It's just a super fast turnaround.* 99

DENVER CARDER
DPM AND OWNER, MAGEE FAMILY FOOT CARE

66 *The implementation of ChartLogic into our practice has increased the quality and accessibility of our patient medical records, while at the same time eliminated transcription and other overhead costs.* 99

JAMES W. STRICKLAND
RECONSTRUCTIVE HAND SURGEONS OF INDIANA

66 *The determining factors for choosing ChartLogic were its ease of use, cost, and the customization of templates. The implementation process overall went very smoothly.* 99

STACIE CHAPMAN
PRACTICE ADMINISTRATOR, ENT ASSOCIATES OF EAST TEXAS

66 *I think the dictation directly into the chart is huge, and that makes the process much more efficient - the ability to reply to letters and get that information to the appropriate referral sources or other sources is big. That increases efficiency and it keeps everybody in the know of what's going on with that particular patient.* 99

Featured Testimonials

❝ *Compulink's EHR was very effective right 'out of the box.' We thought customizing it would be too difficult, but it has actually been fairly easy to do. Moving some fields around and better defining our default treatment plans, for example, has really helped us realize the efficiencies of EHR. Our transitions would have gone faster and more smoothly had we done that from the beginning.* ❞

    JOSEPH STUDEBAKER
    DOCTOR OF OPTOMETRY, NORTHWEST OPTOMETRY, LLC

❝ *Compulink's Psych Advantage makes it really easy to implement EHR. If we have any questions, Compulink's staff is really good. Their response time has been quick and they spend time with us anytime we have a question. Their staff is really, really helpful.* ❞

    ANIL GUPTA
    MD, AR PSYCHIATRIC & COUNSELING CENTER

❝ *Functions such as automatic remittance posting also takes much of the labor out of working with Medicare and other large third-party payers.* ❞

    DARRELL PICKARD
    MD, MCGEE, PICKARD & ROBINSON EYE ASSOCIATES

❝ *No electronic health record is perfect, but I think Compulink hits it just right in combining several functions in one program. From our perspective, it's an affordable solution that accomplishes all these tasks. Within Compulink, you're able to service multiple areas of your practice, from billing and administration with the reports that you get, all the way to an effective and modifiable health record. I think it's a really good program.* ❞

Featured Testimonials

66 *PulseRCM has helped our office tremendously. Pulse files our claims, ensures payments are received and posted, processes appeals, and spends much time on the phone with insurance companies to increase reimbursements. The Pulse team is also always willing to speak with our patients and help when issues arise.* 99

LAURA ABSHIRE
OFFICE MANAGER, FEIGENBAUM NEUROSURGERY

66 *We use the full range of Revenue Cycle Management services from Pulse. We benchmark RCM performance, and we're in the top 10% of our specialty, with a 98.7% clean claims submission rate on the first pass. Any claims that are denied or need to be reworked, Pulse handles the follow-up. We've realized an increase in our charges, a significant increase in receipts and fewer days in A/R. With Pulse, we definitely achieve better cash flow and position.* 99

DEREK ARMSTRONG
CHIEF EXECUTIVE OFFICER, MIDWEST ORTHOPAEDIC CENTER

66 *The software is easy to use and makes it possible to achieve the seemingly impossible challenges set before our staff. Even during our transition to ICD-10, it was basically effortless on our staff's part. There were no glitches, no missed payments and hardly an extra minute of our precious time was wasted on worrying or unnecessary training.* 99

LESLIE ROBBINS
PRACTICE MANAGER, VASCULAR TYLER

66 *Pulse's customizable solutions have enabled us to meet the RCM needs of our high-volume practice while ensuring our revenue cycle team follows best-practice processes that support best-in-class results. Claims are approved sooner, with fewer complications, and days in A/R have been cut in half.* 99

Featured Testimonials

66 *Med Associates, Inc. has found the tools within SequelMed's EPM to be quite helpful. Utilizing the Business Intelligence tool to pull reports makes the process easier and quicker, while the built in follow-up and collections module aids in following up on unresolved claims. The system lends to the productivity and efficiency that the company demands.* 99

CATHY ALVEY
MED ASSOCIATES, INC.

66 *Upon implementing SequelMed's EHR at Advanced Rheumatology, the workflow has improved. The ability to have pertinent patient information in a centrally located database has been quite beneficial as referring to a health record is as easy as clicking a button. Features in the system that are most useful are the ability to generate notes, send information to referring physicians and ePrescribe.* 99

LOUISE RAMINFARD
ADVANCED RHEUMATOLOGY

66 *Billing performance and staff efficiency has improved dramatically since we adopted SequelMed's EPM system seven years ago and we have found responsiveness and support to be great. SequelMed's robust reporting capability also enables us to track every claim, monitor payer reimbursement, and easily extract all of the decision support information we need. The whole system makes day-to-day workflow, collections and follow-up easy to manage.* 99

CRAIG ADKINS
ENGAGE HEALTHCARE BUSINESS SOLUTIONS

66 *I have found that the user friendly templates have improved my workflow and made charting patient information a much quicker process. The ability to have all the information in one centralized database is quite helpful and beneficial for me and the practice staff.* 99
