WINTER 2024
Customer Success Report

Supply Chain Management Software Category

Supply chain management software is built to control complete business workflows across the supply chain, execute demand forecasting and planning, and handle supplier relationships. Common features of this solution include purchase order fulfillment, supplier sourcing, inventory management, shipping, and execution-focused programs (e.g., transportation and warehouse management).

Leading supply chain management platforms include forecasting, which assists organizations to manage the variations in supply and demand by utilizing consumption analysis and advanced algorithms to analyze purchaser histories. Supply chain improvement solutions can thus help to boost production efficiency and plan for the future.

Customer Success Report

Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ✓ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ✓ Customer reference rating score
- ✓ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ✓ Total # of profile views on FeaturedCustomers platform
- ✓ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ✓ Social media followers including LinkedIn, Twitter, & Facebook
- ✓ Vendor momentum based on web traffic and search trends
- ✓ Organic SEO key term rankings
- ✓ Company presence including # of press mentions

COMPANY SCORE

- ✓ Total # of employees (based on social media and public resources)
- ✓ Year-over-year change in # of employees over past 12 months
- ✓ Glassdoor ranking
- ✓ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

“We chose [TradeBeyond] based on their broad experience and reputation for successfully implementing and managing complex end-to-end global sourcing and supply chain projects for a number of leading European and American retailers.”

RENAAT SOL
PROJECT LEADER, STEINHOFF

“In addition to improving our productivity, the global sourcing system helps us to identify trends, make better decisions, accelerate our time-to-market, reduce landed costs and makes life easier for our retail buyers.”

CHRISTIAN JAKOBSSON
MANAGING DIRECTOR, INTERCOOP

“Our collaboration with [TradeBeyond] has helped us reduce time-to-market and drive costs out of our supply chains, thereby helping us to deliver on-trend fashionable products at a great price to our customers.”

ABOUT ANVYL

ANVYL

Anvyl is a production hub where brands can manage suppliers, oversee production, and track in-depth product data from procurement to delivery of inbound goods. End-to-end, Anvyl helps brands supply their customers with what they want, when they want it, improving their bottom line at the same time. They are a global operation with teams in New York and China. Their factory suppliers are responsive, easy to manage, and vetted to lower risk, save time, and get more.

FEATURED TESTIMONIALS

“One of the reasons that we selected Anvyl is that we were looking to add more accountability to our supply chain partners to own and manage the purchase orders. Anvyl is great because after placing the PO, our supply chain partners are able to easily update all of the milestones, ensuring that everything 100% lines up for our 3PL team.”

ALAN SCHROEDER
PURCHASING AND SUPPLY CHAIN MANAGER, SIMMS FISHING

“Anvyl has assembled a team of global supply chain experts that can serve as an extension to a company's operations team. They have developed the first software I've used that's suited to provide a single source of truth for each stage of a brand's production process. Anvyl is built for the scalability, efficiency, and transparency required by brands today.”

MATT GORNSTEIN
DIRECTOR OF GLOBAL SOURCING, HARRY'S

“The Anvyl Production Hub has truly impacted our bottom line and allowed us to focus on the growth of our business, not the complexity of our supply chain. The transparency it brought to scaling our supply chain and managing our suppliers from Japan to the world allowed us to save time and money, allowing us to focus on new growth initiatives.”

DANNY TAING
FOUNDER & CEO, BOKKSU

“Anvyl has proven indispensable in fostering collaboration across our supply chain, merchandising, and marketing teams, elevating our demand forecasting capabilities and propelling us closer to achieving optimal inventory levels across all our brands.”

FEATURED TESTIMONIALS

“Implementing River Logic’s solution enables us to extend the number of variables that could impact decisions, such as sourcing options, capacities and capabilities, inter-trading-zone product duties, interplant product transfer prices, and distribution costs. We reduced spreadsheet simulations by 90% and decreased the time required for scenario evaluation from weeks to hours.”

ALEXANDROS SKANDALAKIS
DIRECTOR MANUFACTURING CAPACITY AND
FOOTPRINT, PHILIP MORRIS INTERNATIONAL (PMI)

“Our team has enjoyed working with every single member of the River Logic team on our supply chain network optimization and S&OP project. Everyone on the team was approachable, technically strong, collaborative, customer-focused, and responsive. Even through the challenges of COVID-19, the team really delivered on helping us realize and present tangible value and actionable insights to our leadership team.”

TERESE HUNWICK
VP SUPPLY CHAIN, BORAL

“We continually use River Logic for visibility and optimization of our network and we see great value from this. The scenario modelling is user-friendly, reliable and fast. The River Logic team are responsive and flexible to our needs. As we go forward we are looking to gain further value from the tool, particularly in the area of continuing to look beyond current network capabilities and capacities.”

EUROPEAN SUPPLY CHAIN TEAM
UNILEVER

“The addition of River Logic to our marketplace lets a line of business executives such as those in supply chain, finance and marketing take advantage of predictive and prescriptive analytics to better align business strategies and operational functions.”
