PAYMENT GATEWAY SOFTWARE OVERVIEW

Payment gateway software is the link in the transaction chain that translates directly to your business successfully collecting payments. You cannot expect to easily collect payments from your customers online without the right software for the job. Online, potential clients are known to flee from any and all transactions that appear sketchy or untrustworthy, and for good reason. Keeping your business from making the list of untrustworthy options available in huge quantities on the web can only be done by presenting present your customers with a safe, simple and reassuring payment method that protects them from the dangers of fraud as it much as it does for you.

Using great payment gateway software puts you in a stronger business position than your competitors and can provide you with a number of excellent utilities to positively influence your daily transactions. Collecting payments online is no longer a difficult task to accomplish thanks to all of the impressive software options that have cropped up for you to make use of. Having a strong payment gateway software in place for collecting your clients' payments means offering multiple options for payment completion and bestowing the safest access point that you can to them in the process.

CUSTOMER SUCCESS SCORING METHODOLOGY

The FeaturedCustomers.com Customer Success score is based on data from our customer success content platform, social presence, as well as additional data aggregated from online sources and social media properties. Our ranking engine applies an algorithm to all of the data collected to calculate the overall Customer Success score. The overall Customer Success score is a weighted average based on 3 parts:

Content Score is affected by the following:

1. # of vendor generated customer success content pieces (case studies, success stories, testimonials, and customer videos)
2. Content quality score generated from all customer success content
3. % Change in Content over past 6 months
4. Number of employees (based on social media and public resources)

Social Score is affected by the following:

1. # of LinkedIn followers
2. # of Twitter followers
3. # of Facebook likes
4. Number of employees (based on social media and public sources)
5. Engagement across all platforms

Company Score is affected by the following:

1. Number of employees (based on social media and public resources)
2. Vendor momentum based on web traffic and search trends
3. Employee satisfaction and engagement (based on social network ratings)
4. % traffic increase to your Customer References
5. Lower Funnel SEO Key Term Rankings

CUSTOMER SUCCESS AWARDS

Market Leader (89 - 95)

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

Top Performer (85 - 88)

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Leader.

Rising Star (75 - 84)

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

ABOUT PAYPAL

PayPal gives people better ways to manage and move their money, offering them choice and flexibility in how they are able to send money, pay or get paid. PayPal operate an open, secure and technology agnostic payments platform that businesses use to securely transact with their customers online, in stores and increasingly on mobile devices.

TRUSTED BY:

eBeautyinc

low carb
Chocolates

"Having the PayPal button helped our customers tremendously. The checkout experience is [now] a 2-click process, and conversions have gone up as a result."

Barbara Karpf
Founder and CEO, DecoratorsBest

"PayPal is just so easy. If you want to start accepting payments today, you can. It integrates with most platforms and [website] templates."

Sarah Davis
Founder, Fashionphile

"There are a lot of reasons why PayPal is a better payment option online. We want to be able to give not just young people but all people who value the security and utility of PayPal the ability to use their PayPal account to make donations."

Ted Kaiser
Vice-President Information Technology, Kids Help Phone

"PayPal is essential to any e-commerce business. It's one of the foundational blocks; a no-brainer. You turn PayPal on and you're going to get more business."

Stephan Aarstol
Founder and CEO, Tower Paddle Boards

ABOUT AMAZON PAY

Amazon Pay makes it simple for hundreds of millions of customers around the globe to check in and checkout using information already stored in their Amazon account. Amazon Pay offers merchants and customers a trusted and familiar buying experience.

TRUSTED BY:

"We've gained a lot of new business by offering a payment option that appeals to the Amazon customer base."

Sean McWherter
Co-founder, Autoplicity.com

"There is a level of trust with Amazon. People are used to checking out with Amazon, I don't see anyone who doesn't have an Amazon account."

Dan Bischoff
Acquisitions Team Lead, Purple

"Amazon Pay streamlines our payment by replacing eight form fields with as few as two taps. It's absolutely delightful."

Steven Pennington
Head of Product, Vacatia

"Amazon Pay enables us to provide a really elegant digital experience that ensures our customers come to us again and again."

Rich Ascott
Global Digital Director, AllSaints

ABOUT SQUARE

Square, Inc. (NYSE:SQ) creates tools that help sellers start, run, and grow their businesses. Square enables sellers to accept card payments and also provides reporting and analytics, next-day settlement, and chargeback protection. Square's point of sale software and other business services help sellers manage inventory, locations, and employees; access financing; engage customers; and grow sales. Square Cash is an easy way for businesses and individuals to send and receive money, and Caviar is a food ordering service for popular restaurants.

TRUSTED BY:

"Square has been a big part of helping us go to the next level. We can track the progress of our business through the day from anywhere. I could be at the beach, pull up the Dashboard, and see what's going on at the shop."

Woody Lovell
Owner, The Barbershop Club

"I'm in the process of expanding, and Square Capital has been instrumental in that. I was able to add a freezer to the food truck that allows us to do pie à la mode, and that comes back into your pocket."

Mr. Todd
Owner, Mr. Tod's Pie Factory

"That's what Square does for a business owner. They save them steps. Between the processing fees and time, I save at least \$1,000 a month using Square."

James Brock
Owner, Boston Home Inspectors

"Customers are very impressed by Square. It looks clean. It looks inviting. They think okay, this is a new, exciting, modern shop. We're taken more seriously."

Melanie Porter
Lavender & Honey

Frequently Asked Questions

Describe who the software is best for - their role(s) within what kind of companies.

Square Point of Sale (POS) is used by more than 2 million small businesses. This is a free app that can be downloaded and used on any iOS or Android devices. Best suited for small businesses with up to \$25M in annual revenue and up to 600 employees. It is versatile enough to serve every kind of business, from retail to bakery.

How does this software benefit them?

Easily create items in the items library, track sales and know what's selling and what's not. Comes with integrated payment processing, allowing businesses to accept whatever way their customers want to pay. Automatically populates customer profiles and generates insights about customer behavior. Allows direct customer feedback via digital receipts. Powerful analytics provided both on the POS itself and backend Dashboard to help manage the business. Easy add-on feature to enable employee access and customized their permissions.

How/why is Square better than those competitors (or most others in their market)? What about it is unique, stronger, easier, etc.?

More reliable software. We have best-in-class engineers working on our software. The cloud-based technology we use means our customers get the latest updates and features all the time.

Easier to use. We design our software with end users in mind. For most small businesses, no training is needed to get started with our POS software. Even for large, more complex businesses, we typically need less than an hour for staff training.

Affordable cost. Our software is free and works with any iOS or Android tablet or phone you already have.

What kind of features can customers expect to see in the near future? And longer term?

We are always listening to our customers and developing features that they need.

What kind of training/education is offered?

Online documentation. In-app walk through. For large businesses we offer onboarding support and staff training.

What are the support options? List all.

Phone or email support Monday to Friday 6AM to 6PM Pacific Time.

ABOUT ADYEN

Since June 2013, the Adyen Mobile Payment Index has tracked the rapid evolution of mobile as a payment channel, providing insight into mobile payment trends for different devices and market sectors, across selected geographies and payment methods. The Mobile Payments Index is based on Adyen's global mobile web payment transaction data, and does not track in-app mobile payments.

TRUSTED BY:

NETFLIX

ABOUT CORPORATE SPENDING INNOVATIONS (CSI)

Since 1989, Corporate Spending Innovations (CSI) has provided innovative payment solutions with the highest level of customer service to world leading brands. The company's highly secure payment products increase compliance, reduce fraud, and simplify reconciliations. CSI has earned multiple awards, including the 2015 CODiE Award for the software industry's best financial management system. With one payment file upload to CSI Paysystems, customers can automate 100% of their B2B payables and disburse global payments through virtual credit card, private network, ACH, check, or FX with cross-border payments settled in local currency.

TRUSTED BY:

Mercedes-Benz

"Overall, the globalVCard program has helped us manage our growth, given us a competitive edge and has made our finance staff happier and more efficient in their job."

Mike Ulrich
CFO, Geomedia

"Before globalVCard, the paper trail was costly in many ways, and I couldn't effectively track my vendor payments with ACH."

Jack Fritsche
SVP and CFO, Donohoe Hospitality Services

"No cost and the ability to earn cash rebates on payments? It sounded too good to be true. But it's so easy, completely seamless and CSI did all the work. It's a no-brainer."

Mick Nissen
Controller, Sharon Heights Golf & Country Club

"But the real testament is the results. The program runs smoothly – almost in the background. The volume of spend keeps increasing as does the new rebate revenue we're able to generate."

Thomas Costello
Vice President of Finance, Discovery Senior Living

ABOUT DWOLLA

Dwolla is a digital payment network that securely connects with U.S. banks and credit unions to enable safe, fast, account-to-account transfers. They provide APIs for businesses and platforms to leverage their powerful bank transfer platform. Businesses can quickly and seamlessly integrate ACH transfers into their application in order to make payments more efficient and effective. You customize the look and feel of the experience, with Dwolla's secure infrastructure at your back.

TRUSTED BY:

"Onboarding new couriers to work for Relay was a manual and painstaking process. From collecting bank details for every person, to manually dispersing paychecks weekly, it was clear that with our rapid growth that it could not be sustained. In implementing Dwolla, we've fully automated the signup and disbursement phases—we've freed...

Zach Ivester
Integrations Architect, Relay Delivery

"We needed a reliable payments partner that could deliver an API that simplifies the process and allowed us to deliver the basic functionality our application required. The Access API did just that, and more...and we knew we could count on their team as a long-term partner as we grew our company."

Nate Washington
Co-founder & CTO, Qoins

"Working with their tech team on our integration was great. They were always quick to respond to questions and very receptive to feedback. A feature that we requested during a meeting with them went live only a few weeks later. This gives us the confidence that as our payment needs evolve, so will Dwolla."

Matt Moore
CTO, Popular Pays

"Dwolla's ability to streamline the integration process and offer up direct access to their team via a Slack channel could not be overstated. It told us that they were invested in our success. It did wonders for our team's ability to quickly design and develop our integration."

Devon Peterson
VP of Engineering, Patch of Land
