## FEATURED TESTIMONIALS

“Before BILL, managing payments for our hundreds of contractors felt like a never-ending 8-hour grind, twice a month. Separating labor and expenses manually for each one was honestly painful. With the BILL API Platform, now payments are done in minutes, not hours. It’s like we suddenly found a whole extra day every couple of weeks. Game-changer doesn’t even cover it.”

CHRISTINE HERNANDEZ  
FOUNDER, FIRST CRUSH TASTINGS

“We were sold on BILL in the first five minutes. With old-school systems, there’s always a tradeoff. Increasing financial control adds approval steps that slow everything down. BILL streamlines financial operations while increasing things like control and visibility. It’s a game changer.”

JIM LOWER  
CORPORATE CONTROLLER, FAIRWAVE

“Before BILL, I was flying blind, with data that was always 30 days behind. Now, I know exactly where we are at any moment. I can make adjustments in real time instead of finding out a month later that we overspent.”

SARAH SMITH

“When I first heard this, I wondered, oh, can we do better than that? Thirty days is a really long time to wait for your money.”
