

Energy Management Software Category

SUMMER 2025
Customer Success Report

Energy Management Software Category

Energy management software (EMS) monitors and reports energy system utilization, reducing energy costs for companies. The platform includes features such as sustainability and carbon reporting, HVAC systems controls, energy data analytics, and real-time energy use tracking. It offers functions that improve energy utilization to minimize carbon emissions and promote efficient consumption.

Energy management software has common features with sustainability management tools. Both applications can be used in tandem and integrated with IoT-linked sensors that track energy use in real time. EMS monitors energy consumption from several sources and actively engages with energy-consuming platforms by changing energy use. It generates auditable energy usage reports and offers data analytics features to digest information related to energy consumption.

Customer Success Report

Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ✓ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ✓ Customer reference rating score
- ✓ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ✓ Total # of profile views on FeaturedCustomers platform
- ✓ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ✓ Social media followers including LinkedIn, Twitter, & Facebook
- ✓ Vendor momentum based on web traffic and search trends
- ✓ Organic SEO key term rankings
- ✓ Company presence including # of press mentions

COMPANY SCORE

- ✓ Total # of employees (based on social media and public resources)
- ✓ Year-over-year change in # of employees over past 12 months
- ✓ Glassdoor ranking
- ✓ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

FEATURED TESTIMONIALS

“Bristol City Leap brings together the best of the public and the private sector – a partnership between Bristol City Council and Ameresco. We will create 1000 jobs over the next five years, many of which will be local jobs for Bristol people within Bristol postcodes. We'll also deliver a great deal of funding to communities to enable community organisations, smaller organisations, charities, and community groups to deliver their own projects.”

JAMES STERLING
COMMUNICATIONS AND ENGAGEMENT MANAGER,
BRISTOL CITY LEAP

“As a public school, our goal is to create a better and brighter future for the generations of tomorrow. By entering into an Energy Savings Agreement of this magnitude with Ameresco, we can confidently say that we're teaching our students an honorable lesson in the importance of sustainability and modern stewardship.”

GLORIA MENOUTIS
SCHOOL BUSINESS EXECUTIVE, NYACK PUBLIC SCHOOL
DISTRICT

“The program we've developed with Ameresco is both environmentally and fiscally sound. It will reduce our energy usage and dangerous emissions, produce clean energy, and provide the City with ongoing lower utility expenses. This new initiative is a win for Englewood on every level.”

JIM WOODWARD
MAYOR, CITY OF ENGLEWOOD

“It was truly a pleasure to work with Ameresco and I am pleased to recommend them for any future energy savings performance contracts.”

MICHAEL P. CONNOR
ADMINISTRATOR, STATE OF NEW HAMPSHIRE

“Hypothetical models are great, but possessing real data to prove our theories to customers reinforces our recommendations and has the potential to bring additional savings because of the continuous submetering. GridPoint's granular, undeniable data is the critical link we were missing to accurately provide performance optimization, capacity planning and regulatory compliance in a variety of industries.”

WANDA LENKEWICH
FOUNDER AND PRESIDENT, CHINOOK SYSTEMS

“GridPoint's data-driven products play an essential role in our ability to affect our environmental impact across our restaurants nationally. The financial benefits we see continue to grow as we deploy the solution throughout our enterprise and is an exceptional by-product of working with partners like GridPoint.”

CAROLYN ANDERSON
EXECUTIVE DIRECTOR, CHIPOTLE MEXICAN GRILL

“GridPoint did a great job of providing education upfront, and the savings benefit over the generator's lifetime was very clear. It was all a seamless process, with almost no time required on my part. We're glad to be able to act as a partner and help our community of businesses.”

TROY HOLT
CHIEF OPERATING OFFICER, FIVE STAR CALL CENTERS

“Energy is one of our top costs in the restaurant business so anything that we can save flows through to the bottom line. We were able in the first year to save 13% just by managing our HVAC and managing our lights.”

[VIEW ALL REFERENCES](#)

FEATURED TESTIMONIALS

“With Arcadia’s detailed energy, water, and waste data, we can go beyond point-in-time reporting on cost and usage. By incorporating off-peak and on-peak charges, customer charges, demand-related charges, tariffs, taxes, and more, WatchWire by Tango can provide a comprehensive and actionable view of energy and sustainability.”

ANDY ANDERSON
EVP OF ENERGY AND SUSTAINABILITY SOLUTIONS,
WATCHWIRE BY TANGO

“Having APIs that enable a flow of data from the utility company through Arcadia to our systems has driven huge efficiencies. Without this tool, we’d have to manually enter data, taking significantly more time — so this has really helped us scale without bringing on a ton of extra overhead and personnel cost.”

SCOTT PIERCE
CO-FOUNDER & VICE PRESIDENT, FUSEBOX

“With Arcadia, our farmers are able to further reduce their business’ carbon footprint while simultaneously increasing demand for more clean energy in the market, all without disrupting the daily flow of their businesses.”

RICK VANZURA
FREIGHT FARMS

“Arcadia seems like the most modern approach. We looked at competitors, and their APIs were not clean and just seemed like a nightmare to integrate with. Arcadia seems to have the most modern product available.”

COMMISSIONING MANAGER, AERO PERFORMANCE GROUP

“The platform saves me time, as it stores a complete history of what's happened at the building - all in the one place. It also enables a centralised contractor workflow, reducing the time to chase up email communications. These might only drive small time savings, but they're incremental - they build up over a period of time and over multiple sites.”

SAM JONES
FACILITIES MANAGER, CBRE

“Having already consolidated our energy, equipment and thermal comfort data in the PEAK platform, it took the CIM team a matter of days to understand the building usage and load patterns for Eastland, and recommend a control strategy that wouldn't negatively impact thermal comfort.”

DAMIEN STACY
PORTFOLIO FACILITIES MANAGER, QIC GLOBAL REAL ESTATE

“Brisbane Airport Corporation was pleased to engage CIM to assist with delivering energy savings, optimising building performance and improving our operations through data-driven decisions.”

FEATURED TESTIMONIALS

“We picked Clockworks because of both ease of use and the robustness of the product. It simply digs deeper, is more pro-active and accurate than any other Analytics tool we have used or evaluated. It raises the value of our service we can provide to our customers.”

LAWRENCE TRIFILETTI
LONG BUILDING TECHNOLOGIES

“Clockworks is very powerful and different from anything we’ve seen. Other products we evaluated require a team of engineers to develop algorithms, rules, or rely on past data. Clockworks diagnostics platform stands apart.”

ASSOCIATE DIRECTOR
BIG TEN UNIVERSITY

“Our small national team is helping establish the rules and tools for energy management – we started with centralized monitoring of utilities, and now we are supporting a roll-out of FDD.”

DAVE LOCKHART
SUPPORT SERVICES ADMINISTRATOR, KAISER
PERMANENTE

“Top-down support and corporate-level energy goals have been critical to the success of our FDD deployment.”

GARY MULLANEY
SENIOR ENERGY CONSULTANT, KAISER PERMANENTE

FEATURED TESTIMONIALS

“We are very happy to use Energis.Cloud. In only half a day we were trained to use it in an autonomous way and to integrate the data in the platform. It was very fast to start, and the connectors were developed in just a couple of days! We did a market study and met with competitors, and everything was going much slower!”

VINCENT KOWALCZYK
CHIEF EXECUTIVE OFFICER, TEENCONSULTING

“Energis.Cloud is a powerful tool that gives insight into the consumption & production of different buildings of an organisation (baseline) and creates awareness to reduce energy consumption & energy costs. You can make a lot of correlations with the data so that further improvements are possible.”

JURGEN VAN RYCKEGHEM
TEACHER RESEARCH COORDINATOR, HOWEST UNIVERSITY

“The Energis.Cloud software stands out for its compatibility with the reality on the ground. It is a very open solution that allows you to take remote control of the various systems on site.”

STÉPHANE LEROY
CHIEF OF OPERATIONS, HELEXIA

“Thanks to the energy management system Energis.Cloud, we were able to react quickly to anomalies, realise significant energy savings and be more productive.”

BART RYCKAERT
ENERGIE PORTFOLIO MANAGER, AQUAFIN

ABOUT ENTO

ENTO

Ento help organisations increase energy efficiency and intelligent energy consumption to reduce emissions and support the sustainable energy transition with scalable, artificial intelligence software. They use data, algorithms and modern cloud infrastructure to help businesses and public institutions reduce energy consumption – in many cases without large investments.

FEATURED TESTIMONIALS

“Through our strategic partnership with Ento Labs, we can automatically identify and document energy savings in our branches and buildings. This has resulted in an incredible result oriented tool that helps to create change rather than just reporting on consumption.”

MARTIN HØJGRAV-HUUS
SUSTAINABLE DESIGN ENGINEER, ARBEJDERNES
LANDSBANK

“AI alone can't get you ISO certified – but it will make the process a lot easier as it plays a pivotal role in performance evaluation, daily operations monitoring and management, energy audits as well as defining empirical indicators and baselines.”

JAKOB NØRBY
4B CONSULTING, LANDBRUG & FØDEVARER

“We had been looking for a system that provided value from the start. Ento Labs' system focuses on possible actions to improve the energy of our buildings rather than just reading and collecting data – and that makes a big difference!”

HENRIK SCHNELLER
HEAD OF FACILITY MANAGEMENT, ARBEJDERNES
LANDSBANK

“We had been looking for a system that provided value from the start. Ento's system focuses on possible actions to improve the energy of our buildings rather than just reading and collecting data – and that makes a big difference!”

ABOUT JADETRACK

JadeTrack's cloud-based software platform empowers organizations to maximize energy efficiency and long-term sustainability. The platform combines automated utility bill management, ENERGY STAR facility benchmarking and real-time monitoring— providing a single source of critical information to all stakeholders. Transforming complicated energy and sustainability data into actionable intelligence, JadeTrack puts the power of change in the hands of every user.

“Quick shout-out to whoever on your team is working on the Measure Audit Report. It's Amazing! I've already used it to review and identify a few issues. Really slick. Thanks, JadeTrack Team!”

RICHARD DAVIS
LEAP PROGRAM MANAGER, LIMBACH

“It just takes a few minutes to get back an ENERGY STAR score once you enter the benchmarking info and our customers just love it.”

RICK SULLIVAN
AUTOMATED BENCHMARKING PROGRAM LEAD, AEP OHIO

“A big thank you to the JadeTrack team for helping Wendy's and our franchisees participating in the Better Buildings Challenge.”

SCOTT MOLINE
MANAGER OF ENGINEERING, WENDY'S

“We absolutely love the charts. The image itself is worth a million words. We were sold on the idea as soon as we saw that.”

FEATURED TESTIMONIALS

“eSight® has been instrumental in allowing us to monitor energy usage across multiple sites. We’ve been able to proactively and quickly identify, respond, and reduce energy use and costs, while also using the eSight® platform to effectively convey this to our stakeholders.”

KEVIN CHOCK
VICE PRESIDENT, RHA ENERGY PARTNERS

“eSight has enabled us to visualise and measure our utility usage against production in a way which was not previously possible; the benefits of integrating eSight into our process have been invaluable.”

PAUL HARRIS
SITE ENERGY CENTRE MANAGER & CONTINUOUS
IMPROVEMENT MANAGER, CARLSBERG UK

“eSight is by far, the best product on the market. It has a user-friendly interface with in-depth graphic charting tools to uncover obscure energy use trends.”

FRED DOUGHERTY
VICE PRESIDENT, LIBERTY PROPERTY TRUST

“eSight software is easy to configure. Great and easy to understand dashboards. Excellent analysis.”
