

Low-Code Development Platforms Category

SUMMER 2025
Customer Success Report

Low-Code Development Platforms Category

Low-code development platforms enable companies to create software quickly without the need for deep coding expertise. The solutions offer base-level code, integrations, and scripts to empower businesses to prototype, build, and scale applications without needing to develop complex infrastructures. Even non-developers can use these programs to build applications rapidly with customized functionality and workflows.

Low-code development platforms are different from no-code solutions because they permit more advanced functionality with customized code instead of a drag-n-drop interface. However, they are a step below fully integrated development tools because they do not offer features to build complete apps from scratch.

Customer Success Report

Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ✓ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ✓ Customer reference rating score
- ✓ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ✓ Total # of profile views on FeaturedCustomers platform
- ✓ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ✓ Social media followers including LinkedIn, Twitter, & Facebook
- ✓ Vendor momentum based on web traffic and search trends
- ✓ Organic SEO key term rankings
- ✓ Company presence including # of press mentions

COMPANY SCORE

- ✓ Total # of employees (based on social media and public resources)
- ✓ Year-over-year change in # of employees over past 12 months
- ✓ Glassdoor ranking
- ✓ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

FEATURED TESTIMONIALS

“Because of the low-code, we’re able to utilize different pieces of code over and over again in different aspects of the application. So we got a lot done in a short amount of time.”

RHONDA BARRETO
PROJECT MANAGER, NULIFE MED

“We’ve covered a lot of ground in a relatively short amount of time, and we wouldn’t have been able to do all that without a low-code platform like Appian.”

BILL RACZYK
DIRECTOR OF BUSINESS PROCESS IMPROVEMENT,
OPTIONS CLEARING CORPORATION

“Unlimited bots for a fixed price is a compelling proposition by itself. That proposition combined with Appian’s low-code automation platform is the reason we are excited about Appian RPA.”

THYSSENKRUPP

“The low-code, rapid deployment, and easy-to-tweak nature of the Appian platform has leant itself well to the requirements of technology-savvy capital markets firms.”

FEATURED TESTIMONIALS

“Thanks to the ease of interaction with the AuraQuantic low-code platform, Infotoc automated its processes based on the Management system, enabling an environment of control and influencing our collaborators through parameters defined by the organization, generating greater empathy, which allows them to carry out their activities and interact between processes in a more agile and secure way. With the use of the low-code platform, we have been able to achieve our goals and objectives, streamlining efforts and eliminating errors.”

ANDREA CORREA PACHECO
HEAD OF INTERNAL CONTROL AND QUALITY, INFOTIC S.A.

“AuraQuantic has made it possible to implement an effective and efficient Management of Business Processes in the organization, automating them as much as possible, creating an agile system for their continuous improvement and ensuring their correct operation based on the established guidelines at all times.”

HEAD OF ADMINISTRATION
ANDORRA TURISME

“AuraQuantic also has very powerful document management capabilities that can generate and integrate documents in the system when needed, with easy access thanks to a fully structured organization.”

SERGI CANAL AGUDO
ECONOMIC AND FINANCIAL MANAGER, TRAC REHABILITACIÓ

“The transition to remote work was effortless with AuraQuantic. The tool's low-code features and agility empowered us to rapidly adapt to the changing business world while ensuring efficiency and maintaining our competitive edge.”

FEATURED TESTIMONIALS

“Embracing the 21st century means evolving beyond the limitations of traditional workflows. With Creatio, we gain freedom, and no-code ensures progress without dead ends. With the system's powerful capabilities and continuous developments, Creatio stands as a testament to the speed and innovation defining our era and aligns with the values we represent at Al Bawani.”

MODAR SHEIKH SAEED
IT BUSINESS MANAGER, AL BAWANI

“Creatio platform makes us more flexible, and it easily scales as our organization grows. The no-code technology allows us to train our CRM business analysts to build processes. It's not a Pandora's box for coders only. Business people also have their say in solution development. The no-code platform has helped us significantly accelerate our time to market.”

TOMASZ CIBOREK
GROUP SALES OPERATIONS DIRECTOR, ASSECO ASEE

“Customization with no-code makes system enhancement super easy. I go to the process designer, drag and drop what I would like to use, choose whatever object applies to the particular case scenario, configure the sequence of the steps and start process execution. There is always some solution that no-code can give us, so we love it!”

ANDREW THOMPSON
TECHNICAL SPECIALIST, UPWARD SPORTS

“With Creatio's low-code platform, it became much easier to understand where we're great and where we can improve, which has been paramount in this relationship with Creatio.”

JONATHAN GAINES
DIRECTOR OF INSIDE SALES, BSN SPORTS

ABOUT LANSA

The leader in low-code and modernization for IBM i and cross-platform enterprises. Whether it's powering most of Vegas' vacation bookings, driving one of the largest automobile manufacturers' supplier fulfillment processes, or empowering a large ice cream company to reach its customers outside of the store—LANSA powers the applications behind virtually every industry. With 8,000+ customers worldwide, LANSA helps enterprises modernize and streamline application development so they can keep doing what they were built to do: exceed customer expectations.

386

TOTAL CUSTOMER REFERENCES

**VIEW ALL
REFERENCES**

FEATURED TESTIMONIALS

“What we like best about LANSA is that you work with an easy 4GL and LANSA generates code that is optimized for the deployment platform you choose. You are not locked into any platform. Our operations are currently supported by iSeries, but if we started a similar operation in another country and wanted that operation to run on NT, we don't have to redevelop. We just take another deployment option.”

TOM ROSENKRANS
SENIOR PROGRAM MANAGER, DIVERSIFIED

“The middle core consists of special implementations, the code that enables customer specific rules and processes. The outer layer takes care of the communication with the outside world, including the import and export of data and AS2 and EDI transactions via LANSA Integrator services. Customers can view all information using our Web site or via Mocha 5250 terminal emulation.”

JULIE LAI
SENIOR DEVELOPER, PORT LOGISTICS GROUP

“LANSA allows us to define and enforce solid development standards and produce reliable and modularized code. It lets us do the straightforward and repetitive tasks quickly and reliably, yet it has the power and flexibility to handle complex and unique applications.”

ROLAND DEVORE
SENIOR PROJECT LEADER, DEMCO

“With LANSA we can create green-screen, Windows, XML and browser applications from a single set of source code. Everything we write is 100-percent LANSA, so now we are not locked into a specific platform or database.”

“ProcessMaker has given us the ability to centralize all the information regarding all of our inbound requests. It is a tool that has made the job of managing these requests easier by allowing us to work across the network and find and solve requests from anywhere in the country.”

ROSA ELENA RESTREPO
HEAD OF THE HUMAN RESOURCES DEPARTMENT,
NATIONAL UNIVERSITY OF COLOMBIA (MEDELLIN)

“ProcessMaker is a very flexible, easy-to-use solution. Lenovo would recommend it to anyone who is looking for workflow improvements or even just to simplify their processes.”

DENES TRETYANSZKI
CALL CENTER OPERATIONS LEADER, LENOVO

“With ProcessMaker in place, we can manage our commercial processes and ensure our business runs smoothly, from the creation of a proposal to the shipment of our products.”

MANUEL SILVA
CEO, DECSIS

“Streamlined business processes and improves the overall level of service to clients by automating many functions which now makes tracking customer applications simple and efficient.”

“Flanagan was moving its complex Oracle Forms based application to a Web based responsive Ordering System. WaveMaker Low-Code platform provided more than what we were expecting. After evaluating multiple low-code platforms in the market, we decided to go with WaveMaker. It just simply beat its competition through its simple yet intuitive visual app building. The icing on the cake was WaveMaker’s adoption of open...”

JERRY BRAGA
SENIOR PROGRAMMER ANALYST, FLANAGAN

“From simple applications to complex, mature apps, Pertamina has navigated the low-code journey with ease using WaveMaker. The low-code platform is the best fit for our agile methodology of development. The onboarding was seamless and our team can now work almost independently with minimum help.”

PAK RUDI WICAKSONO
ICT ASSISTANT MANAGER, PERTAMINA

“WaveMaker flat out saved my job! Using WaveMaker, I built an inventory tracking application using 80% less code than I would have needed in MS Access, making me much more valuable to my employer.”

ROBERT MANSACK
NEW DEVELOPMENT, IT, TEXAS DEPARTMENT OF CRIMINAL JUSTICE

“WaveMaker embraces the world, is open source and is really easy to use, while still allowing access to the underlying code (Java, CSS and Javascript).”

FEATURED TESTIMONIALS

“Agile point provided us with a development framework to very effectively deliver a complex solution in a quick development lifecycle. AgilePoint provides out of the box functionalities for big project overhead items including process compliance, resilience, monitoring, security and scalability which are expensive and time consuming in traditional software development. AgilePoint also gives us the flexibility to evolve our requirements in phases, to minimize scope burden and manage priority based on real operational impact.”

ANURAG PATHIK
HEAD OF IT AND DEVELOPMENT, REED EXHIBITIONS

“Within 2 weeks, a Business Analyst used AgilePoint Model-Driven BPMS solution and SharePoint and created a simple Read and Sign process that included reminders and was audit ready and helped strengthen the compliance culture. The same process model was then quickly repurposed by our Risk Control team for the Risk Control manual Read and Sign, which is an internal compliance obligation.”

EXELON CORPORATION

“AgilePoint BPMS has enabled us to move our ISO 20000 management processes to automated workflows that we can easily monitor and manage.”

ALEJANDRO HERNÁNDEZ CAPA
ICT DIRECTOR, CAJA DUERO, CAJA DUERO

“With AgilePoint, we efficiently and quickly build and deploy solution building blocks to handle a large number of form-driven internal business processes.”

FEATURED TESTIMONIALS

“Before ELMA, we used to receive all the purchase requests in Excel tables format. After that, a free supplier picked the request. Sometimes the requests were ignored and got lost. The supplier recorded the data: he entered it in another table, manually assigned the request number, specified the initiator, and sent a letter to the budget holder for coordination. When approving the invoice, it might turn out that there were no funds in the budget. Now we approve the potential applications at the first stages to avoid such financial risks. Each request is going to be proceeded.”

OLGA DAVIDOVA
LEADING BUSINESS ANALYST, GS NANOTECH

“At the moment we feel the need to automate contract management in ELMA365. Next, as part of project profitability calculation, we want to automate task duration assessment and tracking. Oh, and accounting reports, too. Our internal procedures require automation and, of course, we are planning to do it with ELMA365. ELMA365 has proven to be flexible and reliable — just the right fit for us.”

IVAN KLABUKOV
CHIEF EXECUTIVE OFFICER, RIT TEAM

“When deciding on a system we chose ELMA from the range of similar products because of its flexibility. ELMA helped us clear the chaos at our company, and became an instrument for preventing further mishandlings. We’ve been using ELMA with success for 5 years, and it’s growing along with the company — it’s a continuous process, just like the Deming cycle.”

RASIM KIYAMOV
FOUNDER, KRIALENERGOSTROY PLANT

“Now we can safely make ambitious plans. Our new goal is to become a completely paperless business despite the fact that we’re a financial institution. ELMA lets us improve our business processes so that our clients always stay ahead of the game.”

“Using technically-savvy business analysts to program in GeneXus and given the amount of “heavy lifting” GeneXus does through code generation, we estimate that GeneXus saves us more than 70 percent of the normal development and testing effort experienced on other government systems development projects.”

MICHIGAN DEPARTMENT OF TREASURY

“GeneXus is a renowned product that plays in the big leagues. It has been hugely important to us, given that many software companies can’t survive the constant changes in technology that impact the sector.”

MANUEL DONOSO
CORPORATE GENERAL MANAGER, BROWSE

“The relatively short time, considering the small number of people involved, is one of the benefits of Low-Code technology, which automates development processes.”

ARTHUR ZINI VIEIRA
DEVELOPMENT DIRECTOR, CDS

“That’s the strong points of GeneXus, I’m not rewriting code every time that new technology comes out, all I am doing is designing a different way to process it.”

ABOUT PMG

PMG platform is highly configurable, making prototyping, deployments, upgrades and updates faster and easier. Each implementation differs in scope, but many clients have turned to PMG after unsuccessfully trying to deliver complex process solutions using other platforms and systems. PMG is a better alternative to large scale platforms that require teams of specialty developers and are often expensive and time consuming to implement. And it's far more robust than simplistic low-code app development alternatives that can't handle complex business processes or scale for enterprise...

FEATURED TESTIMONIALS

“I wholly subscribe to their ideas and vision about low-code. The entire software world is growing in that direction. I have no programming knowledge myself, but even I have learned to work with this low-code platform. As a business architect, I used Thinkwise to create applications by myself faster than I could explain them to a programmer.”

EDWIN SAAN
BUSINESS ARCHITECT, ROYAL SAAN

“We are very excited that Thinkwise selected CortexDecoder for barcode scanning within their highly productive low-code platform. This partnership will allow us to introduce Thinkwise client base to fast, reliable, and affordable scanning easier than before.”

THOMAS RISSMANN
DIRECTOR SOFTWARE SALES EMEA, CODE CORPORATION

“The Thinkwise Platform is continuously under development. The new Universal GUI that went live earlier this year is a great example of this. In addition, due to the integration layer in the Platform we can easily connect to other applications and sensors.”

CHRIS VAN DER VEEN
GENERAL MANAGER, VAN DORP

“By combining the Florensis vision with the Thinkwise low-code platform, we were able to develop the first version of the new planning application within two months.”

JEROEN VAN ZOMEREN
