

# Aviation Management Software Category

WINTER 2025  
Customer Success Report

## Aviation Management Software Category

Aviation management software offers operational support to airports, airlines, and FBOs (fixed-base operators) like cafes, taxi services, and other airport service providers. In addition, the platform helps to manage airline fleets. This means it facilitates sales/service automation, airport workforce and front desk management, and maintenance handling. Apart from all-in-one systems, some vendors also provide single-element tools such as ticket sales, fleet management, etc.

Aviation software is utilized by maintenance shops, charter operators, flight schools, and FBOs of all sizes. Typically, this platform comes with a comprehensive suite of functions that allow you to manage everything from scheduling to compliance, and billing to accounting. The systems have a user-friendly and intuitive interface that can be easily mastered even by lay users. Plus, the vendors provide adequate support to help you deploy the application seamlessly into your operations with minimal disruption to your work and schedules.

# Customer Success Report

## Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

**The overall Customer Success ranking is a weighted average based on 3 parts:**

### CONTENT SCORE

- ✓ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ✓ Customer reference rating score
- ✓ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ✓ Total # of profile views on FeaturedCustomers platform
- ✓ Total # of customer reference views on FeaturedCustomers platform

### MARKET PRESENCE SCORE

- ✓ Social media followers including LinkedIn, Twitter, & Facebook
- ✓ Vendor momentum based on web traffic and search trends
- ✓ Organic SEO key term rankings
- ✓ Company presence including # of press mentions

### COMPANY SCORE

- ✓ Total # of employees (based on social media and public resources)
- ✓ Year-over-year change in # of employees over past 12 months
- ✓ Glassdoor ranking
- ✓ Venture capital raised

## Award Levels

### MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

### TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

### RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

## FEATURED TESTIMONIALS

“The system works well in helping us manage a small fleet of aircraft in multiple locations. The ability to review current information on demand for any aircraft is invaluable. The software is highly intuitive and easy to use. On a workload basis, the time savings are readily apparent. Also, I am pleased and impressed with the amount of controls engineered into the...”

JOHN T. EICHEL

DIRECTOR OF MAINTENANCE, WEST MICHIGAN AIR CARE

“The new Aircraft Maintenance Manager release v21.0 is the best and most solid product we have seen from AMS to date! The new interface is clean and more easy to use. The new features that let us track malfunction codes and maintenance actions taken are exactly what we need to find our most troublesome parts. Under the hood, the MySQL engine update has greatly improved our ability to maintain our database. Even the installation process is...”

BLAISE BURGMAN

PRESIDENT, PANOSTAT, LLC.

“We tried the program with the new updates. They are very good. They added details that make the program even more efficient. Sgt Lebeau and I are very happy with this upgrade. Once again, a very good purchase that continuously self-improves.”

MAJOR MARIO DESLANDRES

AIRCRAFT MAINTENANCE ENGINEERING CHIEF,  
REGIONAL CADET SUPPORT UNIT

“We operate 160 aircraft over multiple bases of operations. AMS has allowed us to have complete maintenance and logistics information at all these locations just by turning on a laptop.”

DOUG LADOUCEUR

DIRECTOR OF TECHNICAL AIRWORTHINESS AND  
QUALITY ASSURANCE, DISCOVERY AIR

## ABOUT COMPONENT CONTROL

Component Control, the leading developer and provider of MRO and Logistics Software for the aviation industry, is based in San Diego, California. Its core product, Quantum Control, is a fully integrated business software solution. Quantum is designed to promote comprehensive and safe adherence to the complex FAA certification rules of compliance. It steers 'best practice' procedures to ensure both the maintenance of rigorous quality guidelines, and enables aviation repair and manufacturing businesses to optimize operational performance.

## FEATURED TESTIMONIALS

“One of our key business goals is to be the most customer-engaged MRO in the industry, and Quantum is ensuring that we stay close to our customers, while rapidly increasing the amount of orders we process. We use Quantum for both work orders and sales orders and across all of our product lines, from general aviation metal propellers all the way up to the modern composite systems we repair.”

DENNIS A. SANTARE  
VICE PRESIDENT OF SALES AND MARKETING, AIRCRAFT  
PROPELLER SERVICE

“The use of Quantum and its Cessna/Citation module has created efficiencies in both our work and communication processes to optimize our operations and minimize errors across departments, saving us overhead and allowing us to focus on our customer service.”

JERRY BEECKMAN  
MAINTENANCE MANAGER, FLYINGGROUP

“Quantum is an integral part of our life at AJW Technique. From time reporting to financial performance, many decisions are taken with information derived via Quantum.”

BENOIT LAVALLEE  
AVIONIC PRODUCTION AND IT MANAGER, AJW  
TECHNIQUE

“Choosing Quantum software in 2001 to be the platform for administering our customer service programs was a great investment for our company. This is as verified by our status as a world-class customer service provider.”

PIOTR “PETE” WOLAK  
VP CUSTOMER SERVICE, PILATUS BUSINESS AIRCRAFT

## ABOUT TRAXXALL

Traxxall is an innovative provider of aviation intelligence from essential maintenance tracking to sophisticated data analytics. They empower aircraft operators to build better businesses by providing aviation industry expertise, advanced technology solutions and data-driven actionable intelligence. Headquartered in Montreal, Canada, Traxxall has offices in Jacksonville, FL; Denver, CO; Clark, Philippines; and sales offices in the UK, Spain, South Africa and Brazil.

43

TOTAL CUSTOMER REFERENCES

[VIEW ALL REFERENCES](#)

## FEATURED TESTIMONIALS

“I would absolutely recommend TRAXXALL to other aircraft owners. Our experience has been very good. The customer support is great and the software is updated regularly – it's not a static product. As owner/operators of a single aircraft, I could see how some might be tempted to manage maintenance on their own. But I wouldn't recommend it. We have a high confidence level in the accuracy of the TRAXXALL maintenance analysis. In turn, that gives us confidence in the operational status of our aircraft. The families we serve are counting on us.”

MARK PESTAL  
FOUNDER AND PRESIDENT, AEROANGEL

“TRAXXALL has been extremely beneficial for us. It really simplifies our day-to-day maintenance tracking. For example, now, it's easy for flight crews to document their feedback and report any issues in an efficient manner. Also, we are now easily able to track our costs on an hourly through annual basis – previously, that was not the case. TRAXXALL makes our operations considerably simpler and safer. I'd like to see all our chapters nationwide using it.”

JASON “MAC” MCNEIL  
MAINTENANCE OFFICER, COMMEMORATIVE AIR FORCE

“TRAXXALL is much more user-friendly and adds more value than CAMP. It was easy to implement, it's easy-to-use and it's well-supported. Having our entire fleet under one maintenance tracking system creates significant efficiency gains, particularly considering its size and diversity.”

JORGE CAMPILLO  
PRESIDENT, CHIEF PILOT AND FOUNDER, SEARCHA VUELOS CHARTER

“TRAXXALL protects the resale value of assets by generating detailed reports which prove that an aircraft has been maintained in accordance with best practices. Our decision to work with TRAXXALL was guided by the fact that we share the same commitment to service excellence.”

JAMIE WALKER  
PRESIDENT AND CHIEF EXECUTIVE OFFICER, JET LINX

## ABOUT VERYON

Veryon is how everyone from business aviation and MROs to airlines and OEMs can finally get their aircraft more uptime. Challenges like unscheduled repairs, part availability, and excessive paperwork lead to too many aircraft spending too much time on the ground. The key to more uptime is having a better technology platform to manage everything from maintenance and operations to manuals and diagnostics.

## FEATURED TESTIMONIALS

“Through Veryon Maintenance Tracking, we’ve established a highly accurate record of our daily activities like labor hours and cost per flight hour, and cost of scheduled and unscheduled maintenance per aircraft. It’s a digital organization that helps us understand what we do on a daily, monthly, and annual basis.”

PATRICIA MCPHEE  
MAINTENANCE ADMINISTRATOR / COORDINATOR, REVA  
AIR AMBULANCE

“Our FAA inspectors join us for CASS meetings. We download the report directly from the maintenance tracking program, which comes in the form of an Excel spreadsheet. I can show all kinds of information out of the data that comes out of Veryon Tracking to the FAA to demonstrate compliance.”

ROBERT EVERETT  
CHIEF INSPECTOR & DIRECTOR OF QUALITY, EASTERN  
AIR EXPRESS

“It lets me focus on what matters most, take action immediately and save time and money. The system also has a great calendar that I can draw down to see what parts and systems are due for maintenance or replacement in the next 90 days. From there, I can order whatever is needed in advance so we’re prepared.”

ADSETT  
DIRECTOR OF MAINTENANCE, EASTERN AIR EXPRESS

“We operate under a low utilization maintenance program (LUMP) that we want to continue to use. We knew we needed a maintenance program that could adapt to meet FAA-approved workflows to achieve Part 121 certifications.”

SCOTT BOHENKAMP  
EVP & GM, EASTERN AIR EXPRESS
