Customer Success Report

Medical Practice Management Software Category

Medical practice management software (PMS) is designed to assist medical offices of all sizes to operate more efficiently by managing daily administrative and financial functions.

The capabilities of PMS include: entering and monitoring patients, storing patient demographics, scheduling patient appointments, handling charge capture, executing billing procedures, presenting insurance claims, processing payments from third parties, insurance providers, and patients, and producing reports for employees. Medical PMS can be used to store and maintain patient records as well as manage large data sets, including details of physicians and other health care providers, medical facilities, insurance companies, procedures, and ICD codes.

Customer Success Report

Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ✓ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ✓ Customer reference rating score
- ✓ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ✓ Total # of profile views on FeaturedCustomers platform
- ✓ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ✓ Social media followers including LinkedIn, Twitter, & Facebook
- ✓ Vendor momentum based on web traffic and search trends
- ✓ Organic SEO key term rankings
- ✓ Company presence including # of press mentions

COMPANY SCORE

- ✓ Total # of employees (based on social media and public resources)
- ✓ Year-over-year change in # of employees over past 12 months
- ✓ Glassdoor ranking
- ✓ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

“We use DrChrono’s RCM services and they truly hold up their end of the bargain. I have an actual team that supports my practice. We have weekly meetings with our dedicated billing and account manager who is a CPC (certified professional coder). When they say all claims are submitted within 48 hours, it’s true. Our claims are paid within 7 to 10 days. Our revenue has increased 22% since we started and we attribute it to the transparency that DrChrono inherently offers. Again, showing us both what we were collecting and what we weren’t collecting.”

AMY KOWALSKI
INSPIRE FAMILY HEALTH

“I have been with DrChrono for about 6 years now, and it is always improving. It’s a nice system that can be used in multi-disciplinary practices. I am a chiropractor and I used it with a medical Nurse Practitioner. What initially appealed to me was there was no multi-thousand dollar up-front fee that other EHR companies want to charge you, along with yearly upgrade fees. None of that here, so you start off saving thousands.”
