SD-WAN Software Category

WINTER 2026
Customer Success Report

SD-WAN Software Category

Software-defined wide-area network (SD-WAN) is a technology that enables enterprises to dynamically link data centers and branch offices on a worldwide scale. As businesses use an increasing number of cloud-hosted solutions, conventional WAN networks are not able to maintain optimized connectivity and strong speeds. Improving multiprotocol label switching (MPLS) tools to meet this challenge is time-consuming and expensive. SD-WAN is a more cost-effective technology that can give results with previously improbable efficiency and agility.

Compared to conventional routing hardware usage, SD-WAN offers more flexibility in managing connection efficiency even when there is higher network demand. The operational benefits and lower cost of SD-WAN is attracting businesses, and industry reports indicate that 25% of users will switch to this technology in 2019. As a result, the SD-WAN market is predicted to top $1.3 billion by the year 2020.

Customer Success Report Ranking Methodology

The FeaturedCustomers Customer Success ranking is based on data from our customer reference platform, market presence, web presence, & social presence as well as additional data aggregated from online sources and media properties. Our ranking engine applies an algorithm to all data collected to calculate the final Customer Success Report rankings.

The overall Customer Success ranking is a weighted average based on 3 parts:

CONTENT SCORE

- ✓ Total # of vendor generated customer references (case studies, success stories, testimonials, and customer videos)
- ✓ Customer reference rating score
- ✓ Year-over-year change in amount of customer references on FeaturedCustomers platform
- ✓ Total # of profile views on FeaturedCustomers platform
- ✓ Total # of customer reference views on FeaturedCustomers platform

MARKET PRESENCE SCORE

- ✓ Social media followers including LinkedIn, Twitter, & Facebook
- ✓ Vendor momentum based on web traffic and search trends
- ✓ Organic SEO key term rankings
- ✓ Company presence including # of press mentions

COMPANY SCORE

- ✓ Total # of employees (based on social media and public resources)
- ✓ Year-over-year change in # of employees over past 12 months
- ✓ Glassdoor ranking
- ✓ Venture capital raised

Award Levels

MARKET LEADER

Vendor on FeaturedCustomers.com with substantial customer base & market share. Leaders have the highest ratio of customer success content, content quality score, and social media presence relative to company size.

TOP PERFORMER

Vendor on FeaturedCustomers.com with significant market presence and resources and enough customer reference content to validate their vision. Top Performer's products are highly rated by its customers but have not achieved the customer base and scale of a Market Leader.

RISING STAR

Vendor on FeaturedCustomers.com that does not have the market presence of Market Leaders or Top Performers, but understands where the market is going and has disruptive technology. Rising Stars have been around long enough to establish momentum and a minimum amount of customer reference content along with a growing social presence.

VIEW ALL REFERENCES

FEATURED TESTIMONIALS

With nearly 80% of our WAN traffic used for cloud and SaaS applications, it was apparent we needed to look at an SD-WAN solution as part of our digital transformation strategy. What's more is when we tried to open new locations in remote geographies across the Middle East, China and India, we began to experience poor customer service, longer lead times and higher costs from the MPLS providers in charge of servicing those sites.

SHIN STERNECK
HEAD OF GLOBAL NETWORK AND TELECOMMUNICATION SERVICES, TUV RHEINLAND

Aryaka has delivered above and beyond our expectations for application performance, security, visibility and support on a cloud-based network. They have freed up our internal IT staff to focus on bigger-picture strategic initiatives to advance our enterprise.

TODD HUMPHREY
VP OF GLOBAL INFRASTRUCTURE, HUBBELL

Aryaka Networks, a SD-WAN provider, is disrupting telecom giants by providing a networking option that eliminates hardware and helps control costs. The end result is seamless connectivity that's optimized for cloud-based applications and global access.

DANIEL ROTH
EDITOR-IN-CHIEF, LINKEDIN

Large companies with global WAN deployments should consider Aryaka their global SD-WAN solution - [it] has become a must-have for enterprises. It delivers reliability and performance at a fraction of the cost.

ALEX VIEUX
PUBLISHER AND CHIEF EXECUTIVE OFFICER, RED HERRING

ABOUT ERICSSON ENTERPRISE WIRELESS SOLUTIONS

Ericsson Enterprise Wireless Solutions

Cradlepoint is now the Enterprise Wireless Solutions division of Ericsson. Their solutions enable organizations to innovate, operate, and grow anywhere — without constraints. Ericsson NetCloud, Cradlepoint routers, and Enterprise 5G solutions provide the flexibility of public and private 5G, with the zero trust security of simplified SASE.

329 TOTAL CUSTOMER REFERENCES

VIEW ALL REFERENCES

FEATURED TESTIMONIALS

Cradlepoint is a critical element of SEE's solutions. Cradlepoint provides SEE with a lightweight and reliable wireless network solution that provides both primary and failover connections for every applicable situation. Working seamlessly within our solutions, Cradlepoint's ability to create hotspots and integrate with multiple wireless service providers allows first response teams the confidence that information gathered can be shared in real time with the people that need it the most.

DAVID LAMENSDORF
CEO AND FOUNDER, SAFE ENVIRONMENT ENGINEERING

The Cradlepoint Enterprise Support Team has played a crucial part in LACoFD's router configuration. They have exceeded our expectations by accommodating a high level of reliability for our first responders. Cradlepoint understands that our first responders work 24x7, and LACoFD is confident in Cradlepoint's technical abilities to transition us to the next generation of technologies.

SCOTT ENGLAND
LOS ANGELES COUNTY FIRE DEPARTMENT

Before using Cradlepoint it was hard for us to provide WiFi where visitors wanted it. With Cradlepoint as the backhaul and using access points, we can provide WiFi anywhere we have power and signal to a cell tower.

MARION WEAVER
NETWORK ENGINEER, SOUTH CAROLINA DEPARTMENT OF PARKS, RECREATION & TOURISM

If we need to remote desktop into a ruggedized tablet in a police vehicle, we can do that with Cradlepoint's SD-Perimeter. Without Cradlepoint, this would have taken a lot more hardware, software, and man-hours.

ABOUT ECESSA

ECESSA®
A product of OneNet Global

Ecessa is a technology leader in the SD-WAN space. With over 12,000 successful deployments, they have helped the IT managers at single sites, small and medium enterprises and Fortune 1000 organizations make sure their networks never lose connectivity, and quite honestly, are Never Down™. Ecessa provides every business at every stage and IT budget with a smart, sustainable path to a more perfect network.

70 TOTAL CUSTOMER REFERENCES

VIEW ALL REFERENCES

FEATURED TESTIMONIALS

Ecessa provides a high-quality platform that maintains our steady, secure, mission-critical internet services. Our pair of Ecessa units work reliably with very little administrative effort! Ecessa's customer-oriented technical support helped us successfully deploy the product and provided great support with timely responses. For product quality, value and support, I give them an A+++ rating.

BOBSON LAM
CITY OF SAN LEANDRO

The Ecessa product gives complete control over our DNS infrastructure, the agility to make changes when needed and see the results immediately. The City has migrated untold services to cloud or online locations and now has the ability to ride out a service interruption without any disruption to end users. Ecessa saves our help desk untold hours.

BOB AMBROSO
CITY OF WHITTIER

Ecessa's SD-WAN solution not only finally delivers us confidence in our failover solution at all of our critical sites, it also allows us to better leverage our investment in multiple carriers by converting static failover circuits to active circuits.

JEFF HOLMSTEDT
VP AND CIO, TRANS STATES AIRLINES

Optimizing our WAN was a key priority for our organization. User productivity has dramatically improved, and the IT department is no longer getting complaints because users can't upload their video files and send and receive email.

MARK AHERRERA
IT DIRECTOR, OXFAM AMERICA

FEATURED TESTIMONIALS

❝ With MetTel's Contact Center as a Service powered by Talkdesk, we are now able to operate with heightened efficiency, flexibility, and transparency, all with greater levels of security and at a lower cost. This has enhanced our ability to serve our customers and give them the white glove care and service that people have come to expect from Grand America Hotel & Resort. ❞

ADAM TALBOT
TELECOMMUNICATIONS MANAGER, GRAND AMERICA HOTEL & RESORT

❝ As I looked at the other providers, I got the sense that they got into SD-WAN because it was fashionable, whereas MetTel had the intuition to know that this was something important well before the industry caught on. And that was important to us. ❞

JOHN PIERATT
VICE PRESIDENT BUSINESS EXECUTIVE, NETWORK & VOICE SERVICES, FIS

❝ We were impressed that SD-WAN service utilized both the primary and backup circuits in real time to provide seamless failover as well as combined bandwidth of the two circuits. ❞

STAN HEIRMERL
IT MANAGER, B. RILEY WEALTH MANAGEMENT

❝ This platform has achieved the highest ROI of any platform in use by Floor Coverings International. ❞

TOM WOOD
CHIEF EXECURIVE OFFICER, FLOOR COVERINGS INTERNATIONAL

FEATURED TESTIMONIALS

Mushroom Networks' Truffle product allowed us to combine various fiber and DSL lines with satellite and LTE wireless to provide a reliable and redundant broadband connection for our clients' voice, video and data needs. Once we installed Mushroom Networks' SD-WAN our clients bluntly stated, 'Thank you for the super pipe'. Our clients depend on a high-performance Internet pipe for most of their voice and data applications.

CARL A. TURNLEY
PRESIDENT, KAPTEL

Our experience with AdTech's rollout of Mushroom Networks solution has been nothing short of exceptional. So much so that the networks in our offices now can hide individual ISP problems from our users – that is priceless.

STEPANIE LOPEZ
FIRM ADMINISTRATOR, BORTON PETRINI

In our Mushroom Networks SD-WAN deployments the performance improvements have been phenomenal. We were able to consistently hit 4.5 on the MOS score scale, even outperforming some of our dedicated T1 circuits.

JAMES LAWSON
PRESIDENT, ADTECH IT SOLUTIONS

Mushroom Networks enabled DNG Technology to grow 400% and to keep additional costs down.
