ABOUT iMIS

iMIS

iMIS is a recognized global, industry thought leader that focuses on helping associations and not-for-profits increase operational and financial performance through the use of best practices, proven solutions, and ongoing client advisement. Since 1991, ASI has served nearly 4,000 clients and millions of users worldwide, both directly and indirectly through a network of over 100 partners, and currently maintains corporate offices in the USA, UK, Canada, and Australia.

Featured Testimonials

“iMIS gives our associations the ability to give their members a seamless online experience with eCommerce, to track engagement, and manage their website all in one. We manage all types of associations from Trade to Professional and we've found that most of their business rules can be configured within iMIS. We've started a concept we call the "Executive Portal" which is made available to the Board of Directors and selected Executives to provide up to the minute information at a glance. Making this portal available to Board members saves staff time because they do not have to run reports which are outdated the moment they're printed. It also provides the Board with up to the minute information all without using up an iMIS seat license.”

KIM ENGLE
KELLEN

“We've been using iMIS for 20 years but over the past few years we have really put the tools the database offers to work. The reporting and automation capabilities have created efficiencies that allow the staff to do their job more efficiently. The ease of use of the staff site has allowed more staff to learn and own their data. And the ability to create good-looking and user-friendly websites have made it easier for members to login, register and maintain their own profiles.”

ISABEL CARRION
THE TOY ASSOCIATION

“Something that I really love about iMIS is its flexibility. We can put any piece of data on a page that we want either for our staff or for the public. And as a bonus, our staff can get to the data that they need anywhere they are with the staff site.”

TEXAS BANKERS ASSOCIATION

“As a trade association we offer a variety of products and services for our members and needed a mobile friendly, flexible and organized in a way that was easy for staff to see. iMIS checked all those boxes. One of my favorite things about iMIS are the staff dashboards. These dashboards offer a visual way for us to use our data. We can create pie charts, bar charts, flow charts, you name it and you can create it in iMIS. They have a lot of out-of-the-box options, but we have customized some of ours to meet our specific needs.”

“As an organization, we required our association management software to come as SaaS [software-as-a-service], but we didn't want to sacrifice functionality. Euclid was able to quickly deliver us a 'best of both worlds' solution with ClearVantage Sapphire. We are impressed by all that CV Sapphire has to offer in addition to its smooth, quick and painless on-boarding process.”

HORACIO GAVILAN
CULTURE MARKETING COUNCIL

“The Alaska Bar Association conducted an extensive search for new association management software. We needed software that could efficiently manage the needs of our bar association, such as license renewal and MCLE. A big draw was the real-time integration with our website, which will allow our members to do even more functions online, such as CLE registration and payment. The Bar will also be able to more easily provide member information on the website, such as current Section members. Euclid Technology has an excellent reputation within the bar association community and ultimately it was that reputation that sold us on ClearVantage.”

DEBORAH O'REGAN
ALASKA BAR ASSOCIATION

“We initially chose Euclid based on its well regarded software and reputation within our industry. From a technological perspective, we can now offer more to our members, particularly with our online features. Our website and AMS provide self-service capabilities to our members, including online registration. Euclid implemented a newly designed website in both English and French, and a web-based system, Euclid's CLAS, manages many of our chapter functions. We also increased our capacity for marketing and communications. It's been a great partnership to date, and I expect that it will only get better for both Euclid and CSAE in the future.”

MICHAEL ANDERSON

“Our favorite features are the tools we use every day. The membership management module, events module, and email campaigns module have been beneficial to us. Initially, we have not had a system where all these are interconnected. I cannot say I like any in particular, just that they are all integrated, and working together as one unit is the best feature of Glue Up.”

ABBY MCBRIDE
SOCIETY COMMUNICATOR, NORDIC SOCIETY OIKOS

“Our members are giving us amazing feedback since we automated our processes with Glue Up all in one membership management solution. “Glue Up's membership management software fit our budget at a time when the travel industry was adversely affected by the COVID-19 pandemic. Adopting Glue Up was an affordable way for us to keep all our membership benefits, and at the same time, reduce the costs of management. Moreover, Glue Up improved our management processes by combining systems that were initially separate onto one platform. “We came from another association software that did not have all the features that MemberLeap offers. We were able to have one website connected with our database and that has been great. There are certain features that we wanted that we had to have the developer design for us. It took a while but we were happy with the end result. We have immediate benefits from the first conference being on the website and the reports that we're able to pull up. Customer service is very good and the response time is excellent. The only downside I've seen is that with my prior database, we had just 2 support people who were expert on everything with our old software and with MemberLeap people have specialties.”

The system is user friendly and it streamlined our operations.”

AMANDA YANCEY
OPERATIONS DIRECTOR, OHIO HEAD START ASSOCIATION

“We have a good working relationship with MemberLeap. They offer a good overall product for Member Management, Member Communication, and Event Management at a good price. They have many more capabilities that we have not taken advantage of. When we have needs that are beyond the current capabilities of their system they work with us to do custom programming to meet our needs at a reasonable price and on a good implementation schedule. We appreciate their service, agility, and flexibility.”

ABOUT NOVI AMS

Novi AMS is the only AMS that was created by associations, for associations. That's what makes Novi AMS different, you! Novi AMS is software designed to manage trade organizations who are looking to simplify their day to day operations and accounting procedures. Part of what makes Novi different is the fact that they have had a group of association executives collaborating with them on developing the software since day one. They found that they have been able to save their association partners 20-40 hours per week of staff time with some pretty unique features.

“The seamless integrations with QuickBooks & MailChimp save an incredible amount of time when it comes to managing our events.”

KELLY VEIT
AMERICAN COUNCIL OF ENGINEERING COMPANIES OF WISCONSIN

“I've implemented five different AMS's in my career, and have never really had a good experience – until Novi. Everything about the onboarding experience was incredible, but my favorite thing was that my Customer Success Manager took the time to get to know me and my association. She was willing to listen to the needs we had and offer advice about the best solutions for us. I wasn't left to fend for myself, she was there every step of the way guiding and supporting me.”

KATHRYN STEMPLER
EXECUTIVE DIRECTOR, NARI ATLANTA

“The main reason we chose to use Sengii as our online community was because of the seamless integration that Novi AMS allowed through clean data and groups. We also loved the email functionality that Sengii provided. It is an easy way for people to stay connected, especially while social distancing. It's also still staff driven and provides an opportunity for us to get answers more quickly than if we were to send out an email blast.”

BRANDY PEAK
DIRECTOR OF EDUCATION AND EVENTS, APARTMENT AND OFFICE BUILDING ASSOCIATION OF METROPOLITAN WASHINGTON

“Novi is the first AMS to be designed by actual Association people. So they know the challenges we face with other retail software that is on the market and have taken it to the next level. So convenient!”
