Low–Code Development Platforms Category

Low–Code Development Platforms Category

Low-code development platforms enable companies to create software quickly without the need for deep coding expertise. The solutions offer base-level code, integrations, and scripts to empower businesses to prototype, build, and scale applications without needing to develop complex infrastructures. Even non-developers can use these programs to build applications rapidly with customized functionality and workflows.

Low-code development platforms are different from no-code solutions because they permit more advanced functionality with customized code instead of a drag-n-drop interface. However, they are a step below fully integrated development tools because they do not offer features to build complete apps from scratch.

Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- Customer reference rating score
- Year-over-year change in amount of customer references on FeaturedCustomers platform
- Total # of profile views on FeaturedCustomers platform
- Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- Social media followers including LinkedIn, Twitter, & Facebook
- Vendor momentum based on web traffic and search trends
- Organic SEO key term rankings
- Company presence including # of press mentions

COMPANY SCORE

- Total # of employees (based on social media and public resources)
- Year-over-year change in # of employees over past 12 months
- Glassdoor ranking
- Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

ABOUT APPIAN

appian

The Appian Platform makes building, launching, using, and changing powerful enterprise apps easy. Create easy-to-use, natively mobile applications. Unify all of your processes, data, systems, and apps. Build once and deploy everywhere. Be better at what makes your organization stand out. And do it all with one integrated platform that requires virtually no coding.

Featured Testimonials

" The costs from a development and new project perspective are substantially smaller because we're starting with a base application capability. Creatio has bent over backwards to work with us on the customization. At the end of the day, we're able to configure our outcomes. "

BUTCH KNOWLTON
EXECUTIVE VICE PRESIDENT & CHIEF INFORMATION OFFICER, RINGLER

" At DECTA, we choose our partners wisely. We chose Creatio for its advanced solutions that complimented our business specifics. So far, everything has been fast and easy. The low-code platform is flexible; we can solve and improve various sophisticated processes effortlessly, which in turn has increased the efficiency of our business processes. And last but not least, we cannot forget about the great customer service that we receive. "

MARKS ANDREJEVS
CHIEF EXECUTIVE OFFICER, DECTA

" With Creatio's low-code platform, it became much easier to understand where we're great and where we can improve, which has been paramount in this relationship with Creatio. "

JONATHAN GAINES
DIRECTOR OF INSIDE SALES, BSN SPORTS

" Having a low-code CRM tool as a salesbook and a single source of data allowed us to provide our salespeople with top-notch solutions to streamline our sales process. "

ABOUT LANSA

LANSA®

An Idera, Inc. Company

The leader in low-code and modernization for IBM i and cross-platform enterprises. Whether it's powering most of Vegas' vacation bookings, driving one of the largest automobile manufacturers' supplier fulfillment processes, or empowering a large ice cream company to reach its customers outside of the store—LANSA powers the applications behind virtually every industry. With 8,000+ customers worldwide, LANSA helps enterprises modernize and streamline application development so they can keep doing what they were built to do: exceed customer expectations.

Featured Testimonials

❝ *With RAMP, we can still use the underlying business logic or code in our current database files, yet, within the LANSA framework, we can also run the new code. So, we now have an application that's running new LANSA code and legacy code within the same interface.* ❞

TERRY OSBURN
CSS DEVELOPMENT MANAGER, CONTROL SYSTEMS SOFTWARE LLC

❝ *What we like best about LANSA is that you work with an easy 4GL and LANSA generates code that is optimized for the deployment platform you choose. You are not locked into any platform. Our operations are currently supported by iSeries, but if we started a similar operation in another country and wanted that operation to run on NT, we don't have to redevelop. We just take another deployment option.* ❞

TOM ROSENKRANS
SENIOR PROGRAM MANAGER, DIVERSIFIED

❝ *LANSA allows us to define and enforce solid development standards and produce reliable and modularized code. It lets us do the straightforward and repetitive tasks quickly and reliably, yet it has the power and flexibility to handle complex and unique applications.* ❞

ROLAND DEVORE
SENIOR PROJECT LEADER, DEMCO

❝ *With LANSA we can create green-screen, Windows, XML and browser applications from a single set of source code. Everything we write is 100-percent LANSA, so now we are not locked into a specific platform or database.* ❞

ABOUT MICROSOFT POWER APPS

PowerApps

Power Apps is a service that lets you build business apps that run in a browser or on a phone or tablet, and no coding experience is required. Power Apps combines visual drag-and-drop concepts from PowerPoint with Excel-like expressions for logic and working with data. If you're new to app building, Power Apps provides templates and sample data that you can use to quickly build an app, and then you can customize the app to better suit your needs. With some experience and creativity, you'll soon be developing your own apps from scratch. If you're a seasoned developer, you can take advantage of the advanced functionality and truly innovate. If you can imagine it, you can build it.

Featured Testimonials

" *In a .NET environment, it would have taken me six months to build everything. With other low-code products I would have had to sacrifice functionality. With Alpha Anywhere, I developed a fully functioning, rich mobile and web app in just a month.* "

DANIEL SANTUCCI
DIVISION PRICING DIRECTOR, GOODMAN

" *Alpha Anywhere is ideal for building mobile apps with a common code base so you only have to write code once and can deploy it to different operating systems. What was built with Alpha Anywhere matched our precise specifications, was developed quickly, and cost ten times less than if we had developed separate native apps.* "

KNUT HORNE
CHIEF TECHNOLOGY OFFICER, WORLD MEDICAL CARD

" *Security is built right into Alpha Anywhere. Beyond that, Alpha Anywhere is far superior to our previous way of doing things. For example, we can build prototypes and go into production now far more quickly. Alpha Anywhere is constantly upgrading, providing new functions and features, interfaces with multiple data sources (such as SAS, Siebel, and Salesforce). The agile development process lends itself well to Alpha Anywhere. With it we can organically develop our solutions to evolve the technology quickly based on our customers' needs, the requirements of the market and government regulation.* "

Featured Testimonials

" *Create was very intuitive to use. One of our team members, with some training and support from Netcall, was able to quickly learn how the platform worked, allowing us to adjust workflows, create our own automated comms and store relevant data, all in one platform. This saved significant time and cost.* **"**

JON HORNSEY
LEAN PROGRAMME MANAGER, UK POWER NETWORKS

" *Our journey with low-code started because we needed to modernise the front office application suite, across the business, and across all of our products. We invested in Liberty Create initially for our specialist mortgage division to replace manual processes, improve workflow to drive cost efficiencies and increase consistency in process execution across the team. As an emerging but growing business we didn't want to raise the headcount more than necessary.* **"**

DAVID PATTERSON
HEAD OF SOLUTIONS & DELIVERY, HAMPSHIRE TRUST BANK

" *It has been a pleasure to work closely with the Netcall commercial and operational teams to make our transition to cloud services aspiration a reality much sooner than we had anticipated. They have understood the complexity of our very large combined organisation and supported us to transition from a legacy contact centre system to a modern, robust, cost-effective cloud service, available from anywhere, which is fit for the future.* **"**

UNIVERSITY HOSPITALS BIRMINGHAM NHS FOUNDATION TRUST

" *I've found the best things about Netcall's low-code is how fast it is to build and that even ambitious end-to-end projects are possible. It's intuitive and open, we can easily access data and connect to other systems. The forum on the Community is also fantastic.* **"**

❝ *By ordering from the device the information is captured on-site, in realtime. The business has upfront visibility of all costs. It gives us better control and better reporting. We can provide managers with a running percentage of incremental costs on the job.* **❞**

FELICITY NUTTER
GROUP BIS MANAGER, PORTER DAVIS HOMES

❝ *Now that all forms are completed fully on the mobile device, a 100% completion target has been reached with regards to Work Health and Safety compliance. We now also have the ability to easily track outstanding work orders with job instructions issued and received via our mobile devices while we are still in the field.* **❞**

MATT POTTER
WATER AND WASTE SYSTEMS SUPERVISOR, LISMORE CITY COUNCIL

❝ *We have been able to dramatically improve the customer service experience for booking services like clean-ups. The feedback has been very positive from all parties involved not just the customers. There was a lot of effort put into the development and we learned a lot from the users that has helped us to improve the App. But we won't be stopping there - we have got a lot of great ideas that we want to build into future versions to make the customer experience even better.* **❞**

PETER FITZGERALD
GROUP MANAGER ROADS AND WASTE, CUMBERLAND CITY COUNCIL

❝ *Several processes have been completely replaced. Working directly with developers is critical in delivering a quality product. OneBlink's team are flexible and willing to please. Our team appreciated how they always suggest better ways of solving the problem and future proofing what they deliver.* **❞**

ABOUT PROCESSMAKER

ProcessMaker

ProcessMaker is a cost effective and easy to use open source business process management (BPM) or workflow software application. ProcessMaker is extremely efficient, lightweight and has one of the lowest overheads of any workflow software in the industry. With the additional benefit of it being open source, ProcessMaker Enterprise clients can take advantage of a fully supported, high quality BPM suite. Customers on 5 continents, through 17 different languages and across a variety of industries including manufacturing, telecommunications, finance and government, healthcare and education are using ProcessMaker workflow software.

Featured Testimonials

" *ProcessMaker is a very valuable workflow automation system. It not only helps in managing our organization's processes, but optimizes them as well. In addition, it archives uploaded and generated documents so they are easily reached whenever we require them.* "

QUSSAY ALKHATEEB
CTO, EARTHLINK TELECOMMUNICATIONS

" *We are quite satisfied with ProcessMaker. We have tightened controls and cut back on processing time for each registry and publication application. Finally, we can make the data specifically related to currently registered companies available so we can draw up environmental impact studies in the housing sector.* "

WILLIAM ANAYA
HEAD OF UPEN MINISTRY OF HOUSING, CONSTRUCTION, AND SANITATION, PERUVIAN MINISTRY OF HOUSING

" *ProcessMaker has helped us improve the efficiency of our employees. Instead of running around to get approvals, we now have a software based process management. It has also helped us get better control over the various processes in our organization.* "

PINKESH JAIN
FINANCE MANAGER, LAKOZY TOYOTA

" *Thanks to ProcessMaker we have been able to automate many of our forms based, approval driven processes. The new automated processes have helped the institution reduce the average turn-around time, eliminate transcription and math errors with an estimated decrease of 1,200 man-hours annually. Additionally, ProcessMaker improved the administrative staff's negative pre-conceptions about automation and process change. We will continue to expand usage of ProcessMaker.* "

Featured Testimonials

" As a small group of developers that handles ad-hoc requests across the organization, we needed a solution that would allow us to create solutions quickly. WaveMaker provided a flexible solution that allows us to model, design, and create web-based solutions that pass all security checks of our organizations' requirements quickly and efficiently. "

BRIAN FINLEY
DIRECTOR, APPLICATION DEVELOPMENT, MERCY HEALTH

" From simple applications to complex, mature apps, Pertamina has navigated the low-code journey with ease using WaveMaker. The low-code platform is the best fit for our agile methodology of development. The onboarding was seamless and our team can now work almost independently with minimum help. "

PAK RUDI WICAKSONO
ICT ASSISTANT MANAGER, PERTAMINA

" Flanagan was moving its complex Oracle Forms based application to a Web based responsive Ordering System. WaveMaker Low-Code platform provided more than what we were expecting. After evaluating multiple low-code platforms in the market, we decided to go with WaveMaker. It just simply beat its competition through its simple yet intuitive visual app building. The icing on the cake was WaveMaker's adoption of open standards to build applications, which took away all aspects of vendor lock-in. We were so delighted that we decided to license and engage their professional services for more work. Their experts were technically savvy, picked up on a lot of things on their own, asked relevant questions, when things were not 100% clear and accomplished quite a bit of work in one week. "

JERRY BRAGA
SENIOR PROGRAMMER ANALYST, FLANAGAN

" WaveMaker flat out saved my job! Using WaveMaker, I built an inventory tracking application using 80% less code than I would have needed in MS Access, making me much more valuable to my employer. "

Featured Testimonials

❝ Agile point provided us with a development framework to very effectively deliver a complex solution in a quick development lifecycle. AgilePoint provides out of the box functionalities for big project overhead items including process compliance, resilience, monitoring, security and scalability which are expensive and time consuming in traditional software development. AgilePoint also gives us the flexibility to evolve our requirements in phases, to minimize scope burden and manage priority based on real operational impact. ❞

ANURAG PATHIK
HEAD OF IT AND DEVELOPMENT, REED EXHIBITIONS

❝ Building apps on AgilePoint has allowed me to be more focused and more proficient. I can leverage AgilePoint as the one interface to work with other key technologies. AgilePoint has taken me from creating a few apps a year to dozens. It's definitely achieved our goal of rapid development. ❞

JONATHAN FUNK
CITIZEN DEVELOPER, THE SALVATION ARMY

❝ The solution from AgilePoint is a 'what you see is what you get' application, and that is positive. As a developer, you actually build what the business will see. It is easy to model the processes with the business. Moreover, the call agents now have much more usable knowledge at-hand. At a glance, they know, for example, exactly where in the delivery process the smart thermostat is. All of this is possible thanks to the intelligent approach of AgilePoint. ❞

PAUL BEUMER
TECHNICAL DEVELOPER, ENECO

❝ AgilePoint has allowed us to modernize and streamline our existing internal processes by replacing paper forms with electronic form-based applications. This has resulted in a substantial improvement with customer service, employee productivity, and quality of data collection! ❞

ABOUT PMG

pmg

PMG platform is highly configurable, making prototyping, deployments, upgrades and updates faster and easier. Each implementation differs in scope, but many clients have turned to PMG after unsuccessfully trying to deliver complex process solutions using other platforms and systems. PMG is a better alternative to large scale platforms that require teams of specialty developers and are often expensive and time consuming to implement. And it's far more robust than simplistic low-code app development alternatives that can't handle complex business processes or scale for enterprise deployment.

ABOUT THINKWISE

Thinkwise is a Dutch software company and a supplier of a proprietary low-code software development platform that realizes smart enterprise software conveniently and quickly. This flexibly modifiable software is always immediately available for Windows, the web and mobile applications and is guaranteed to run on future technologies. Along with the development of business software Thinkwise also sells its platform under license. Large companies, Independent Software Vendors and System Integrators can realize their own software-solutions with the platform.

Featured Testimonials

66 *The platform appealed to both our end users as well as our developers. Thinkwise quickly gave us the confidence that we can realize all the software solutions we need using their low-code platform. In addition, the speed of software development is extremely high, and the platform is continuously being improved with new functionality and technology.* 99

BEREND HUT
CORPORATE ICT MANAGER, ROYAL WAGENBORG

66 *A low-code platform fundamentally changes the way IT developers work. It is noticeable that younger developers in particular quickly achieve success with this approach, which increases their motivation. This makes us positive that this is the right approach at the right time to design and develop an IT application that will take Kolbus years and decades forward - supported by what we see as Thinkwise's very efficient and open service. It is clear time and again that there is a clear commitment to Kolbus and to this project on the part of Thinkwise across all management levels.* 99

PAUL ROHR
PROJECT MANAGER, KOLBUS

66 *Thinkwise has a very robust back-end, with which in principle you can develop complete ERP solutions. There are few other low-code platforms that can achieve this. Furthermore, we can easily connect Thinkwise with our existing Java applications.* 99

MARTIJN VAN DER MAAS
IT MANAGER, OMODA

66 *I wholly subscribe to their ideas and vision about low-code. The entire software world is growing in that direction. I have no programming knowledge myself, but even I have learned to work with this low-code platform. As a business architect, I used Thinkwise to create applications by myself faster than I could explain them to a programmer.* 99
