EHS Management Software Category

Environmental, health, and safety (EHS) software is a type of data management system that provides enterprises with the needed features to maintain compliance with regulations, prevent workplace accidents, and track incidents if they do happen. The platform improves environmental performance, permits detailed recording and evaluation of workplace accidents, streamlines data capture, and enhances the reporting capabilities of companies. Key features include internal audit tools, compliance task management, incident reporting dashboard, and a robust compliance registry grouped by location.

Customer Success Report

Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ✓ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ✓ Customer reference rating score
- ✓ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ✓ Total # of profile views on FeaturedCustomers platform
- ✓ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ✓ Social media followers including LinkedIn, Twitter, & Facebook
- ✓ Vendor momentum based on web traffic and search trends
- ✓ Organic SEO key term rankings
- ✓ Company presence including # of press mentions

COMPANY SCORE

- ✓ Total # of employees (based on social media and public resources)
- ✓ Year-over-year change in # of employees over past 12 months
- ✓ Glassdoor ranking
- ✓ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

“It's saved us a lot of time, Before VelocityEHS Chemical Management, myself, a technician, and a student were trying to create an electronic SDS database for the university on our own. We were constantly searching for, downloading, and actively looking for updates. It was a lot of work! The major selling point, at least for me, was the update process with VelocityEHS Chemical Management. It regularly updates the SDS database, and informs us when an update has been done. “We saw [Vector Solutions] as a potential platform for a one-stop shop for all of the potential training that our associates would be using, whether it was safety training and some of our custom technical content that my team develops, to being able to supplement that with the professional library and the industrial maintenance library has bridged the gap and made sure that we have a lot of different training solutions for our associates.”

MARY GOLLAN
GLOBAL CORPORATE LEARNING DIRECTOR, PLASTIPAK

“Using Vector – having something that increases efficiency – allows for good, quality professional development and builds capacity. It is huge for the retention of teachers we currently have. Each teacher that leaves is a challenge to replace. Providing and creating processes that are efficient and show value tend to help retain the staff we have.”

TIMOTHY MITZEL
SUPERINTENDENT, LITTLESTOWN AREA SCHOOL DISTRICT

“Vector Solutions allows us to track the amount of training and the type of training that people have gone to. It's really, really easy to open up reports and run reports and find out what people's deficiencies are, what trainings they've gone to, and what else we need to do to maintain their certification.”

LT. ERIC BENSON
PORTSMOUTH POLICE DEPARTMENT

“[Vector Solutions] robust platform, combined with the flexibility to upload our own in-house training, supports our commitment to continuous learning and professional development, making it a valuable resource for our firm.”
