

Laboratory Information Management Software (LIMS) Category

SUMMER 2026
Customer Success Report

Laboratory Information Management Software (LIMS) Category

Laboratory Information Management Software (LIMS) offers a range of features and benefits that contribute to the efficient management and organization of laboratory data and processes.

Features of LIMS Software: Sample Management; Workflow and Process Automation; Data Management; Reporting and Analytics.

Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ✓ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ✓ Customer reference rating score
- ✓ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ✓ Total # of profile views on FeaturedCustomers platform
- ✓ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ✓ Social media followers including LinkedIn, Twitter, & Facebook
- ✓ Vendor momentum based on web traffic and search trends
- ✓ Organic SEO key term rankings
- ✓ Company presence including # of press mentions

COMPANY SCORE

- ✓ Total # of employees (based on social media and public resources)
- ✓ Year-over-year change in # of employees over past 12 months
- ✓ Glassdoor ranking
- ✓ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

ABOUT BENCHLING

Benchling makes life science research faster and more collaborative. Biotechnology has the potential to solve humanity's most pressing challenges, such as disease, renewable energy, clean water, and hunger. The brightest minds are working on these problems but they are equipped with archaic tools. Benchling aspire to fix this and increase the rate of scientific output with a web-based platform that allows researchers to design and run experiments, analyze data, and share results. Thousands of scientists all around the world use Benchling to do research. Whether they are at the world's largest companies, the top research universities, or working on a startup...

FEATURED TESTIMONIALS

“Our R&D goals at Novonesis are more ambitious than ever, and a strong digital strategy is essential for achieving them. The extension of our partnership with Benchling sets us up to work at speed and scale. We're able to automate key aspects of R&D and create a unified foundation for advanced data tooling. Thanks to AI-ready data and integrated systems, we can apply machine learning techniques to our work today.”

MARTIN S. BORCHERT
SR. DIRECTOR, SCIENTIFIC DATA STRATEGY AND SYSTEMS, NOVONESIS

“Benchling offers a very simple way of naming molecules and storing the sequences. it's [now] in a format where we can learn more complex lessons from our historical data. In that sense, managing data in a more structured, formatted way is very powerful.”

DHEERAJ TOMAR
BENCH SCIENTIST, XILIO THERAPEUTICS

“Benchling has critical technology that enables Sana's global R&D teams to focus on developing our platforms and pipeline, building the right automation, designing the right experiments and finding the insights that reside within our data.”

STEVE HARR
CO-FOUNDER AND CEO, SANA BIOTECHNOLOGY

“The first time you run a campaign, FRAGLER will identify duplicate DNA sequences and help you save up to 50% of the cost of synthetic DNA synthesis by enabling fragment recycling.”

ABOUT DOTMATICS

Dotmatics

Dotmatics is a scientific informatics software and services company that is driving the automation of laboratory workflows for discovery and innovation research - accelerating the journey towards full digitalization and the Lab of the Future. With a mission to give scientists access to all of their data, all of the time, Dotmatics provides a unique portfolio of tools for fully automated, end-to-end workflows including data acquisition, knowledge management, data storage, enterprise querying and reporting, and data analytics and visualization. Through these comprehensive solutions, the Company is helping its customers to increase lab efficiency and make better informed...

[VIEW ALL REFERENCES](#)

FEATURED TESTIMONIALS

“Dotmatics has truly disrupted the way the company works for the better. As soon as people saw how useful it can be to share everything in one place and how much more efficient our processes are as a result, everyone got on board with Dotmatics. All our data is now available and accessible at all times; we’re no longer dependent on individuals remembering where they’ve...”

RENÉ VAN DEN BERSSELAAR
GLOBAL HEAD IT AND CHIEF INFORMATION OFFICER,
DEBIOPHARM

“Dotmatics has been a very successful implementation. We’ve increased the speed at which we’re working and making factual, data-driven decisions about project progression to boot. Now that our data is ordered, validated and shareable in a controlled way across the organization, we’re no longer dependent on Visual Basic and Excel for data management. Bringing in Dotmatics has significantly improved our data quality and integrity but this is...”

JEAN RICHARDSON
IT SCIENTIST, DEBIOPHARM

“Dotmatics has transformed our R&D processes by providing an integrated, cloud-based platform that meets the diverse needs of our multidisciplinary teams. The transition has significantly improved our data management, streamlined our workflows, and enhanced internal communication. As a result, we’ve seen a notable increase in user engagement, reflecting the platform’s positive impact on our research and decision-making capabilities.”

MARCO NEVES
PRINCIPAL COMPUTATIONAL CHEMIST, BIAL

“From our perspective as a CRO, Dotmatics provides outstanding flexibility, scalability, and ease of use for Sygnature scientists, making it the ideal solution for our integrated drug discovery projects. It has greatly improved the efficiency of the design-make-test analyze cycle, saved valuable time and enhanced productivity. This allows our scientists to focus on what truly matters — discovering new medicines.”

TING QIN
SENIOR PRINCIPAL SCIENTIST, SYGNATURE DISCOVERY

FEATURED TESTIMONIALS

“The Scispot team has been wonderful. It’s refreshing to work with a team genuinely passionate about their work. It’s not just a sales pitch—I can tell you truly enjoy working at Scispot. It makes it more pleasurable to collaborate with people who care about what they’re doing.”

ALICIA MCCARTHY
LABORATORY SPECIALIST, TOXICS USE REDUCTION
INSTITUTE

“Scispot transformed our audit preparation process. It saved us significant time and improved data quality. The automated reporting and comprehensive activity logs ensured we were always compliant and ready for any audit. It’s a game-changer for our lab operations.”

EMILY ROGERS
CHIEF SCIENTIST, PRECLINICAL CRO

“Scispot has been instrumental in automating sample intake process. Managing around 350 samples a week is no small task. By integrating Scispot with our database, we automated bulk intake & metadata updates, saving time and enhancing data accuracy.”

NOVIA KAYFETZ-VUONG
LAB TECHNICIAN, ANIMALBIOME

“Before Scispot, our inventory and process management was manual and scattered. Now, everything lives in one place—transforming how we connect the dots between experiments.”

DANA BHATTACHARYYA
DIRECTOR OF OPERATIONS, 3DBIOFIBR

FEATURED TESTIMONIALS

“Having a single source of truth has prevented costly errors and improved efficiency in bringing products to market. We estimate that using Uncountable has helped save us at least a half-day of work per week per scientist, which adds up significantly over the year.”

ANDY SEABERG
VICE PRESIDENT OF R&D, RIPPLE FOODS

“Uncountable’s software is phenomenal in visually representing large data sets and different interactions.”

RYAN TUCKER
DIRECTOR OF R&D, AGC CHEMICALS

“Uncountable’s platform responded to our need for digitalization and process automation.”

ISMAEL VELA
SENIOR OFFICER, REPSOL

“Uncountable saves us a great deal of time in trials – from weeks to months.”

WILLIAM SALEM
TECHNOLOGY TEAM LEADER, AGC CHEMICALS
