

CMMS Category

CMMS Category

Many businesses can really benefit from having a computerized maintenance management system, or CMMS, as it helps managers to streamline their maintenance schedule. Retailers, manufacturers, public services and other industries can effectively look after their assets, distribute tasks and keep track of any maintenance costs involved including labour and parts by installing a CMMS software package.

The CMMS system creates a far more effective and productive record of assets and maintenance tasks for a company as well as keeping accurate records of work already carried out. With CMMS in place, maintenance managers can keep track of work orders to make sure all maintenance work is completed, which ensures work management is productive and timely. CMMS is also very useful for maintenance scheduling as routine or recurring tasks can be input into the system with reminders sent to the right people at the right time. CMMS can also help with inventory management, audits and accident or insurance claims.

Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- Customer reference rating score
- Year-over-year change in amount of customer references on FeaturedCustomers platform
- Total # of profile views on FeaturedCustomers platform
- Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- Social media followers including LinkedIn, Twitter, & Facebook
- Vendor momentum based on web traffic and search trends
- Organic SEO key term rankings
- Company presence including # of press mentions

COMPANY SCORE

- Total # of employees (based on social media and public resources)
- Year-over-year change in # of employees over past 12 months
- Glassdoor ranking
- Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

2021 Customer Success Awards

ABOUT ASHCOM TECHNOLOGIES

Ashcom Technologies, Inc. has been an industry leader in the development and installation of state-of-the-art systems and technology designed to help organizations save money, increase quality, and improve the bottom line. MaintiMizer™, Ashcom’s flagship computerized maintenance management system (CMMS), is the choice of more than 3,000 customers in a variety of industries worldwide.

Featured Testimonials

“At first, it was hard to get some people to buy in, once they saw what MaintiMizer could do they were completely on board. It’s a good system and a great tool, and it gives us all the data we need to continue to be successful.”

BEN STUART
ENVIRONMENTAL COMPLIANCE OFFICER AND PLANT ENGINEER, GUTCHESS LUMBER

“As much as MaintiMizer™ has helped my department do its job better, the benefits to our members have been even more significant. The facility is cleaner, everything works, and the members are happy.”

JERRY REED
PROPERTY MANAGER, GRAND ISLAND YMCA

“From the beginning, Ashcom has supported us. They populated the system by importing our Excel data and trained us over the web using our own equipment so that we didn’t have to travel. They continue to support us through phone training, and they can make the things we need happen. For example, if we want a particular report for our senior management or need something to look a certain way, they can easily modify it for us. We appreciate that the system is flexible. It can be customized to any industry and help you accomplish whatever goal you have.”

JIM RIZZI
DIRECTOR OF FACILITIES, VACCINE & GENE THERAPY INSTITUTE OF FLORIDA

“The bottom line is that MaintiMizer™ helps me maintain the campus more smoothly than in previous years, freeing our staff to do what they do best and providing a high-quality environment for learning.”

MIKE JACKINO
FACILITIES COORDINATOR, SUNY FREDONIA

ABOUT DPSI

Since 1986, DPSI has provided industry-leading computerized maintenance management systems (CMMS) and enterprise asset management (EAM) software for over 6,000 companies and 50,000 users in over 50 countries. DPSI offers on-premise, cloud-hosted and mobile solutions to help companies centralize data, automate maintenance management tasks and enhance productivity. With easy-to-use software such as iMaint and PMC, users can streamline work orders, preventive maintenance, scheduling, reporting and more. DPSI partners with companies, regardless of size, industry or unique set of maintenance challenges, to maximize ROI and ensure long-term success.

Featured Testimonials

“We have just recently migrated to iMaint but I can tell you I really do like the functionality it provides. [...] iMaint is a very easy system to work in and the folks at DPSI are there to help when you stumble across something you can't figure out.”

RACHEL ANDERSON
SME MANAGER, MIXING & MOLDING, VIBRACOUSTIC

“I have been using iMaint for several years I have seen it evolve into an extraordinary CMMS. The system is easy to learn and navigate. I really could not do my job without iMaint and I wholeheartedly recommend it for any company that has a need of a CMMS.”

MARINA GARZA
MAINTENANCE PURCHASING/PROGRAM COORDINATOR, JOHN SOULES FOODS

“I can say only good things about DPSI. Their staff is always professional and the Support team has been extremely helpful on the rare occasions when they've been needed. We're running our entire North American maintenance network on iMaint. You won't find a better, more capable CMMS/EAM for any price.”

LELAND PARKER
CMMS MANAGER, THE NATURE'S BOUNTY CO.

“We use iMaint to track marine maintenance for about 600 different vessels or equipment at various sites. In addition to our vessels, we track 100% of labor in iMaint and report on it daily.”

TROY MACNEILL
DATABASE ADMINISTRATOR, COOKE AQUACULTURE

ABOUT DUDE SOLUTIONS

Dude Solutions is a leading software-as-a-service (SaaS) provider of operations management solutions to education, government, healthcare, senior living, manufacturing and membership-based organizations. For nearly two decades, Dude Solutions has inspired clients to create better work and better lives. We combine innovative, user-friendly technology with the world's smartest operations engine, empowering operations leaders to transform the most important places in our lives. Today, more than 12,000 organizations use our award-winning software to manage maintenance, assets, energy, IT, events and more.

Featured Testimonials

“Dude Solutions has become a part of our equation for success. [MaintenanceEdge] has helped us better maintain our equipment by clearly demonstrating when a change in maintenance frequency is necessary and the ability to add tasking is immediate.”

 DALE STEIN
PLANT ENGINEER, PEPSI BOTTLING VENTURES

“The system definitely saves us time by giving customers automatic alerts on job status and completion. We were not able to do that before and doing so means we are offering better customer service.”

 MIKE GRANT
BUILDING MAINTENANCE SUPERVISOR, CITY OF SHERMAN, TX

“With multiple facilities across three counties, we are mindful of travel time and expense. MaintenanceEdge helps us prioritize and improve productivity.”

 BRAD JONES
DIRECTOR OF PROPERTY MANAGEMENT & CONSTRUCTION, CENTRAL WASHINGTON COMPREHENSIVE MENTAL HEALTH

“The program has made my job much, much easier. Any information that's provided to me for planned maintenance or new purchases is sent through the program. There's a lot to do here; the program helps with keeping the building maintenance department organized.”

ABOUT FMX

FMX is a leading-edge provider of workflow management solutions that empower facilities managers and building tenants to manage resources and equipment easily and cost effectively. Through the use of the latest cloud-based technology coupled with the management team's extensive knowledge of energy systems and facilities, the company offers the FMX™ suite of services built around a simple calendar interface. The FMX product line empowers users to do their jobs more easily and with greater control over time. The reporting capability of the product line gives everyone associated with managing facilities greater insight into their operations.

Featured Testimonials

“All CMMS systems are going to have similar functionality - take requests, monitor equipment, schedule preventive maintenance, etc. But FMX is by far the easiest to use and their amazing customer support sets them above the rest.”

ERIC TURNBOW
FACILITIES MANAGER, ULTRADENT

“FMX stood above nearly a dozen other facilities and maintenance management solutions. Their ease-of-use, application performance, and customer service were superior in every way, which will help the Polynesian Culture Center achieve new levels of operational excellence.”

DAVID LAU
CMMS SYSTEMS ADMINISTRATOR, POLYNESIAN CULTURAL CENTER

“We needed a solution that was a good balance between a maintenance database and facilities calendaring software. FMX proved to hit the sweet spot for us, providing exactly what we needed. It gives us a way for our pastors to easily make maintenance requests, and, at the same time, gives the facilities management team the ability to log in and see the entire calendar.”

CHRIS BARRON
FACILITIES MANAGER, FAITH BAPTIST CHURCH

“We have been very satisfied with this product, which we have used almost a year now. It is easy to use, high quality, and has great customer support to help with any questions we do have. We love the ease to add modules suited to our needs. FMX also continues to update their product regularly and make improvements. We have used a couple similar products which do not compare with FMX. We're excited to continue using FMX and see how they continue to adapt their product.”

ABOUT FIIX

Fiix creates modern maintenance software that's easy to use, flexible, and affordable. Its cloud-based CMMS is disrupting the market by revolutionizing how thousands of companies worldwide schedule, organize, and track maintenance.

Featured Testimonials

“The BSA needed a comprehensive tool to help manage expenses and help build annual maintenance plans. Fiix does this and more.”

 DAVE CORNELL
PROJECT ARCHITECT, BOY SCOUTS OF AMERICA

“To be able to look into our data instead of just keeping track of work orders is really exciting for us. We can start seeing things we have never seen in the past, like patterns of failures. And instead of just fixing the issues and moving on, we can now ask ‘why are those issues happening?’ To identify that is hugely important.”

 JOSE YORBA
US ASSET MANAGEMENT IN THE FIRE SAFETY GROUP, PERIMETER SOLUTIONS

“Ease of getting up and running and using the software. Adaptability to set up and customize to your particular business. Ease of getting up and using the software and getting out work orders. Very reasonably priced which made it easy to sell to upper management as opposed to buying a customized software system.”

 BEN RYBA
NACS INC.

“I have used a number of systems in the past that had steep learning curves with their idiosyncrasies and short cuts. Maintenance Assistant CMMS is easy to navigate, which is good for us and good for our end users.”

 JUSTIN SCOTT
FACILITY MANAGER, 365 DATA CENTERS

ABOUT HIPPO CMMS

Hippo CMMS is a powerful, affordable, and user-friendly web-based maintenance management software system. Hippo's all-in-one CMMS platform applies to a broad range of industries from manufacturing to healthcare, hospitality to government facilities management and more. Hippo's CMMS software contains integrated features that work together to provide a singular robust solution. Its user-friendly work order management feature allows users to submit work orders through a simple request portal quickly.

Featured Testimonials

“Since implementing Hippo CMMS it has enabled us to make sure that specific equipment is maintained on a regular basis and that we have the correct documentation in place to back this up. It has helped us streamline our maintenance management.”

JIM BENNET
LI-COR BIOSCIENCES

“The ease of use is the best thing about Hippo. Requests are easily done and sent. Being able to prioritize and receive feedback is appreciated.”

SHIRL
COMMUNITY NURSE HEALTH CENTER

“Hippo CMMS covers all the bases for a CMMS tool and does it at such a low cost compared to enterprise solutions. Very customizable and easy to use with a great training library.”

NICK PRAFKE
IMERYS

“Hippo gives us the greatest use of our resources while tracking costs and status of work. The helpful employees of Hippo made the transition to Hippo a simple and painless process.”

ABOUT MAINTENANCE CONNECTION

Maintenance Connection, an Accruent company, provides Facility Maintenance and Asset Management Software (Browser-Based CMMS) to organizations worldwide. Our unique blend of technology and personalized service is a critical component of our client satisfaction. Our attention to service is evident in the people we hire, the systems we develop and the way we interact with our clients. Giving back is central to our mission, and we look for people whose personal core values resonate with ours.

Featured Testimonials

“With help from Maintenance Connection we can look at staff's productivity. We can see where the work's being put in, whether it be a service report, a work order, a project. We are able to look and see where we're deficient and then learn from there whether we need extra staffing.”

DEBBIE HONGELL
BIOMED SUPPORT TECHNICIAN, BAY AREA HOSPITAL

“We use Maintenance Connection within our daily operation of a Public Works Facility. We use the software for maintaining all of our 30,000 assets. It is a very powerful tool for processing work orders, as well as managing assets and inventory.”

BOBBY
CH2M HILL

“The reporting in Maintenance Connection gives us better visibility into inventory tracking and supplier costs, and saved us \$105,000 last year through centralized vendor comparisons. By reducing quantities on hand by 10% across the board, we've saved tens of thousands of dollars in unnecessary parts spending.”

DION ARCHULETA
STOREROOM & MOBILE EQUIPMENT COORDINATOR, TRINCHERO FAMILY ESTATES

“We depend on Maintenance Connection across our 104 airport locations. We use the software to maintain a variety of assets from hangars to data centers, to fuel tanks, baggage systems, jet bridges, passenger boarding bridges and more.”

ABOUT UPKEEP

UpKeep Maintenance Management Software is a task management tool startup for facility maintenance teams. UpKeep is targeting the 9.9 million maintenance workers in the US alone to make their work more productive and changing the way facility maintenance requests are made and received. Their primary focus is on making technology easier to use for field technicians so they can access their work on the go.

Featured Testimonials

“UpKeep was chosen after trying a number of CMMS systems against some basic goals. UpKeep is competent, easy to implement, easy to use, and has the best Customer Service team. Setup and maintaining the system was intensive since we have over 1000 assets spread out over 6 locations and 13 buildings and UpKeep is fast, easy and simple build the database with. The template uploads helped get us going and the inline editing was a great addition.”

GARY MORRYDE INTERNATIONAL

“UpKeep is a great service for managing work orders, tracking assets and scheduling your team's time. The asset system is great for tracking parts and preventative and reactive maintenance that has been performed on individual items such as HVAC units. The ability to upload pictures and other files such as repair manuals, work orders, and assets is also a huge plus. All around UpKeep is a great piece of software that I would recommend to anyone with a medium to large size business or anyone managing multiple properties.”

LIAM SAN LUIS OBISPO COUNTRY CLUB

“I am able to track maintenance issues much more efficiently to ascertain if a bigger problem may be the main issue. The accessibility on my smart device makes this software a vital tool in daily operations.”

JEREMY VINA ROBLES AMPHITHEATRE

“UpKeep has allowed us to examine the facilities management business in the aggregate, pull out trends that previously we couldn't see, and work smarter and faster for our clients, while also lowering their costs over the longer term. It has fundamentally changed how the hotels, bars and other properties are being looked after. Less than a year into UpKeep's roll out across the business, nobody could imagine ever going back to the old ways.”

ABOUT EMAINT

eMaint, a Fluke company, has been providing innovative CMMS (Computerized Maintenance Management Software) solutions since 1986. eMaint was one of the first CMMS providers to develop a completely web-based "Software as a Service" (SaaS) model for more rapid implementation at a lower total cost of ownership. eMaint's growing client base consists of over 50,000 users worldwide across multiple sites ranging from small & medium sized organizations to Fortune 500 corporations, including manufacturers, service providers, fleet operators, energy and utility companies, health care facilities, universities, municipalities, and facility and property managers, among others.

Featured Testimonials

"eMaint is our state-of-the-practice CMMS. It allows us to track key business metrics, helps us comply with environmental standards, and ensure work is completed on-schedule. About 100 employees interact with eMaint, and everyone in NEFCO appreciates eMaint's ease of use and 24/7 access."

BILL HOLLMAN
CORPORATE OPERATIONS MANAGER, NEW ENGLAND FERTILIZER COMPANY

"I am still surprised today why all departments don't utilize a CMMS since both the ability to capture troubleshooting and corrective maintenance as well as automatically generate PMs is worth the entire system. eMaint had all the features I needed yet was easy for all of my staff to learn."

DOUG CURRY
DEPUTY AIRPORT DIRECTOR FOR FACILITIES AND MAINTENANCE, RAPID CITY REGIONAL AIRPORT

"I can be just about anywhere - at home, on the road, in a hotel room - and I can still have real-time access to the mechanics of our PM system, along with consistent communication with the maintenance team. Assigning work orders and sending instructions to technicians through my mobile device is even quicker than calling them on the phone."

PAUL MURPHY
FACILITIES ENGINEERING MANAGER, PURE FISHING

"I'm a solid believer in what eMaint has put out there. eMaint's CMMS has helped us improve our OSHA and lock-out, tag-out safety procedures by enabling us to generate tasks and documentation."

ABOUT BENCHMARKATE

Benchmarkate has developed a long-standing reputation for delivering value-based maintenance management tools to meet the demands of clients in a wide-range of industries. These tools provide an intuitive interface for a quick start to facilitate immediate use and ROI. Benchmarkate began developing what has resulted in a long-standing reputation for delivering value-based maintenance management tools to meet the demands of clients in a wide-range of industries. Today, that focus remains unchanged as companies continue to trust and rely on Benchmarkate to address and resolve their maintenance management challenges.

Featured Testimonials

“Our PM functions with very little time spent on scheduling which improves our efficiencies. The system is easy to navigate and extremely user-friendly. We continue to be pleased with the reliability of the system and the great response we receive from Benchmarkate’s customer care group.”

JOHN TRIMBLE
SITE MANAGER, PINAL CREEK GROUP

“The system is easy to work with and has an outstanding search capability. The equipment database houses all assets for easy tracking and multiple sort options. All PM information is straight-forward and simple to follow without any complexities. With Benchmarkate’s reporting capability, you can easily see what maintenance has been performed on plant assets including use of spares and important cost information. I’ve used the system for years and will continue to rely on Benchmarkate for my maintenance management needs.”

GENE WYSS
PLANT MANAGER, FREIGHTCAR AMERICA

“Securely performing and tracking maintenance and related costs at all our facilities and prisons was our ultimate goal. We’ve achieved that with Benchmarkate’s Satellite PC. It gives us the flexibility we need and we’ve deployed it in separate trade shops including: Plumbing, Electric, and Fabrication. It’s easy-to-use, our management team, maintenance staff, and inmates now track all types of Maintenance Management tasks and data including: Preventive Maintenance, Required Maintenance and Project tracking, as well as, Work Orders and Trouble Calls. We also use it to track costs on a variety of community projects.”

LADDIE MAY
FACILITIES SERVICES OPERATIONAL SPECIALIST 2, OREGON DEPARTMENT OF CORRECTIONS

“After researching several solutions, and realizing Benchmarkate’s ease-of-use, diversity, scalability and cost would empower our team quickly and expand to support our global facilities. Benchmarkate provides labor & workflow efficiencies throughout our company, real-time.”

Featured Testimonials

“This web application allows utilities to view, trend, and compare their historical maintenance costs and will give them insights into where and why money is being spent on preventive or corrective maintenance activities.”

JEFF GREENE
SENIOR TECHNICAL LEADER, ELECTRIC POWER RESEARCH INSTITUTE

“I particularly like CHAMPS because I know it can do many different aspects of a business; work orders, purchasing, payroll, accounts payable, inventory, scheduling, lock-out tag-out, etc. If there is one part of the system that is not adequate to your company's function, the great employees at CHAMPS will tweak it and make it do whatever you are looking for.”

MARSHA
WILLIAMS COLLEGE

“We can't just run out and grab a part from a local supplier if we're working on a job that is 100 miles away from the nearest dealer. The CHAMPS system gives us up-to-date inventory balances and a valuation of our materials. This allows us to instantly know where we stand with our spare parts and when we are nearing a reorder point.”

STEVE ULLMANN
DIRECTOR OF FACILITY SERVICES, YOSEMITE NATIONAL PARK

“As a 15 year CHAMPS user and last 4 as administrator, I find CHAMPS to be the best way to track our maintenance issues and corrective actions. Coming from a mechanical background, I like the fact that the database gives me the ability to track failures, enabling me to trend machinery to prevent future failures.”

ABOUT EAGLE TECHNOLOGY

Since 1986, Eagle Technology has been a leader in the development and sale of Computerized Maintenance Management Systems (CMMS) and of Enterprise Asset Management (EAM) solutions. To date, they have had over 3,000 users in 34 countries, and have developed partnerships with companies like Johnson Controls, Honeywell, Trane, and Tridium. These partnerships have enabled Eagle Technology to promote, manage, and service customers worldwide.

Featured Testimonials

“I recently built a building and set up a new Facilities Department. We evaluated multiple CMMS systems. Eagle Proteus by far had more functionality and was substantially more competitive than the major CMMS systems. We are now in year 4 and the system has exceeded all expectations.”

JOE BLEAU
FACILITY MANAGER, NS INTERNATIONAL

“The software is a great way to keep records. It shows you what's been done, how much was spent, and also tracks labor and parts. Proteus is the backbone of our department. We're really happy with it. It has clearly played a big role in improving productivity and helping us to take our department to a whole new level of management. Since implementing Proteus, we can effectively plan preventative maintenance and get an overall view of each building maintenance needs. We have been able to track and manage each transaction and the level of effort associated by the use of Proteus.”

DON STENSON
FACILITY MANAGER, STEINHAFELS

“Proteus MMX's mobile application is multifaceted, providing technicians the ease of completing preventative and demand work orders directly in the field as work is occurring. With the rich voice-to-text option, the details and accuracy of the work completed have drastically improved, providing the company with a vast wealth of information.”

TOM JENKS
PARTS MANAGER, LINK SNACKS, INC.

“Proteus MMX improves efficiencies and we have seen an increase in client satisfaction.”

ABOUT GRIDIUM

Gridium crafts beautiful, easy-to-use tools for the way buildings work now: mobile, always-on, and data-driven. Whether you are managing energy use, coordinating vendors, or communicating with tenants, your software should make your job simpler, not more complex.

Featured Testimonials

“ Tikkit is brand new and already way better than legacy CMMS and work order systems that have been around for decades. It is flexible and handles rich data from each ticket stream, including photos and video. Tikkit helps instrument and track vendors, as well as service progress. It has broad system features for interaction from your smart phone. If you are looking for better vendor and service management, I highly recommend a trial. ”

WAYNE WIEBE
REAL ESTATE OPERATIONS LEADER, FORMER REAL ESTATE DIRECTOR, ECHELON

“ Over my career I've used every work order and CMMS system under the sun. Gridium has simplified things to their essence and the system is very easy to use, even for my roving team whose primary device is a phone. We're using it to help boost service levels, enhance field service efficiency and enable tenant self service. ”

BILL YOUNG
DIRECTOR ENGINEERING, BASIN STREET PROPERTIES

“ Ensuring our buildings meet the highest of quality standards demanded by our clients takes dedication and teamwork. Tikkit is a transparent platform for my team, our building occupant customers, and vendors alike. It takes the mystery out of what we do, and how we do it. ”

FERGUS LENEHAN
SENIOR SUPERINTENDENT, QUALITY DEPARTMENT, WEBCOR BUILDERS

“ Maintaining equipment and our two facilities in top condition allows our nurses and doctors to provide the care our patients need. Tikkit has fixed our maintenance communication issues, and now I estimate our maintenance request resolution time has improved by 25%. ”

ABOUT MAPCON TECHNOLOGIES, INC.

MAPCON Technologies, Inc., a full-featured Work Order and Preventive Maintenance Software, has been developing Computerized Maintenance Management System (CMMS) Software for facilities and other industries since 1982. MAPCON Maintenance Management Software products include robust Enterprise and On-Demand (SaaS) versions and a Windows server-based version.

Featured Testimonials

“MAPCON has revolutionized the way we look at maintenance. We’re recording real-time information, stocking smarter, using reports to plan better and maximizing plant uptime through the use of planned preventative maintenance.”

MIKE ENSLEY
CMMS ADMINISTRATOR, DIDION MILLING

“I have found MAPCON user friendly, easy to work with and most impressive is their staff who are always ready to assist (thank you Brock, Ethan, and Cory). I love its ability to consolidate a number [of] processes in my organization, making it easy for references, especially its ability to link particular costs to a work order. Helps a lot in evaluation and disposal of equipment. And yes, it can be customized as per my organization needs to.”

CHARITY KIRIGHA
KENFREIGHT EAST AFRICA LIMITED

“We use MAPCON because it is easy to use. It is ideal for keeping track of our equipment maintenance and records. We use MAPCON to generate all of our work orders for maintenance at our complex. We then can easily retrieve the data and use it for billing our various departments. It was easy to implement. I feel its greatest advantage is that it is user friendly.”

DAVID SHERK
ENGINEER/SUPERVISOR, PHYSICAL PLANT & GROUNDS, MICHIGAN STATE UNIVERSITY

“The customer support is phenomenal. When I have to call for support, the people that I speak with are always very friendly and extremely helpful. I still have plenty to learn and look forward to learning and introducing some of the features that our company has not yet used. The organization that MAPCON can provide to us for our equipment, inventory, and work order management will be very beneficial to our department.”

ABOUT MEX

MEX Maintenance Software is the leading provider of Computerised Maintenance Management Software in Australia, providing solutions to a large group of industry sectors including manufacturing plants, building facilities, local governments, fleet managers and maintenance contractors. MEX specialises in Asset Maintenance Software. Any asset intensive company that needs to track assets, parts, labour and manage workload including Preventative Maintenance (PM) could use any MEX product.

Featured Testimonials

“MEX is by far one of the best CMMS I've used so far in my career. Its functionality makes it an easy system to implement, which in turn gives ease of use to the end user (maintenance trades). Also, regions is a great tool to setup multiple site locations across the business, ensuring we have a standardised asset tree and control files.”

PHILIP MCARDLE
BEGA

“Firstly, MEX is user friendly, very easy to navigate through all the modules. [The] MEX catalogue for spares is extremely important to us and is easy to set up and maintain. Currently introducing barcoding to our catalogue. Customer support is clear & very helpful when required.”

DAVID WEBSTER
CCL SECURE PTY LTD

“MEX will help improve your Maintenance. You are able to plan your proactive maintenance philosophy as well as your break-in corrective work. MEX connects your work areas such as Planning & Scheduling, Human Resources, Warehouse and Reporting.”

THYSSENKRUPP INDUSTRIAL SOLUTIONS

“MEX not only creates ease with planning Preventative Maintenance and recording all work completed, but also allows for custom reports to be made to give specific performance analysis of the fleet.”

ABOUT MANAGERPLUS

ManagerPlus has been an innovative provider of Computerized Maintenance Management Software (CMMS) for clients in a range of industries including fleet, manufacturing, facilities, mining, agriculture, public works, and more. ManagerPlus maintenance software is an easy-to-use asset management software system that helps companies in asset intensive industries increase their return on investments while decreasing costs of operation. ManagerPlus links your asset management, maintenance management, inventory and purchasing functions together for quick and easy viewing and decision-making. ManagerPlus products are scalable, modular in design, and boasts SaaS and mobile functionality.

Featured Testimonials

“After reviewing 7 other CMMS it was my conclusion that between operators and management alike this database system was the most user friendly. It has an organized ribbon of modules and the table layout makes it easy to sort and filter by what I wanted to see. Not to mention with Business Intelligence the dashboard gives me a snapshot of what’s most important to me while also giving me a more customized approach to generating reports.”

RICK SANCHEZ
PLANT ENGINEER, BERGEN

“This CMMS software gives us visibility to see what is going on and where we are at with inventory management and projects. I think one of the best parts of ManagerPlus is that it creates a better line of communication from purchasing to maintenance as far as what we have and what we need to have in stock.”

TIM LINQUIST
CS BEEF PACKERS

“Easy to generate and assign work orders, track inventory, track assets and parts consumption, keeping track of all shifts' work orders.”

THOMAS G.
ROOSEVELT PAPER COMPANY

“We track the maintenance of hundreds of vehicles and equipment. We are able to print out information for the owners such as frequency of services, brake work, clutch and brake adjustments, etc. We always know the cost of parts, repairs and the maintenance schedule for each piece of equipment per division. This is valuable information for the owners in making decisions on major repairs and replacement of equipment.”

ABOUT MICROMAIN CORPORATION

MICROMAIN

MicroMain Corporation provides award-winning maintenance and facility management software and services to organizations worldwide. Since 1991, MicroMain has been building strong relationships with customers in all industries from Manufacturing, Healthcare, Property Management, and Hospitality to the Public Sector. MicroMain software is used by more than 3,100 customers to streamline maintenance at 5,000+ facilities. At MicroMain, they pride themselves on personalized services and the close ties they have with customers.

Featured Testimonials

“MicroMain CMMS has helped me in making the most of the resources we have. We have 60 school sites sending in service calls; we needed a computerized maintenance management system to help us keep track of requests, labor time and completion. We chose MicroMain because it's very easy to use. MicroMain XM helps me see exactly what's going on at every school and with each maintenance shop. The reports alone are worth their weight in gold.”

DENNIS ZIEGLER
ASSISTANT DIRECTOR OF BUILDING SERVICES, SANTA ANA UNIFIED SCHOOL DISTRICT

“The positive impact MicroMain's CMMS has had on our productivity and efficiency is tremendous. Our department of 10 full time maintenance workers and a student crew must help maintain eleven buildings for over 4,500 residents and 300 staff members, so ease of use is very important. Having reviewed other maintenance software programs, I found the MicroMain products to be the most comprehensive and user-friendly products available. I highly recommend these products to anyone looking for a dependable maintenance management software package.”

JENNIFER WILMORE
UNIVERSITY OF NORTH TEXAS

“After searching through many Facilities Management packages, we have come to rest with the one that suits our needs as a University. MicroMain's software has effectively brought us up to par with our work orders and asset management. Our university has 63 buildings and a beautiful landscape with Pacific Ocean to the west side of the campus. All of our facilities are maintained by your system. We appreciate the ease of use and the ability to customize your product, thank you.”

JEREMY EDMISTON
POINT LOMA NAZARENE UNIVERSITY

“We used to have a different Computerized Maintenance Management System which had to be upgraded every two years at a cost of nearly \$3,000 per plant for our 17 plants. With MicroMain we receive upgrades free with our Priority Support Subscription. This has saved us over \$100,000 so far.”

ABOUT SERVICE WORKS GLOBAL

Service Works Global is an international provider of comprehensive Facilities, Property and Workplace Management software. With a global network of offices, Service Works Global delivers CAFM, CMMS and MMS solutions to over 1,000 customer sites across the globe to manage a broad spectrum of workplace and service environments.

Featured Testimonials

“QFM was uploaded with Fat Face’s approved contractors and the software used to issue reactive and planned maintenance work. With visibility of jobs being raised and completed, QFM enables us to reconcile and manage expenditure and the information feeds directly into our finance system, so that we are confident that the cost of jobs match their estimates and that committed costs are in line with budgets.”

ROB MOORE
PROPERTY MANAGER, FAT FACE

“QFM has enabled us to accurately forecast planned maintenance workload relating to each centre. Through the system diary we can see at a glance which activities are coming up (either monthly or annually) including details of health and safety schedules, contract renewal and warranty expiry dates, as well as newly entered reactive jobs.”

COLIN PILTCHER
MAINTENANCE MANAGER, TOTAL FITNESS

“QFM’s inherent flexibility means that the software can be moulded to fit the complex terms of any PPP contract. No other system was capable of recording service requests and then fully integrating them with specific performance parameters. QFM plays a pivotal role in incorporating the management of the abatement risk in daily Help Desk activities at the Melbourne Convention and Exhibition Centre.”

JIM HARTNETT
GENERAL MANAGER OF PLENARY CONVENTIONS, MELBOURNE CONVENTION & EXHIBITION CENTRE

“QFM is a good fit with the Link4Life business, because it supports the scheduling of incoming and outgoing work, as well as repeat jobs, making it ideal for maintenance management.”

SAMANTHA AGNEW
PUBLIC SERVICES MANAGER, LINK4LIFE

Find out why we are consistently one of the highest-rated! Request a Live Demo Now! Visit us on our website: http://www.eworkorders.com

Featured Testimonials

“The perfect affordable, reliable, secure and easy-to-use CMMS. Managing the facilities for the US Senate Sergeant at Arms across a large complex requires a lot of time and organization. Above all, it has to be affordable, increase efficiency, reduce costs and be completely secure. Implementing eWorkOrders streamlined processes, improved inspections, provided us with daily reports on how our operations were performing. Overall we are extremely satisfied with eWorkOrders and I would highly recommend them to anyone looking for a web-based CMMS.”

PAM
US SENATE SERGEANT AT ARMS

“The use of the eWorkOrders platform has facilitated the management and streamlining of our operations and maintenance workflow. System features, coupled with the responsiveness of the eWorkOrders technical team to custom solutions, have enabled our company to increase productivity and efficiency, integrate data with other systems, improve facility maintenance communication, streamline our business processes, and to perform continuous process improvement benchmarking through KPI analysis.”

CARMEL WIETECHA
CMMS/FIELD SERVICES SPECIALIST, NATURAL SYSTEMS UTILITIES

“I have been using the software and services of Information Professionals since 1997. During that time they have provided a stream of continuous innovation in plant management. The preventive maintenance module helps to keep the central utility plant operating at peak efficiency with minimal equipment down time. Reports let us know what work needs to be done and how our workers spend their time. eWorkOrders has been a tremendous help to our organization and I highly recommend it.”

ROBERT WHITELEY
SANOFI

“eWorkOrders has been a great tool for us to begin to get a handle on our work orders - no special software is required, which our IT dept loves. Our customer communication has improved greatly. The ease of use has helped us with the transition from paper work orders to electronic. The reports help us to track our progress in many areas and we are better able to provide updates to management.”

ANDREA SMITH
ASST. DIRECTOR, PARK OPERATIONS, DETROIT ZOOLOGICAL SOCIETY

Featured Testimonials

“ISS 24/7 is always responsive to the needs of our building on a daily and ongoing basis. We use IMS, texting and CMMS programs to track the many activities that happen in our building which creates a history and accountability for our staff. These programs have helped us eliminate many activities that previously fell through the cracks in paper filing. ISS 24/7 is always looking to improve technology and how they could make my job easier. Great partnership.”

PATTY FLAHERTY
FORMER MANAGER, OPERATIONS & SPECIAL PROJECTS, FLORIDA PANTHERS

“ISS 24/7 is a great company and program for stadium operations. We currently use the Incident Management System, Text System, and the Maintenance System. These 3 modules have helped us in litigation issues, increased efficiency in stadium reports, and provided another avenue to communicate to our guests. They also have a great customer service team who is willing to help at any time. I would definitely recommend ISS 24/7 to venues who are looking to track all venue incidents and history. We continue to choose ISS 24/7 not only because of the great modules they provide but because of the service they provide their clients. They are willing to work with each request or problem a client has.”

JAIME PENA
GUEST SERVICES MANAGER, BBVA COMPASS STADIUM

“The team at 24/7 Software are so friendly and open to new ideas. They always take their users feedback to improve systems for everyone. They truly are a pleasure to work with. A company that can turn a problem into a ‘click, click BOOM’ solution is irreplaceable. Great work 24/7 Software!”

SARAH TARBETT
GUEST SERVICES MANAGER, JACKSONVILLE JAGUARS

“The Tigers are utilizing the CMMS, IMS, and Lost & Found at this time. 24/7 Software provides a way for us to track everything that goes on in the building, from work requests to major security incidents to a lost cell phone. The 24/7 Software system has helped to streamline our operation. Everyone in our operation is able to easily view and communicate requests via the system. The 24/7 Software system will help to get away from the piles and piles of paperwork. I would absolutely recommend 24/7 Software to any organization to help streamline their operation and keep them organized.”

ABOUT IDHAMMAR SYSTEMS

Idhammar Systems develops, delivers and supports market leading products that help customers achieve the ideal balance of productivity, efficiency and economy required for lean manufacturing and maintenance. Their products have been developed by drawing on a wealth of first-hand industry experience and an innate understanding of the crucial importance of budgetary transparency and stringent tracking. Their Maintenance Management System [MMS] and Overall Equipment Effectiveness [OEE] software has been implemented in blue-chip companies of varying size and scale, from food to pharmaceuticals and transport to power and energy.

Featured Testimonials

“We chose Idhammar MMS as it offered the complete package which could take care of all aspects of fleet and asset management, as well as being a powerful tool to manage resources and scheduling with the ability to produce business reports to track trends and enforce decision making.”

ESAD SKRIJELJ
TECHNICAL DIRECTOR, OHLSSONS AB

“Idhammar Systems’ support procedures ensure that improvement adjustments and upgrades made to Idhammar MMS are effectively integrated and reliably supported post implementation. Assuring users are entirely satisfied with the system means that it is utilised to the company’s best advantage.”

PER-OLOF HELLSTRÖM
SYSTEMS MANAGER, OVAKO STEEL

“We chose a dedicated CMMS because it is specifically designed to support the maintenance team and provides the functionality and analysis capability we need to improve plant maintenance.”

GRAEME MACFARLANE
CONTINUOUS IMPROVEMENT DIRECTOR, HALEWOOD INTERNATIONAL

“Using OEE as part of our Operational Excellence Programme is far more than a theoretical exercise. The intelligent functionality of the OEE system highlights losses, drives our improvement agenda and leads to improved effectiveness, a better working environment and savings to the bottom line. Our minimum improvement last year was 14% and our best was 47%, so the system paid for itself in a couple of months.”

ABOUT LIMBLE CMMS

Limble CMMS was created to become the first truly easy-to-use, modern, and mobile CMMS that can be started in minutes with a return on investment within a matter of weeks. Maintenance professionals across a variety of industries have a very real challenge: outdated, difficult-to-use, and expensive maintenance software.

Featured Testimonials

“I have tried and tested at least 5 different CMMS systems before trying Limble, and I must say I haven't come across something as intuitive yet powerful as Limble CMMS. There are [3] features that will make me recommend this to anyone: the robustness of the system, and ease of use, and the customer service.”

MOHAMMAD HASSAAN AKRAM
FACTORY & MAINTENANCE MANAGER, UNILEVER

“This CMMS checks many boxes for what we were looking for. Flexible. Mobile App for in the field use. Cost Effective. Reporting. Great Dashboard. Great Support. Cloud Based. Cost Effective.”

ROGER BECK
GLOBAL FACILITY MANAGER, INTERCONTINENTAL HOTELS GROUP (IHG)

“The thing that I loved the most right from the start was the ease of use of the Limble software. The customization options available when setting up PM's are great. I love the flexibility it gives to tailor the PM to exactly what your needs are.”

RICHARD DUNAWAY
MAINTENANCE MANAGER, NEWMAN GASKET

“Limble is very easy to get involved in and no contracts, with simple monthly billing. I have auditioned other CMMS companies and they make it too difficult to try out. Limble's strategy is very simple - here is our software, you can customize it in most categories and let us know if you have any questions. As a multiple building County Facilities Director, I highly recommend trying it!”

MICHAEL BOURSIER
MAINTENANCE DIRECTOR, COMAL COUNTY

Featured Testimonials

“MPulse improves our accountability because work orders are much easier to track. Also, since we work 24/7, I don't see everyone I work with. MPulse creates a pass-down of information, so people know what has happened and what needs to happen when they come on shift.”

JEFF KILLCOYNE
FACILITIES TECHNICIAN, FORTTRUST DATA CENTER

“The Work Order tool is tops!! It's going to solve most, if not all, of our reporting issues.”

IT MANAGER
TRW AUTOMOTIVE

“The features and price made MPulse the right choice and the service has been excellent.”

JOHN SMITH
MAINTENANCE SUPERVISOR, PENN STATE UNIVERSITY

“You can tailor the program to fit the needs of your particular facility. The performance of the software overall is very good.”

ABOUT MVP PLANT

MVP Plant is a computerized maintenance management system (CMMS software), also known as an enterprise asset management (EAM) system or a facilities asset management system (FAMS). Maintenance and facilities managers use the information in a CMMS / EAM / FAMS to increase reliability and save time and money. Customers are extremely satisfied with MVP Plant because it is more powerful and easier to use than any other program available today.

Featured Testimonials

“ MVP Plant CMMS software is great and user-friendly. It makes data transfer easy, provides insightful information, and saves our company a lot of time and money. ”

ANDREW STEP
MAINTENANCE MANAGER, CIBERIA INTERNATIONAL

“ [MVP Plant] is great for tracking KPIs, downtime, and parts. It's also great for scheduling, PMs, analyzing data, creating asset and parts lists, and attaching manuals, pictures, and so on. ”

KRASIMIR NIKOLOV
MAINTENANCE PLANNER, KERRY INGREDIENTS & FLAVOURS

“ We chose MVP Plant because it incorporates all of Maintenance's needs into one package. Preventive maintenance (PM) programs, employee history, operation costs, downtime/efficiency reports, parts inventories and much more can all be tracked with a single software program at a single facility or at the corporate/enterprise level. ”

NATHAN COTTRELL
ENGINEER, ALPHA BAKING COMPANY

“ The MVP Plant program has tremendously helped us organize and maintain our facility in a more efficient way. Thanks to MVP Plant, we are able to manage multiple units such as accounting, asset management, inventory, staff management, purchasing and work orders all at once. Moreover, the tech support staff is approachable and professional when assisting us. ”

ABOUT MAINTENANCE CARE

Maintenance Care isn't just a company, and their Computerized Maintenance Management Software (CMMS) isn't just a product; it's a part of your daily life. Their web-hosted facility maintenance software improves your maintenance ROI through work order management, preventative maintenance scheduling, asset tracking, capital planning, and more – all with an easy-to-use, mobile-friendly interface.

Featured Testimonials

“Having used various CMMS systems throughout my years of Facility Management, I have found MaintenanceCare to be packed with everything you need but still simple enough to be used in everyday life. Even my workers that are less “computer savvy” we are able to enter requests, close requests and make assignments. I've rolled out Maintenance Care to [this school] and they were impressed by the simple interface and ease of use.”

SHAYNE HALE
BUILDING CONSULTANT, SHAYNE HALE CONSULTING LLC

“Maintenance Care's CMMS is certainly one of the better ones out there. It shows me exactly what my team is up to and provides all of us accountability. Maybe my personal favourite feature is the automated alerts to vendors and my internal staff. It saves us a lot of time and money and we never forget to reorder supplies anymore.”

WALTER OBERMAN
DIRECTOR OF PLANT OPERATIONS, METHODIST HOME NURSING AND REHABILITATION

“This program allows all users to quickly alert me when something needs attention. I receive an email and able to record the action & give notes about why and if additional service is needed. I really don't have any cons about this program. The free version works well for my needs and all users are able to access this program.”

ADAM MEESEY
TECHNOLOGY COORDINATOR, HOLY INFANT SCHOOL

“Maintenance Care has been a great product for our business. It has simplified our preventative maintenance program and gives staff quick access to reporting maintenance concerns. We also use their asset tool and this has allowed us to track all our assets in one easy to use system. We would recommend Maintenance Care to anyone.”

ABOUT Q WARE

Q Ware cloud-based facility management software makes maintenance simple for small to medium-sized organizations that currently use paper-only or inefficient legacy systems to manage their maintenance needs. Capture and streamline your maintenance operations, workflow, and knowledge base with software that is actually easy to use. They are "Maintenance Software Made Simple." What makes Q Ware great is its ease of use, outstanding setup and support, and its no cost customization that can adapt to the needs of different maintenance departments. There are various other computerized maintenance management systems available that many facility managers, I.T. managers, and business managers find too complicated or too costly for their organizations. Q Ware was developed specifically for organizations that need to upgrade from paper, excel, or in-house systems and need easy ...

Featured Testimonials

“One of my first initiatives as the new Director of Facilities was to implement a computerized maintenance system. My staff and I found Q Ware to be an easy to understand and user-friendly system that is affordable. It helps us do our jobs better.”

MICHAEL D DOMBROWSKI
DIRECTOR OF FACILITIES, TLC HEALTH NETWORK

“Q Ware is much easier to use than our previous CMMS. Any staff member who has an email can login to Q Ware and request a work order.”

JEFF ROSS
DIRECTOR OF FACILITIES, EPISCOPAL SENIORLIFE COMMUNITIES

“Q Ware is extremely user friendly. It's easy to use and train new users. The Q Ware staff is great to work with, and they really listen to their customer's needs and comments. I would highly recommend this product to anyone.”

DENISE WISELY
OFFICE MANAGER, LIVERPOOL CENTRAL SCHOOL DISTRICT

“I have worked with another work order processing tool; Q Ware is far superior. That comes from Q Ware's commitment to its customers; they are willing to listen to their customers for product enhancements. I have been totally pleased with Q Ware as a partner in our service to our students and community.”

ABOUT SSG INSIGHT

SSG Insight is a leading global software and services company, SSG Insight provides technology and expertise to empower 'smart action' in organizations - enabling better business decision-making. From raising purchase and work orders to managing and tracking your team, they provide the tools to empower smart action across a range of industries. Their vision is to be recognized as a global leader in smart workplace management solutions, to deliver maximum value to their clients and enable strategic insight.

Featured Testimonials

“With Agility we’ve been able to capture key information which has forced us to review our maintenance management best practise across our sites. We’ve also been able to identify some inconsistencies in how we manage our maintenance and rectify these. Agility has given us great control of our helpdesk requests and subsequent work and also enabled us to ensure our compliance across all sites.”

STEPHEN BENHAM
OPERATIONS MANAGER, CIRCLE HEALTHCARE

“Agility is easy to set up and use straight out of the box with limited training required. The standard range of functionality and mobile enabled app makes it a must in any fast moving maintenance environment.”

VITAFOAM

“Agility’s allowed us much more flexibility, reduced our paperwork and made allocating jobs to our engineers much more efficient. Being able to track the history of assets accurately is crucial to our business and the safety of the team on site.”

PAUL RAYMOND
ASSET COORDINATOR, BAE SYSTEMS

“The system’s made our work a lot easier. The fact that staff can log issues through the intranet and that gets fed into the programme alongside our existing schedules helps to make sure that jobs don’t get missed off or wrongly prioritised.”

ABOUT VALUEKEEP

Valuekeep is a CMMS software provider that will help you manage and organize your company's assets efficiently. They count with a team of highly skilled professionals that have a large experience in developing CMMS solutions over the years. They are truly passionate about maintenance, and they work hard every day to ensure that you have access to the best-in-class CMMS software that fits yours and your company's needs and expectations.

Featured Testimonials

"I recommend Valuekeep's software to any company that needs a flexible and highly configurable maintenance management solution to control their assets and spare parts in the warehouse, schedule work orders and to access the full maintenance history."

ERNESTO ROMAN
MAINTENANCE MANAGER, CAFOSA

"We needed real-time information on maintenance costs, and in this area, Valuekeep is a huge help because it allows you to quickly know which occurrences are associated with each equipment and its maintenance and profitability costs. With this data, we have made solid decisions on the investment or removal of equipment, in line with the strategy of the group."

ANTÓNIO FELIZ
CHAIRMAN OF THE BOARD OF DIRECTOR, O FELIZ

"With Valuekeep, the information is centralized in a single platform where all the requests for new interventions are made and managed. This simplifies the access to data and analysis, the monitoring of interventions and the effective control of the company's global activity."

PAULO GODINHO
ADMINISTRATOR, TERMOGOD

"Valuekeep allows us to manage our restaurants and warehouses in a very easy and simple way. Our suppliers are automatically notified by e-mail when an incident is registered and when they must perform preventive maintenance work. In addition, our team received Valuekeep CMMS very well due to its efficiency in creating incidents that appear in the restaurants. All of this speeds up the communication between restaurants and the maintenance department."
