

Aviation Management Software Category

WINTER 2022
Customer Success Report

Aviation Management Software Category

Aviation management software offers operational support to airports, airlines, and FBOs (fixed-base operators) like cafes, taxi services, and other airport service providers. In addition, the platform helps to manage airline fleets. This means it facilitates sales/service automation, airport workforce and front desk management, and maintenance handling. Apart from all-in-one systems, some vendors also provide single-element tools such as ticket sales, fleet management, etc.

Aviation software is utilized by maintenance shops, charter operators, flight schools, and FBOs of all sizes. Typically, this platform comes with a comprehensive suite of functions that allow you to manage everything from scheduling to compliance, and billing to accounting. The systems have a user-friendly and intuitive interface that can be easily mastered even by lay users. Plus, the vendors provide adequate support to help you deploy the application seamlessly into your operations with minimal disruption to your work and schedules.

Customer Success Report

Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ✓ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ✓ Customer reference rating score
- ✓ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ✓ Total # of profile views on FeaturedCustomers platform
- ✓ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ✓ Social media followers including LinkedIn, Twitter, & Facebook
- ✓ Vendor momentum based on web traffic and search trends
- ✓ Organic SEO key term rankings
- ✓ Company presence including # of press mentions

COMPANY SCORE

- ✓ Total # of employees (based on social media and public resources)
- ✓ Year-over-year change in # of employees over past 12 months
- ✓ Glassdoor ranking
- ✓ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

FEATURED TESTIMONIALS

“I've gone from having to review logbooks for 27 airplanes every morning to looking at one electronic dashboard. With the dashboard, I can check the status of the fleet in a matter of minutes, and with the red-yellow-green alert system, see exactly where we are. Having our entire fleet on [ATP] allows us to manage our fleet with efficiency.”

VAN WINKLE
DIRECTOR OF MAINTENANCE, WING AVIATION

“For management purposes, we really like the Maintenance Tracking Dashboard, which allows users to check the status of fleet or maintenance items and easy access to due list status indicators. I really like the daily updates feature as well that provides a quick review of all maintenance information that has been submitted.”

GREG HAMELINK
SR. MANAGER FLIGHT OPS & MAINTENANCE, STRYKER

“We use [ATP] to make sure maintenance tracking is up-to-date. With our extensive fleet and multiple bases of operation, it's possible to miss an inspection item. With electronic tracking, we have simplified the process while providing to-the-minute accuracy and compliance.”

ALAIN VALLEJO
MAINTENANCE MANAGER, REVA AIR AMBULANCE

“[ATP] has provided us with a modern, easy-to-use platform for maintenance and inventory management. It's done very well for us thus far and we continue to find new ways to drive efficiency and ensure safety of our aircraft.”

JACOB SMITH
DIRECTOR OF MAINTENANCE, PATHFINDER AVIATION

ABOUT COMPONENT CONTROL

Component Control, the leading developer and provider of MRO and Logistics Software for the aviation industry, is based in San Diego, California. Its core product, Quantum Control, is a fully integrated business software solution. Quantum is designed to promote comprehensive and safe adherence to the complex FAA certification rules of compliance. It steers 'best practice' procedures to ensure both the maintenance of rigorous quality guidelines, and enables aviation repair and manufacturing businesses to optimize operational performance.

26

FEATURED TESTIMONIALS

“One of our key business goals is to be the most customer-engaged MRO in the industry, and Quantum is ensuring that we stay close to our customers, while rapidly increasing the amount of orders we process. We use Quantum for both work orders and sales orders and across all of our product lines, from general aviation metal propellers all the way up to the modern composite systems we repair.”

DENNIS A. SANTARE
VICE PRESIDENT OF SALES AND MARKETING, AIRCRAFT
PROPELLER SERVICE

“With Quantum, EPCOR has operations focused software optimized specifically for running a LEAN aviation MRO environment. The ongoing successful use of Quantum at EPCOR has resulted in parent company AFI KLM E&M leveraging Quantum to automate surplus part sales and streamline corresponding background logistics.”

JOOST BOSMAN
QUANTUM PROGRAM MANAGER, EPCOR

“Quantum-ERP supports our ability to automate the tracking of our customers' hardware usage from order requisition to order fulfillment and provide meaningful analytic data which has greatly increased our value proposition. We are not seen as simply a hardware distributor but as a value added service provider. That's the partnership we want with our customers.”

KRISTA WILDERMUTH
DIRECTOR OF OPERATIONS, AIRCRAFT HARDWARE WEST

“The use of Quantum and its Cessna/Citation module has created efficiencies in both our work and communication processes to optimize our operations and minimize errors across departments, saving us overhead and allowing us to focus on our customer service.”

JERRY BEECKMAN
MAINTENANCE MANAGER, FLYINGGROUP

“We chose SITA because we wanted a single supplier who could provide a complete passenger processing platform and baggage reconciliation system; a supplier that could support both systems, and also help us implement the new CUSS platform with both Bag Tag and Boarding Pass options. SITA has a proven track record in delivering innovative solutions to airports globally as well as in India by virtue of their strong relationships with the airlines. And that makes them a trusted partner of choice for us.”

HARI MARAR
PRESIDENT, AIRPORT OPERATIONS, KEMPEGOWDA
INTERNATIONAL AIRPORT BENGALURU

“SITA is providing us with a unique solution, combining local and cloud-based services with the most up-to-date technology. Air Malta is undergoing a major restructuring process and this overhaul of our IT infrastructure is designed to deliver a minimum of 30 percent cost savings and a return on our investment in just two years.”

PETER DAVIES
CHIEF EXECUTIVE OFFICER, AIR MALTA

“We expect passenger volumes to grow rapidly, and with SITA we can easily expand our capacity. And perhaps most importantly for us as a new airport, with SITA's cloud solution there is minimal up-front investment and our costs are directly related to our passenger volumes.”

PHIL GREGORY
GENERAL MANAGER, BRISBANE WEST WELLCAMP
AIRPORT

“SITA has been an exceptional business partner. Their commitment to resolving airport management challenges and ensuring maximum availability of technology has been great. For common-use self-service (CUSS) kiosks, I would recommend SITA.”

“With AMOS we found the perfect solution to cover our needs as an OEM. From the quotation to the contract, the construction to the bill, the whole process can be clearly followed. Also all our maintenance, development and material management processes can be included. Furthermore we have with Swiss-AS a partner at our side who is able and willing to adapt some features to cover the special needs of a manufacturer.”

UMS SKELDAR

“With the AMOS system, the maintenance, engineering as well as logistics functions at the MRO can be integrated seamlessly with the maintenance management. We can also comply with the rigorous requirements that govern aviation maintenance regulations at the parent company EVA Airways, along with our other airline customers. We are looking forward to experience the operational effectiveness and efficiencies delivered by AMOS.”

EVERGREEN AVIATION TECHNOLOGIES CORP.

“Avianca aims to [provide] operational excellence as a differentiating element of its competitive strategy by optimizing processes and using the best technology available. AMOS is a tool that has streamlined the use of resources and time in the maintenance execution of the entire fleet of Avianca Holding.”

AVIANCA

“AMOS is a strategic tool for our company. It's a great improvement that will allow us to be more efficient in our maintenance management. We will be able to achieve important savings as a result of a better performance in the area.”

FEATURED TESTIMONIALS

“I would definitely recommend TRAXXALL to fellow aircraft operators. Our fleet is relatively small, but our missions are very diverse. About 75% of flights are domestic. But in other cases, we are going as far as South America and Europe. We constantly need to be efficient. Our clients are high-net-worth individuals and C-level management. They have high expectations! Because TRAXXALL helps us keep our fleet operating at an optimal level, contributes to our ability to offer exceptional service to our...”

E. JULIAN MURRAY
CHIEF INSPECTOR, EXECUTIVE FLITEWAYS

“I would certainly recommend TRAXXALL to other flight departments. And, I believe that the benefits would scale nicely with a larger fleet. If I had to choose just one reason, it would have to be better time management. TRAXXALL is well-designed and well-supported. Among other things, it makes aircraft maintenance easier and that increases our department's efficiency and enables me to show our value to our senior management. As I like to say, my job is to keep the people in the...”

JEFF MICHLOWITZ
DIRECTOR OF AVIATION, COOPER/T. SMITH

“TRAXXALL has been extremely beneficial for us. It really simplifies our day-to-day maintenance tracking. For example, now, it's easy for flight crews to document their feedback and report any issues in an efficient manner. Also, we are now easily able to track our costs on an hourly through annual basis – previously, that was not the case. TRAXXALL makes our operations considerably simpler and safer. I'd like to see all our chapters nationwide...”

JASON “MAC” MCNEIL
MAINTENANCE OFFICER, COMMEMORATIVE AIR FORCE

“I would definitely recommend TRAXXALL to other fleet operators because it's much more than a maintenance tracking tool. It benefits everyone because it allows us to communicate across the entire company. It has become our repository for all safety matters – events, issues, actions and tracking are all centralized for easy access.”
