ABOUT BLUEBOARD

Blueboard is the employee rewards and recognition platform for the modern workplace. Blueboard enables companies to reward top employees with memorable, personal and shareable experiences. Experiences as rewards not only provide a more meaningful avenue for employee recognition, but also create a lasting impact on your top engagement metrics (like increased employee motivation and retention rates, and providing a more positive company culture).

Featured Testimonials

“Our team members value having a choice of experiences that reflect their varied interests and passions. Our Blueboard partnership elevates two of our core company values – generosity and openness – year after year. Some organizations have eliminated recognition for service anniversaries – we’re investing in it for the future. Blueboard enables us to deliver meaningful recognition at scale.”

VINA LEITE
CHIEF PEOPLE OFFICER, THE TRADE DESK

There are no markups, unclaimed rewards are credited back in full, and it's free to get started.

PAUL TAYLOR
VICE PRESIDENT, PEOPLE & CULTURE, PURDY'S CHOCOLATIER

“My team likes that they are given a gift card and they can choose the merchant they want to use it at. Instead of buying items that they'll maybe use twice and will sit on their desk and look pretty, now they can have a tangible thing they can actually use like drink coffee, go to the grocery store, go shopping. I've also saved over 50% in administrative time!”

ABOUT MOTIVOSITY

Motivosity is a modern employee engagement software with the mission to make people happier at work. Our products are designed to attack the top three drivers for employee motivation and engagement: being recognized and appreciated for what you do, feeling connected to your manager, and having a strong sense of community. With an average 95% user engagement rate, our software drives amazing results by making visible all the great work your team members are doing. This platform allows recognition between peers and managers, builds a sense of connection and community, facilitates consistent communication between managers and employees, and provides actionable insights for company leadership. #thanksmatters

Featured Testimonials

“Simple thank you sometimes is not enough, and via Motivosity, you can share the best experience with coworkers cross-company. Never experienced any similar platform, but this one promotes coworking and teambuilding. International company team building can be a challenge. With Motivosity, you can support personal relationships, which builds teams. Managers additionally can see who is communicating with each other and build around it to add value for a company.”

RAFAL G.
PRIANTO

“Motivosity makes our company fun! The flexibility and ease of use are so much fun! We love shouting each other out, giving out awards, and sharing highlights! Being able to add custom swag options to the store is also super cool! Seriously, Motivosity is a great motivator and helps our team stay connected. As we grow, more and more people are working remotely. The news feed gives them an idea of what's going on at HQ. Motivosity helps us maintain a culture of feedback and appreciation. The dollars are "use it or lose it" so we constantly encourage people to log on and share some praise, whether for something complex, like help on a significant project, or something small, like taking out the trash... public recognition helps us stay positive.”

LAURA G.
PEEPERS BY PEEPERSPEC

“I like having a quick and simple way to tell the people I work with that I appreciate the things they do on my behalf. It is meaningful to them, whether because they too appreciate using it to thank people (and can therefore reuse the buck I send them to thank someone else) or because they can get a gift card with it. It is a tangible way to tell people I don't see that often that I appreciate what they do to help me and my team get our jobs done. It makes them more likely to be similarly helpful in the future now that they know I appreciate their efforts. It did good things for our team to start up an effort to manipulate the leaderboard by cycling our bucks amongst ourselves. While it all started as a game to play with the scores, each message sent in the effort came with an appreciation that might have otherwise gone unexpressed and unheard. It built cohesion on the team with valuable feedback we might not have otherwise had. While I don't tend to cash out on my Motivosity bucks anymore, I remember the options for the gift cards available being very good with plenty of reasonable things to choose from.”

JAMES E.
WAVETRONIX

“Uninterrupted appreciation is key! The most helpful thing about Motivosity is that it reminds you to keep the goodness of others top of mind. The upside to Motivosity is that it provides a simple, straightforward, and relatable platform for engaging others in a positive way.”

Clients include American Express, Unilever, Samsung, IBM and McDonald's.

Featured Testimonials

“I love throwing myself into the recognition data and content analytics every month. You can actually see positive work relationships develop through the platform. It also gives us a way to track collaboration and encourage a stronger social environment, even when people aren't in the office. We're now seeing more of that than we ever have before.”

MADDIE ROBERTS
REWARD AND RECOGNITION LEAD, CHECKATRADE

“Along with the sheer ease of use and variety of engaging rewards on offer through the platform, what really impressed me about Reward Gateway was that it had the potential to become a central hub for all our employee communications. Once we'd seen the full scope of what it could do, it actually fulfilled a lot more of our needs than we initially anticipated.”

KELLI COPPING
ENGAGEMENT & COMMUNICATIONS OFFICER, KETTLE FOODS

“The choice to go with Reward Gateway was a really easy one to make in the end. We'd spoken to four or five different discounts providers before whittling them down to a shortlist of three, though once we'd seen the demo of how the RG platform worked we knew right away it would be the best fit for our organization, internal culture and vision for greater engagement.”

LISA TITE
PAYROLL & HR SYSTEMS SPECIALIST, AMTICO

“Supporting our staff and meeting them where they are is very important to us. As we continue to navigate COVID-19, employee recognition is a key driver of our culture and is increasing visibility of the hard work being done. Recently, we've seen 89% of our managers sending recognition and 55% of our staff receiving recognition, which is helping us form better connections with our people and our elders now and well into the future.”

“At Dealogic, we recognize employees want to feel relevant that they are valued for their contributions and for who they are. That's why 'recognition' is at the center of our employee engagement strategy, and we've been very pleased with the results.”

CAROLYN CRESSWELL
GLOBAL HEAD OF TALENT MANAGEMENT, DEALOGIC

“Recognize has completely changed the way we showcase the hard work of our employees and reward them. Before we implemented the tool, we would use email to share great comments from clients or acknowledge when someone went above and beyond. Now, we have a strategic plan in place to track all the recognitions, showcase our company culture, and reward our employees. We've sent out surveys to get feedback on Recognize and have received wonderful comments from remote and satellite office employees feeling more connected and overall the entire team feels more inspired. It's a great way to show appreciation to your colleague for day to day accomplishments and it definitely boosts office moral.”

MATTHEW CLYDE
PRESIDENT AND CO-FOUNDER, IDEAS COLLIDE

“This is definitely a really simple solution to implement and carries so much momentum if followed through by everyone (including Executives!).”

BRUCH RIOCH
CHIEF DATA OFFICER, METRO BANK

“Recognize helps contribute to our culture and engagement throughout our regions. It is also fun for our employees!”

We obviously can't do this without engaged and motivated staff. These factors are all reflected in our key metrics.”

“We know the drive to create internal community is starting to pay off. To be able to showcase the individual expertise of our staff and what they are doing provides colleagues a look at what they could be doing and an opportunity to reach out to one another. It's one thing if your supervisor recognizes you. It's even better when that's coming from your peers without being prompted and being shared. Until we did this, I don't think we understood the value of the emotional commitment we weren't tapping into before.”
