Corporate Wellness Software Category

Corporate wellness software applications give enterprises the features to implement, administer, and manage wellness programs. These tools provide organizations with programs to encourage their staff to select and maintain healthy lifestyle habits. They benefit all departments, company sizes, and industries as these tools help to create a health-oriented work culture as well as a social support platform for staff members.

Corporate wellness software presents functionalities such as confidential health assessments, health education, staff participation and progress tracking, mobile apps for ease of use, rewards and incentives, and more. These applications can be integrated with core HR tools to facilitate effortless management by administrators and with benefits administrations systems to offer convenient access to staff members. Corporate wellness software assists companies to promote organization-wide health and wellness. They offer reporting capabilities that measure program effectiveness and activity.

Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ▣ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ▣ Customer reference rating score
- ▣ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ▣ Total # of profile views on FeaturedCustomers platform
- ▣ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ▣ Social media followers including LinkedIn, Twitter, & Facebook
- ▣ Vendor momentum based on web traffic and search trends
- ▣ Organic SEO key term rankings
- ▣ Company presence including # of press mentions

COMPANY SCORE

- ▣ Total # of employees (based on social media and public resources)
- ▣ Year-over-year change in # of employees over past 12 months
- ▣ Glassdoor ranking
- ▣ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

ABOUT COREHEALTH TECHNOLOGIES

CoreHealth Technologies Inc. is a total well-being technology company trusted by global providers to power their health and wellness programs. Our wellness portals help maximize health, engagement and productivity for 3+ million employees worldwide. We believe people are the driving force of organizations and supporting them to make behavior changes to improve employee health is in everyone's best interest. With the most flexibility, customizations and integrations of any software in its class, CoreHealth's all-in-one, white-labeled wellness platform helps grow great wellness companies. Simple to sophisticated, based on you.

Featured Testimonials

“We have enjoyed working with CoreHealth! From the sales process, to implementation and ongoing support; they have been responsive and always willing to help in any way possible. The flexibility and interoperability of the CoreHealth platform has allowed us to stay competitive in the ever-changing landscape of health and wellbeing. One key-differentiator we saw in CoreHealth was their commitment to being a technology provider and not a program provider. As a program provider, you don't want to compete with your technology vendor for business. Not only do we not compete directly, but CoreHealth has been an excellent source of lead-generation and a valued partner in promoting our integrated care management solutions. Their commitment to innovation and technology gives us confidence that we will have a platform that is relevant and competitive for years to come.”

DAVID ENNOR
DIRECTOR, PROGRAM AND BUSINESS DEVELOPMENT, HMC HEALTHWORKS

“CoreHealth provides our business with a comprehensive system for wellness program management that's easy to use. The program consultants on our staff who manage the Core site are able to customize the look and the feel of nearly every component (challenges, pages, maps, trackers, etc.)”

KRISTIN KUCH
MANAGER, MERCYCARE BUSINESS HEALTH SOLUTIONS

“We are able to deliver a unique and engaging experience because we have a technology partner that says, “Yeah, we can do that,” every time we throw a curveball their way. We see CoreHealth Technologies as more than a partner. They are a member of the TAVi Health team.”

TANYA HARGRAVE-KLEIN
OWNER, TAVI HEALTH

“CoreHealth offers a powerful framework of tools to administer our customized wellness solutions. Beyond the basic site design features, the platform allows us to quickly integrate all types of data--from blood screening metrics, eligibility fields, and of course, user-submitted data in the platform--in an easy-to-understand interface. The challenges and coaching programs help us engage populations in health-promoting activities while tracking their credit for their participation. We cater to the health needs of different groups and subgroups by targeting our health education based on biometric values. Together, the site's toolkit elevates our tracking and communication with users so that users can get all the health information they need and see their wellness program status in live time.”

“I've had a Fitbit since our walking pilot program started a few years ago. I especially like the challenge feature in the Fitbit app—it's a fun way to keep us all moving and working to have more steps. Now I'm even challenging my building mates to get on the treadmills and keep up their steps, too!”

JENNY MISEK
SENIOR RESEARCH SCIENTIST, KIMBERLY-CLARK

“The CiscoACTIVE challenge powered by Fitbit was an amazing program to be part of and I loved hearing all the positive comments from our employees. Seeing employees who did not traditionally engage in physical activity become involved in team and individual fitness challenges was the ultimate outcome. Along with that, we created a very strong health and wellness culture across the company, and had a great deal of fun.”

ADRIAN WEST
HEAD OF HR, CISCO ANZ

“The health and wellbeing of employees is a top priority for National Grid. That is why we decided to sign up for the Fitbit Health Solutions programme and I've been delighted with the results I've seen so far. It's given me the opportunity to engage with my teams and be part of the interactive challenges, which has created a real buzz around our sites. I strongly believe a happier and healthier workforce is essential to driving a business forward, so I welcome initiatives like this and the obvious benefits they bring.”

JON BUTTERWORTH
PRESIDENT & COO GLOBAL TRANSMISSION, NATIONAL GRID

“Fitbit Corporate Challenges helped enhance our employee experience by offering the latest wearable technology and allowing us to bring multiple office locations together. For the first time, we were able to engage friends and family in our program—and also make a difference in the health of our communities where we live and work.”
