Customer Success Report

Dental Practice Management Software Category

Dental Practice Management Software is designed to streamline the administrative and clinical operations of dental practices. Features of dental management software include appointment scheduling, patient records management, billing, and other essential tasks within a dental office.

Adopting Dental Practice Management Software can improve operational efficiency by automating administrative tasks, such as appointment reminders and billing processes. It enhances patient care by providing a centralized system for managing and accessing patient records, treatment plans, and medical histories. Additionally, this software can facilitate compliance with healthcare regulations and standards.

Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ✓ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ✓ Customer reference rating score
- ✓ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ✓ Total # of profile views on FeaturedCustomers platform
- ✓ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ✓ Social media followers including LinkedIn, Twitter, & Facebook
- ✓ Vendor momentum based on web traffic and search trends
- ✓ Organic SEO key term rankings
- ✓ Company presence including # of press mentions

COMPANY SCORE

- ✓ Total # of employees (based on social media and public resources)
- ✓ Year-over-year change in # of employees over past 12 months
- ✓ Glassdoor ranking
- ✓ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

We needed a platform that would allow us to view the providers and all our six locations easily without going back in. CareStack is the best one out there so far. Also, having the claim at your fingertips and being able to enter collections and everything with the insurance is much better. There is a large learning part, but once you start getting through that, the day-to-day is much easier.

ALABAMA FAMILY DENTISTRY

CareStack has been a great addition to my practice, and I like the clinical aspect of the software. It's very concise, and everything seems to be in one location. It helps you assimilate information quickly and can present a nice overview to the patient. The clinical note templates are amazing as you can make them very detailed - as detailed as you want them to be.

RIVER CITY FAMILY DENTISTRY

I'm very happy with the product. The sales, transition/roll out and support team members have been great. CareStack's cloud-based practice management software was very easy to pick up. It integrates well with cloud-based X-ray storage software, electronic prescriptions, and billing.

Denticon has also made onboarding easier when we get a new employee or provider. Initially, this process was a lot more manual work, whereas now Denticon copies documents and processes and replicates them with new employees. It's a pretty magical feature because I used to have to do all of this by hand. I can also use it in onboarding providers based on copies of what we've previously used for providers.

MARTHA MCCARTY
PRACTICE'S BUSINESS AND HR MANAGER, ROANOKE, VIRGINIA AREA, CROSS, LAVINDER, QUINN & PARK FAMILY DENTISTRY

As a growing dental practice with multiple locations, a centralized system has been a huge time-saver for us. We see the difference, especially when it comes to resolving IT issues. Denticon can help us easily manage our operations across all 14 of our offices, which has allowed us to focus more on what really matters—providing our patients with the best possible care.

JAMES WILLIS

We purchased Dentimax software and sensors about a month ago. It is truly the most user friendly program. The sensors are the best. We did get samples from other companies and Dentimax sensors can't be compared to other companies. Dentimax sensors are much smaller and thinner and are very durable and easy to use. The patient's don't complain that the sensors are bulky and hurting their mouth. The customer service at Dentimax has always been helpful and always returns our phone calls. Judi and Mark especially have helped us a lot and do treat you like a friend instead of a customer. Judi has made it a very easy transition for us to make this a smooth journey.
