Disaster Recovery Software Category

WINTER 2026
Customer Success Report

Disaster Recovery Software Category

Disaster recovery software helps to prevent damage to computers, networks, and servers due to catastrophic events. The platform is typically a full suite designed for backup and restoration processes for various situations and applications. Disaster recovery solutions are connected with Disaster Recovery as a Service (DRaaS) tools that are installed on computers and servers to facilitate data/file recovery, backup, and synchronization.

Disaster recovery platforms differ dramatically based on manufacturer. For instance, some applications are built to work with cloud computing disaster recovery and backup programs, while others are utilized for off-site remote backups and backup imaging to outside storage devices. A disaster recovery system is typically leveraged as an "always-on" tracking platform that monitors all alterations to protected applications and ensures those changes are backed up.

Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ✓ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ✓ Customer reference rating score
- ✓ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ✓ Total # of profile views on FeaturedCustomers platform
- ✓ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ✓ Social media followers including LinkedIn, Twitter, & Facebook
- ✓ Vendor momentum based on web traffic and search trends
- ✓ Organic SEO key term rankings
- ✓ Company presence including # of press mentions

COMPANY SCORE

- ✓ Total # of employees (based on social media and public resources)
- ✓ Year-over-year change in # of employees over past 12 months
- ✓ Glassdoor ranking
- ✓ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

"We needed a reliable way to quickly restore systems, including system images and our own customdeveloped applications. Acronis enables us to restore systems in the shortest possible time using our own interfaces. Thanks to acrocmd and tool creation possibilities, the solution is highly userfriendly for our team."

NORBERT DUELL
SECURITY OPERATIONS, SCHAEFFLER

"Acronis' core competencies and strengths, combined with their global market presence, have made them an excellent partner for the club, perfectly aligned to our vision of being at the forefront of technological advancement."

GREG SWIMER
CHIEF TECHNOLOGY OFFICER, MANCHESTER CITY FOOTBALL CLUB

"The Acronis products were strategic for us to package; for example, full security solutions for small and medium enterprises. That's what drove us in the direction toward Acronis."

DANIEL GIACOMONE
CHIEF OPERATING OFFICER, SCIBILE NETWORK

"Greater efficiency allows us to do more with less. We're not adding costs as we're adding services. We can add people to achieve significant growth, not just to manage things."

MARK WIENER
CHIEF EXECUTIVE OFFICER, BIZCOM

ABOUT ASIGRA

asigra

Asigra Cloud Backup is the world's most secure enterprise cloud backup solution, with advanced anti-ransomware features designed to protect backups from damage or corruption. Features like bi-directional malware scanning, enterprise-grade encryption, and deep & task-specific multi-factor authentication increase the chances that your business will survive a ransomware attack. Asigra provides organizations around the world the ability to recover their data now from anywhere through a global network of partners who deliver cloud backup and recovery services as public, private and/or hybrid...

194 TOTAL CUSTOMER REFERENCES

VIEW ALL REFERENCES

FEATURED TESTIMONIALS

Backup has received much more attention and is a higher priority aspect of our technology solutions suite with the surge of ransomware attacks now impacting organizations globally. The Asigra OpEx Backup Appliance with Zadara storage serves as a resiliency orchestration platform that supports critical data recovery requirements for business continuity, while also reducing the capital and management costs of traditional backup systems.

HENRY VELASCO
MANAGING DIRECTOR, SANDZ SOLUTIONS PHILIPPINES

The most common restore is of emails or contact items. BTL provides both online backup and virtual disaster recovery, which are key to our organization where any downtime is costly. Service is reliable and when data needs to be restored it is always available on demand. The ability to restore emails at a granular level back to the same or a different location is invaluable.

DAVID VAN ECK
HEAD OF IT, L.K. BENNETT

Oncore IT's offsite backup and disaster recovery, powered with Asigra technology, has provided us with an easy to manage online backup process that protects all key data on all of our servers and guarantees 100% data recovery of our internal data, client data and the data on our AIM database.

MICHAEL BOSCIC
IT MANAGER, FISHER MEREDITH

The added confidence in BTL's service led to Papworth Trust taking up BTL's Virtual Disaster Recovery Solution, a fully managed DR solution that provides virtualized recovery and hosting when disaster strikes.

ABOUT COHESITY

COHESITY

Cohesity delivers web-scale simplicity for secondary data that eliminates silos and puts data to work. Enterprises rely on their software-defined, hyperconverged platform to radically streamline backup and data protection, converge file and object services, quickly deliver test/dev instances, and provide analytic functions on a single, global data store. Customers and partners, including Global 1000 companies and federal agencies, tired of data center complexity are modernizing and scaling secondary data protection with Cohesity.

391 TOTAL CUSTOMER REFERENCES

VIEW ALL REFERENCES

FEATURED TESTIMONIALS

We use Cohesity in many different ways; we've used the disaster recovery and the dev/test cloning capabilities for additions to server work, to replicate potential changes, and to see how it works—if there are any unexpected issues. Someone else would charge for it, and we get the foresight of doing it away from our production system. Previously, we didn't have the right infrastructure or capabilities to do this but now that we have the joint Cisco– Cohesity solution, we're saving the Trust money and reducing issues associated with changes.

LIAM SIMPSON
SYSTEMS MANAGER, STOCKPORT NHS FOUNDATION TRUST

Fundaments is pleased to partner with Cohesity to offer simplified backup and disaster recovery services to customers from a single, web-scale platform. We rely on automation and orchestration to ensure consistent and rapid deployment of our services. We're proud to be an early tester of secure multi-tenancy and tenant self-service at scale. As a Cohesity Powered partner, we're able to quickly drive operational efficiency, while enabling customers to realize faster time to value and drive innovation.

LARIK-JAN VERSCHUREN
CHIEF EXECUTIVE OFFICER, FUNDAMENTS B.V.

Cohesity helped us reduce our backup windows from around 14 hours to under 2.5 hours. This meant that our backup jobs would no longer bleed into regular work hours. The entire team is totally blown away with how easy it is to use and manage Cohesity.

JESSE BONTRAGER
SYSTEMS ENGINEER, BURRIS LOGISTICS

We started using cohesity to consolidate our secondary storage data that increased our overall operational efficiency. With cohesity, our backups completed faster and more reliably, and in the process we managed to reduce our tco.

FEATURED TESTIMONIALS

Business continuity and disaster recovery (BCDR) is a tough nut to crack for a lot of organizations. Many organizations pay for BCDR solutions, thinking they have them protected, but they don't. Before we introduce change to a client environment, we need to understand what we are building on top of. BCDR is the foundation on which we build our practice. If there are cracks in the foundation, we have a great solution (Datto SIRIS 5) to fill those gaps.

ROBERT THURSTON
CHIEF OPERATING OFFICER, VICINITY

The entire farm ran for a full week without an interruption or issue. It was the first time I had used the Datto SIRIS in a true disaster scenario, and the fact that I could do everything I needed from my phone, in minutes, told me that I had made the right choice going with Datto.

KEITH BRADLEY
IT MANAGER, NATUREFRESH FARMS

Going forward, msp's Like frontline looking to Help local businesses in Disaster areas now can Rely on the drt team to Get them the equipment And assistance they need In person.

STEPHEN JOHNSTON
OWNER, FRONTLINE COMPUTER SERVICES

We adopted Datto EDR over a year ago, and went Big Bang with it across our client base. We see it as a necessity for all of our client base.

ABOUT UNITRENDS

UNITRENDS
A **Kaseya** COMPANY

Unitrends increases uptime and confidence in a world in which IT professionals must do more with less. Unitrends leverages high-availability hardware and software engineering, cloud economics, enterprise power with consumer-grade design, and customer-obsessed support to natively provide all-in-one enterprise backup and continuity. The result is a "one throat to choke" set of offerings that allow their customers to focus on their business rather than backup.

253 TOTAL CUSTOMER REFERENCES

VIEW ALL REFERENCES

FEATURED TESTIMONIALS

Unitrends had the most advanced ransomware solution, as it looks for behavior patterns within the backed up data. It looks for things like too many changed files, system files changing that shouldn't change, and other things. If it notices things like that, it notifies the appropriate people, allowing them to directly address the problem.

W. CURTIS PRESTON
STORAGESWISS.COM – THE HOME OF STORAGE SWITZERLAND

With Unitrends, by the time we found out the WEB server was down, it was about 15 minutes before it was back online and functioning properly.

GREG LANZ
SR. SYSTEM ADMINISTRATOR, CANADA DIAGNOSTIC CENTRES

Unitrends offered me the option of backing up to the device, replicating to the cloud or going to another backup device at a remote location.

RICHARD BOUCHER
DIRECTOR OF IT, TOWN OF KENNEBUNK, MAINE

With Unitrends in place, I was able to recover from an incident in 20 minutes. We lost zero data. We didn't have to pay a ransom.

" The ability to get great performance, control the set-up and then use BWeb to go in and find the exact data we are looking for – or find a previous iteration of that specific file – has actually saved our live production on at least one occasion. We had to restore some vital video files which were accidentally deleted, including critical show elements, with very little time to spare. We were able to save the show, and that alone probably saved a month's worth of work for different organizations throughout the company. "

BRADY SMALL
BRADY SMALL, SENIOR PRODUCTION ENGINEER, WARNER BROS. DISCOVERY

" Bacula Enterprise is used as a main backup tool for the firm, and is used to backup virtual machines, file servers, database servers and so on. Due to the flexibility and power of Bacula Enterprise, we were able to achieve impressive numbers when compared to another tool in the marke. "

ROGERIO GONCALVES
NAVISITE

" Bacula Enterprise is the best for large database backup and advanced restore for companies that want to have a great backup system at an affordable price. "

ELOI CUNHA
BRAZILIAN NAVY MILITARY SERGEANT

" Bacula is easy to use with many useful plugins and also provides extremely helpful technical support. Bacula Enterprise's support is excellent. "

FEATURED TESTIMONIALS

NAKIVO Backup & Replication was simple to set up and has efficient storage of backup data on our QNAP storage. In reality, you always take a keen interest in your backups, however, our experience has been very much different – a set it and forget it approach. Installing and configuring NAKIVO Backup & Replication could not have been easier. As soon as the virtual machine was added into our Nutanix environment, everything from that point was configured from the web interface.

BRETT MACLARTY
IT MANAGER, LAKES GRAMMAR

NAKIVO Backup & Replication has saved our organization a significant amount of time and money – both in personnel's time needed to maintain the backup system and in licensing itself. The solution did not require us to purchase a proprietary backup appliance, significantly cutting the cost for the solution as a whole.

KEVIN BIEGERT
INFORMATION TECHNOLOGY MANAGER, THE JEFFERSON COUNTY COMMUNICATIONS CENTER AUTHORITY (JEFFCOM 911)

With NAKIVO Backup & Replication, we can now replicate our VMs to different hosts and back up and recover Microsoft 365 data. Previously, we were able to protect the data inside the VM, but not the entire VM itself. Now, we can perform different backups, including backup to cloud. VCORE Experts Thailand has been a great partner from start to finish and helped us address all the technical and product-related questions promptly.

WEERWAT CHAWAKHIEW
IT MANAGER, CAMEL TIRE

NAKIVO Backup & Replication offered us a variety of features at an affordable price. We tested other similar solutions and all were way too expensive for us.

With NovaBACKUP Business Essentials, our doctors get the all-round carefree package: simple data backup including disaster recovery, backup of MS SQL and virtual machines. For medical offices, we can recommend NovaBACKUP without hesitation, because the overall package is just right!

GEREON SCHUBERT
HMS GMBH

I find NovaBACKUP a very easy to use and efficient solution for managing data protection for our customers. I have never had any issues with NovaBACKUP. It simply works. Plus, the price is fair.

STEVE OLDHAM
OWNER, OLDHAM CONSULTING

I am using NovaBACKUP Business Essentials on our server, and I am very impressed. I have used every backup software out there, and this is by far the best.

ALLEN HAYNIE
IT MANAGER, ALLIED EQUIPMENT

NovaBACKUP does exactly what I need, and I love them. Their support is great, they're always available, and it's local.

"SEP sesam supported our entire infrastructure and came in at the right price point. SEP sesam is better for budgets. The way the [SEP] price structure is designed makes it easier to get no matter what your size, which was a huge advantage for people like me, who have to go out and battle for budgets."

PIERRE FAUTEUX
IT COORDINATOR, COLLÈGE JEAN-DE-BRÉBEUF

"I think SEP sesam is great. It's really easy to use and the [SEP] engineers are great to work with. They really know what they are doing and overall support is excellent. The entire installation process was fairly quick and easy."

KATIE EVERS
IT SPECIALIST, CITY OF FITCHBURG

"The best part about SEP sesam is that I can back everything up with one product. All areas and volumes of data are covered with a single backup solution."

THOMAS GREBNER
IT MANAGER, DAVOS KLOSTERS BERGBAHNEN AG

"SEP sesam's easy installation, blazing fast solutions, reliability and first-class technical support place it head and shoulders above the competition."
