SUMMER 2026
Customer Success Report

Data Science Platforms Category

Data science software is used to extract insights and knowledge from large volumes of data. Both structured and unstructured data can be extracted. Data science is an extension of data analysis disciplines like predictive analysis, statistics, and data mining. It is a vast field that utilizes techniques and theories from other subjects like computer science, chemometrics, statistics, mathematics, and information science.

Data science software uses methods like computer programming, uncertainty modeling, pattern recognition and learning, visualization, data engineering, database, statistical learning, data mining, signal processing, machine learning, and probability models. With constant data advancements, many elements of data science are becoming important, such as big data.

Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ✓ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ✓ Customer reference rating score
- ✓ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ✓ Total # of profile views on FeaturedCustomers platform
- ✓ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ✓ Social media followers including LinkedIn, Twitter, & Facebook
- ✓ Vendor momentum based on web traffic and search trends
- ✓ Organic SEO key term rankings
- ✓ Company presence including # of press mentions

COMPANY SCORE

- ✓ Total # of employees (based on social media and public resources)
- ✓ Year-over-year change in # of employees over past 12 months
- ✓ Glassdoor ranking
- ✓ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

MARKET LEADER

ABOUT ALTAIR (SIEMENS XCELERATOR)

Altair is a global leader in computational intelligence that provides software and cloud solutions in simulation, high-performance computing (HPC), data analytics and AI. Altair enables organizations across all industries to compete more effectively and drive smarter decisions in an increasingly connected world – all while creating a greener, more sustainable future. Altair employees worldwide share a tremendous pride in the entrepreneurial spirit and corporate culture based on transparency, honesty, innovation, and integrity. This brings high value solutions for clients which integrate hardware, software, user experience and...

FEATURED TESTIMONIALS

“Altair SimSolid’s biggest advantage for us is its lightning-fast speed. Providing us with quick and accurate results, it enabled us to address designs in front of the many initial crossroads of product development. We reduced our calculation time by 60%, which allowed us to triple the number of designs analyzed while respecting the set design time. While we could have achieved similar results with other tools, only Altair SimSolid allows us to achieve this level of performance and accuracy within the constraints of our tight timeframes.”

ALESSANDRO MOROSINI
CAE MANAGER, RÖCHLING GROUP

“Altair solutions empowered us to verify GBAS radio coverage at different heights on and around the airports, providing us with accurate results that help us enable safe air navigation. Accounting for new buildings, even before they are built, or interferences from other radio frequency sources, enables us to ensure a clear, reliable high-quality signal for accurate navigation information and ultimately, for a first-class aviation safety.”

RALF EICHHORN
SENIOR EXPERT, DFS DEUTSCHE FLUGSICHERUNG GMBH

“The collaboration with Altair has been very positive throughout the development cycle. There was never a time where we had to catch the Altair team up, or where they weren’t able to work on a project we gave them.”

ANDREA MANNARINO
MANAGER OF AI AND MACHINE LEARNING, AMERICA’S CUP

“Features like drag-and-drop options make it easy for users to select files from their local system or from the Altair Access environment. They can take advantage of the power of HPC servers without needing to be experts in Linux.”

VIBHAY KUMAR
ESCORTS KUBOTA

FEATURED TESTIMONIALS

“Through Alteryx we have amazing people that can wrangle data and find hidden insights through clever workflows they are building. To do that we’ve had to nurture a culture and a community which fosters the team’s ability to deliver those analytics insights.”

PAUL CHAPMAN
GLOBAL DIRECTOR, JLL

“I love introducing Alteryx to organizations because it’s the most flexible BI tool on the market. It’s low-code/no-code, self-documenting, and easy enough for general business admins to automate many of their data wrangling processes.”

BRIAN VINSON
RESULTANT CLIENT SUCCESS LEADER, TEXAS RANGERS

“The thing I’m most proud of today with Alteryx is that I was able to help the team progress. Today, they are real research managers, real analysis managers, capable of making interesting business recommendations.”

MARINE SCHMECKO
DIRECTOR, PICKUP SERVICES

“Alteryx helps us explore and understand our clients better and make more accurate decisions.”

ABOUT DATABRICKS

Databricks' mission is to accelerate innovation for its customers by unifying Data Science, Engineering, and Business. Founded by the team who created Apache Spark™, Databricks provides a Unified Analytics Platform for data science teams to collaborate with data engineering and lines of business to build data products. Users achieve faster time-to-value with Databricks by creating analytic workflows that go from ETL and interactive exploration to production. The company also makes it easier for its users to focus on their data by providing a fully managed, scalable, and secure cloud infrastructure that reduces operational complexity and total cost of...

FEATURED TESTIMONIALS

“With Databricks, we’ve transformed how our teams access and use internal knowledge. What used to take hours of digging for information or waiting on colleagues is now resolved in seconds with our GenAI assistant. It’s improved day-to-day productivity, strengthened cross-team collaboration and created a foundation we can build on.”

ANAIG MARÉCHAL
LEAD AI ENGINEERING, AXPO GROUP

“New features in Databricks roll out fast, unlike competitors who promise in one year and deliver in five. Just when we hit a roadblock, a new capability lands and moves us forward. It’s innovation that keeps pace with our business.”

KENAN COLSON
VP OF DATA AND ARTIFICIAL INTELLIGENCE, LIPPERT

“The Databricks Platform fuels grassroots innovation, By democratizing access to data and AI, employees across the organization are now equipped to experiment, ideate and transform everyday insights into enterprise-scale impact.”

JYOTI PONNAPALLI
VICE PRESIDENT OF AI, FRONTIER COMMUNICATIONS

“Using Databricks, I can see the future possibilities very clearly and very quickly.”

LUIZ SOUZA PEREIRA
TECHNICAL DATA MANAGER, GERDAU

ABOUT DATAIKU

Dataiku is The Universal AI Platform™, giving organizations control over their AI talent, processes, and technologies to unleash the creation of analytics, models, and agents. Agnostic by design, it integrates with all clouds, data platforms, AI services, and legacy systems to ensure full technology optionality — empowering customers to future-proof their AI initiatives. With built-in governance and no-, low-, and full-code capabilities, Dataiku enables the world's largest companies to confidently build and manage differentiated AI that drives measurable business value.

FEATURED TESTIMONIALS

“DataRobot has been instrumental as we work through our generative and predictive AI use cases. With DataRobot’s LLM operations (LLMOps) capabilities and out-of-the-box LLM performance monitoring, we’re equipped to implement cutting-edge generative AI techniques into our business while monitoring for toxicity, truthfulness and cost.”

FREDERIQUE DE LETTER
SENIOR DIRECTOR BUSINESS INSIGHTS & ANALYTICS,
KELLER WILLIAMS

“Before DataRobot, it took three weeks to deliver a new model. Now, we average 21 hours for a viable model end-to-end. It’s powerful to finally have integrated automation that delivers all of this.”

AMIT JAIN
CHIEF TECHNOLOGY OFFICER, PERSONIFY HEALTH

“DataRobot is the leading technology company and platform innovator that brings predictive and generative AI capabilities together with the governance, observability, and security we need at scale.”

YOSHITAKA KITAO
CHAIRMAN, PRESIDENT & CEO, SBI HOLDINGS

“DataRobot is an extreme developer productivity multiplier. We went from five days to less than four hours for each model created.”

FEATURED TESTIMONIALS

“Fivetran has been essential to how we scale at Tines. It gives us real-time visibility into everything from product usage to go-to-market performance, without pulling engineers off core development. That clarity lets us move fast, launch smarter, and keep automation at the center of how we grow.”

COLM O'GRADA
HEAD OF DATA, TINES

“Fivetran gives us seamless, high-performance pipelines that centralize our most critical data with zero maintenance. That reliability has unlocked real efficiency, as our team can now spend time driving insights instead of managing ingestion.”

DAVID LE
AVP OF DATA STRATEGY AND DEVELOPMENT, TOLL BROTHERS

“Fivetran allows us to deliver actionable data and insights based on a trusted infrastructure faster and with fewer resources. This allows us to support strategic AI initiatives and deliver real business impact.”

SASCHA URBAN
VP OF DATA, BLINKIST

“Fivetran gives us confidence in our data pipelines, so we can stop worrying about outages and focus on building AI models and expanding globally.”
